**New Challenges for the EU Internal Security Strategy** Maria O'Neill, Ken Swinton, Aaron Winter, 2013-07-16 In recent years the EU and its member states have experienced a number of changes as well as challenges in the areas of politics economics security and law As these areas are interconnected changes and challenges to

any of them have implications for the others as well as implications for the populations and institutions of the EU or those coming into contact with its international power and influence This edited collection focuses primarily on security and law particularly the EU s internal security strategy The EU s Internal Security Strategy adopted by the Spanish presidency early in 2010 followed the Lisbon Treaty in 2009 building on previous developments within the EU in the Area of Freedom Security and Justice AFSJ policy The focus of the EU Internal Security Strategy is to prevent and combat serious and organised crime terrorism and cybercrime in strengthening the management of our external borders and in building resilience to natural and man made disasters The Internal Security strategy intersects and overlaps with the European Union s Counter terrorism strategy the Strategy for the External Dimension of JHA and the EU s Security Strategy The role of and interaction between these strategies their supplementing documents and their implications for crime victims the law political relations democracy and human rights form the backdrop against which the chapters in this collection are written Building on original research by its contributors this collection comprises work by authors from a wide variety of academic and professional areas and perspectives as well as different countries on a variety of areas and issues related to or raised by the EU s Internal Security Strategy from intelligence led policing to human trafficking and port security This book examines from a wide variety of disciplinary perspectives including law geography politics and practice both this further refinement of existing internal provisions on cross border crime and the increasing external relations of the EU in the AFSJ

Analysis of Security in cloud hosted Service & Self Hosted Services Dr. Ashad ullah Qureshi,2022-06-01 As more and more organizations consider moving their applications and data from dedicated hosting infrastructure which they own and operate to shared infrastructure leased from the cloud security remains a key sticking point Tenants of cloud hosting providers have substantially less control over the construction operation and auditing of infrastructure they lease than infrastructure they own Because cloud hosted infrastructure is shared attackers can exploit the proximity that comes from becoming a tenant of the same cloud hosting provider As a result some have argued that that cloud hosted infrastructure is inherently less secure than the self hosted infrastructure and that it will never be appropriate for high stakes applications such as health care or nancial transaction processing
