*Payment Due* Timothy J Penny, 2018-02-12 The generational wars are about to begin competing for entitlements wrestling over taxes dancing around the deficit Today s children and grandchildren are tomorrow s taxpayers and social fabric The authors of *Payment Due* contend that our current policies of federal overspending are setting those children up for economic disaster Former Representative Tim Penny D MN knows how volatile the politics of the situation are he retired because he couldn t locate in Congress at large the institutional will or stomach to deal with the issues squarely Political scientist Steven Schier understands the way in which the politics work against economics to solve the problem Together they take us inside the Capitol corridors to show us the lobbying arm twisting and pork barrel politicking that goes on to derail policies designed to reduce the federal deficit We get to play the Washington Monument game along with the worst of the offenders and to see firsthand how three schools of deficit thought the wolves pussycats and termites approach the prospect of cutting back federal outlays and weaning the great middle class from its own welfare dependency A hallmark of the book is its three tiered set of long term entitlement reform proposals complete with careful documentation of the contribution each recommended item makes toward reducing the federal deficit or at least slowing its increase Along with suggested short term plans these proposals give students the opportunity to try to solve both short and long term problems Students will appreciate the timeliness and relevance of the book s argument to their generation s future plight and all readers will benefit from the clear presentation of complex economic concepts and arguments essential to understanding the federal deficit debate and to confronting the political social and moral payments now coming due

*The State of the Nation* Derek Curtis Bok, 1998 The author shows that although Americans are better off today in most areas than they were in 1960 they have performed poorly compared with other leading industrial nations
