

Special Education is a Service, Not a Place

General Education

The vision of LRE is to make sure that students who receive special education are included in the general education classroom as often as possible.

Education Specialist Instruction Credential

A special education teacher is able to conduct educational assessments related to student's access to the academic core curriculum and progress towards meeting instructional academic goals, provide instruction and special education support to individuals in the area of specialization on their credentials.

Access

Federal law says that students with disabilities should be educated alongside their non-disabled peers "to the maximum extent possible." Other types of classrooms or placements should be considered only if the student will not be able to experience success in the general education classroom.

Peers

Students with disabilities should be with students in general education to the "maximum extent that is appropriate."

Continuum of Placement Options

Special classes, separate schools, or removal from the general education class should only happen when a student's disability under IDEA—is so severe that supplementary aids and services can't provide the student with an appropriate education.

Special Education

There is no "one size fits all" approach to special education. It's tailored to meet each student's needs. Special education refers to a range of services that can be provided in different ways and in different settings. Accommodations are a key component of special education and allow more students to access the general curriculum.

Accommodations & Modifications

Accommodations refer to how a student learns. Modifications refer to how much a student is expected to do or learn.
