Haug,Gregory R. Peterson,Michael L. Spezio,2012-03-12 The field of religion and science is one of the most exciting and dynamic areas of research today This Companion brings together an outstanding team of scholars to explore the ways in which science intersects with the major religions of the world and religious naturalism The collection provides an overview of the field and also indicates ways in which it is developing Its multicultural breadth and scientific rigor on topics that are and will be compelling issues in the first part of the twenty first century and beyond will be welcomed by students and scholars alike      Ethics and Liberation Charles L. Kammer,2002-12-26 The introduction to the nature and purpose of Christian ethics presents an ethical theory consistent with the fundamental insights of the Christian tradition Ethics and Liberation outlines an ethic which provides guidelines for responsible stands on contemporary issues be they personal or socio political Exploring both the strengths and weaknesses of traditional Christian ethics Kammer proposes going beyond them to an ethic of theonomous responsibility one based on the precepts of liberation theology Stressing the socio political dimension of ethics Kammer follows the threads of Christian tradition that led to an emphasis on personal salvation and a neglect of social issues Finally he traces the path from Christian realism through liberation theology Ethics and Liberation concludes with a discussion of two serious test cases in contemporary moral issues the distribution of health care and nuclear disarmament

Murphy,Lavonne Althouse,Russell Willis,1996 Since the Church is called to preach the Gospel in a world which is profoundly influenced by science and technology it is important to know ways in which Scripture provides resources to address scientific and

technological concerns This book will help to develop sermons which address the intersection between Christian faith and contemporary knowledge It introduces and examines crucial issues and ideas and provides illustrations which will entice preachers to preach on contemporary topics Not only will preaching from this commentary enrich our spiritual life it will also challenge and deeply shape our response to the preached Word in our individual and social lives Philip Hefner Professor of Systematic Theology Lutheran School Theology at Chicago *Herman Daly's Economics for a Full World* Peter A.

From Physicians' Professional Ethos towards Medical Ethics and Bioethics Corinna Delkeskamp-Hayes, 2022-02-01 This book assembles essays by thinkers who were at the center of the German post World War II development of ethical thought in medicine It records their strategies for overcoming initial resistance among physicians and philosophers and in the East politicians This work traces their different approaches such as socialist versus liberal bioethics illustrates their attempt to introduce a culture of dialogue in medicine and examines their moral ambiguities inherent to the institutionalization of bioethics and in law Furthermore the essays in this work pay special attention to the problem of ethics expertise in the context of a pluralism which the intellectual mainstream of the country seeks to reduce to varieties of post traditionalism Finally this book addresses the problem of patient autonomy and highlights the difficulty of harmonizing commitment to professional integrity with the project of enhancing physician s responsiveness to suffering patients As these essays illustrate the development of bioethics in Germany does not follow a linear line of progressiveness but rather retains a sense of the traditional ethos of the guild An ethos however that is challenged by moral pluralism in such a way that even today still requires adequate solutions A must read for all academics interested in the origins and the development of bioethics

**One Christ--Many Religions** S. J. Samartha, 2015-06-29 Here is a wise radical and illuminating book on the obstacles that a rigid interpretation of orthodox christological doctrines presents to dialogue with

persons of other faiths One Christ Many Religions examines religious pluralism today and in the light of its implications for the global community suggests the contours of a revised christology more credible to Christians and their neighbors of other faiths Samartha argues that the problem with the christological dogmas of the first Ecumenical Councils is not their truth so much as their interpretation and the un Christian zealotry they seem to engender in Christians Sensitive to charges of sentiments of racial and cultural superiority that stem from Christians believing themselves uniquely authorized agents of God Samartha challenges us to admit the truth of these accusations and to revise our understanding of Jesus Without such christological revisions Samartha fears Christianity may cease to be Christian may become enfeebled in the pursuit of justice for the oppressed alienated from the deeper challenge of Jesus sealed off from the truths of other religions and ultimately may be barred from experiencing the rich and mysterious encounter of God *Faith and Thought*, 1983 *Toward an Ecology of Transfiguration* John Chryssavgis, Bruce V. Foltz, 2013-06-03 Can Orthodox Christianity offer spiritual resources uniquely suited to the environmental concerns of today This book makes the case emphatically that it can indeed In addition to being the first substantial and comprehensive collection of essays in any language to address environmental issues from the Orthodox point of view this volume with contributions from many of the most influential theologians and philosophers in contemporary world Orthodoxy will engage a wide audience in academic as well as popular circles resonating not only with Orthodox audiences but with all those in search of a fresh approach to environmental theory and ethics that can bring to bear the resources of ancient spirituality often virtually unknown in the West on modern challenges and dilemmas **Cosmic Grace, Humble Prayer** Bartholomew I (Ecumenical Patriarch of Constantinople), 2009-06-19 Cosmic Grace Humble Prayer presents the powerful ecological vision of Patriarch Bartholomew drawing together a comprehensive collection of his church statements and occasional addresses some available in English only here This second edition provides an updated selection of letters and addresses by the Patriarch including such statements from 2003 to 2007 Editor John Chryssavgis has organized these pieces chronologically and thematically highlighting particular points of interest and importance In addition he provides a substantial historical and theological introduction to the initiatives and writings of Patriarch Bartholomew that also invites readers into the unparalleled environmental perspective of the Orthodox Church **Nairobi to Vancouver** Ernest W. Lefever, 1987
