Facts For The People:

Sharing Reality Jeff T. Haley, Dale McGowan, 2017-09-01 Religions are a natural outgrowth of the intuitive ways of knowing that evolved with human culture Though many people continue to find value in religious identity and community intuitive knowledge has been eclipsed by a more effective way of knowing the scientific way A better way of relating religion to politics called secularism is gradually replacing theocracy Once you understand and accept the scientific way of knowing and this preferred relationship of church and state you become agnostic and secular even if you continue to identify with and participate in religion As Jeff T Haley and Dale McGowan argue in this volume this isn't some abstract dream it's happening right now Religions are in a continuous state of evolution changing beliefs values and practices over time All religions including Christianity and Islam can evolve to accept the scientific way of knowing and secularism becoming agnostic and even atheistic without losing their essential value Haley and McGowan explain how you can help this natural process sharing reality with your friends and family in a way that encourages religions to embrace the best of humanity's knowledge and values

BullyProof Rob Fazio, PhD, 2022-05-24 BullyProof explains how to win when interacting with alpha personalities All bullies are alphas but not all alphas are bullies Alphas are people who take charge of situations whether they are the expert or identified leaders More often than not alphas are perceived as bullies and it's not always intentional The challenge is that when interacting with alphas the reaction is often emotional and results in two actions 1 punch back harder fight or 2 avoid and run flight This results in a cycle of dysfunction and losing People are programmed to hate people who push them around and that hate cloud strategy The best approach is to find a fit which will give someone a better chance of getting what they want Amazingly it also breaks the cycle of dysfunction fighting and avoidance and allows alphas to see the value in partnering and not winning at all costs BullyProof is not a book about giving up giving in or losing Contrary to popular belief power is something anyone can build in themselves and others Dr Fazio explains that there are ways to win that don't focus on making sure someone loses People love the underdog Dr Fazio has spent the last 20 years advising underdogs and the top dogs What he has found through his original research client experience and life experience has
