Faith On The Frontier A Life Of J H Oldham:

Faith on the Frontier Keith W. Clements, 1999 The first biography of J H Oldham one of the greatest pioneers of ecumenism in the twentieth century Keith Clements draws on important hitherto unexplored archival material Sections relate to Oldham's time as a missionary in India his role as Secretary of the World Missionary Conference usually recognised as the birth of the modern ecumenical movement his reconciliatory roles in the First and Second World Wars and his involvement with the Life and Work movement In a final chapter Dr Clements reflects on Oldham's considerable and continuing relevance today This book challenges many accepted readings of ecumenical history **A Grain of Faith** Allan Hepburn, 2018-11-15 During and after the Second World War there was a concerted thinking about religion in Britain Not only were leading international thinkers of the day theologians Ronald Niebuhr Paul Tillich Jacques Maritain but leading writers contributed to discussions about religion Graham Greene Muriel Spark and Barbara Pym incorporated miracles evil and church going into their novels while Louis MacNeice T S Eliot and C S Lewis gave radio broadcasts about the role of Christianity in contemporary society Certainly the war revived interest in aspects of Christian life Salvation and redemption were on many people's minds The Ministry of Information used images of bombed churches to stoke patriotic fervour and King George VI led a series of Days of National Prayer that coincided with crucial events in the Allied campaign After the war and throughout the 1950s approximately 1.4 million Britons converted to Roman Catholicism as a way of expressing their spiritual ambitions and solidarity with humanity on a world wide scale Religion provided one way for writers to answer the question what is man It also afforded ways to think about social obligation and ethical engagement Moreover the mid century turn to religion offered ways to articulate statehood not from the perspective of nationhood and politics but from the perspective of moral action and social improvement Instead of being a retreat into seclusion and solitude the mid century turn to religion is a call to responsibility *Faith Facing Reality* John W. de Gruchy, 2022-10-21 The COVID 19 pandemic and the war in Ukraine have starkly reminded us of the realities that threaten our future on planet Earth Christian faith is not a way of escaping these realities but of engaging them in the struggle for justice and peace motivated by love enabled by faith and sustained by hope This is based on the conviction that in Jesus Christ the reality of God has become redemptively embodied within the reality of the world Written within the context of South Africa but with global vision and in conversation with the legacy of Dietrich Bonhoeffer this book is an attempt to stir up discussion and inform action in connecting worldly and transcendent reality Inevitably this will be controversial not least because that is something that Bonhoeffer risked This is certainly true when it comes to the five realities that provide much of the book's substance the persistence of racism the will to power scientism and soulless technology the conflict in Israel Palestine and the threat of wars and pandemics Is it possible to believe in the God of Jesus Christ in such a world If so what does that mean and how does it help us live creatively redemptively and faithfully To answer these questions the author examines the meaning of faith the human desire for

transcendence and the need for conversion wisdom solidarity and responsible freedom

A Prophetic Voice—David Smith Cairns (1862-1946) Marlene Elizabeth Finlayson, 2018-12-07 This biography provides an exploration of the formative influences development and impact of the theology of David Smith Cairns Scottish minister academic and writer during the high point of British imperial expansion and at a time of social tension caused by industrialization It describes and evaluates his role in the Church's efforts to face major challenges relating to its relationships to the different world religions its response to the First World War and its attitude to the scientific disciplines that called into question some of its longstanding perceptions and suppositions An eminent figure born into the United Presbyterian Church and rooted in the Church in Scotland Cairns operated ecumenically and internationally His apologetics challenged the prevailing assumptions of the day that science provided the only intellectually legitimate means of exploring the world and that scientific determinism ruled out the Christian conception of the world as governed by providence A major feature of his theology was the presentation of Christianity as a reasonable faith and throughout his life he maintained a particular concern for young people having endured his own crisis of faith when a student in Edinburgh He enjoyed a decades long involvement with the World Student Christian Federation based on a mutually enriching relationship with one of its leading figures the renowned American evangelist John Raleigh Mott

T. S. Eliot and Organicism Jeremy Diaper, 2018-12-12 This book reads T S Eliot's poetry and plays in light of his sustained preoccupation with organicism It demonstrates that Eliot's environmental concerns emerged as a notable theme in his

literary works from his early poetry notebook of poems known as *Inventions of the March Hare* at least until *Murder in the Cathedral* *New Dictionary of Theology* Martin Davie, Tim Grass, Stephen R. Holmes, John McDowell, Thomas A. Noble, 2016-04-27 This classic one volume reference work is now substantially expanded and revised to focus on a variety of theological themes thinkers and movements From African Christian Theology to Zionism this volume of historical and systematic theology offers a wealth of information and insight for students pastors and all thoughtful Christians **British Christians and the Third Reich** Andrew Chandler, 2022-05-19 A new approach to the moral and intellectual debates provoked by Nazism in Germany the Holocaust and World War II **Taking Stock of Bonhoeffer** Stephen J. Plant, 2016-04-01 Bonhoeffer's theology continues to prove richly fruitful in the 21st century This book gathers together Stephen Plant's scholarly engagement with Bonhoeffer's life and theology over two decades This collection makes accessible Plant's distinctive perspective on Bonhoeffer's theology in particular on the key themes of biblical exegesis ethics and the intimate connections Bonhoeffer discerns between them **God at Work** David W. Miller, 2007 In the 1980s Miller shows a complex set of independent developments gave rise to what is known as the Faith At Work movement He analyses the history of the movement examines membership profiles and modes of expression and constructs and proposes a new framework for discussing the movement Appointments with Bonhoeffer Keith Clements, 2022-07-28 Keith Clements sets out how and why Dietrich Bonhoeffer more than seventy five years after his execution by the Nazis still speaks cogently both to the churches and society Beginning with the earlier reception of him as a martyr figure and then as a provocatively original theologian this book argues his relevance to contemporary engagement with public ethics ecumenism truth telling and reconciliation the relation between faith and democracy in a time of political extremism the issues of national identity signalled by Brexit and the challenge of finding an ethical response to such challenges as the global pandemic Bonhoeffer's perception that living representatively on behalf of others is both the key to who God is as known in Jesus Christ and the basis of all truly human community provides the connecting thread running through these chapters on what it means to believe and be responsible in a fragmenting world Clements also links this thread to the seventeenth century spiritual writer Thomas Traherne and the Catholic Modernist Friedrich von H gel **Christopher Dawson** Joseph T. Stuart, 2022-01-14 The English historian Christopher Dawson 1889 1970 was the first Catholic Studies professor at Harvard University and has been described as one of the foremost Catholic thinkers of modern times Joseph T Stuart argues that through Dawson's study of world cultures he acquired a cultural mind by which he attempted to integrate knowledge according to four implicit rules intellectual architecture boundary thinking intellectual asceticism and intellectual bridges Dawson responded to the cultural fragmentation after the Great War 1914 1918 through this multilayered approach to culture which was an instantiation of John Henry Newman's philosophical habit of mind Stuart demonstrates how Dawson formed his cultural mind practicing an interdisciplinary science of culture involving anthropology sociology history and comparative religion and applied his cultural

thinking to problems in politics and education The Changing Face of Colonial Education in Africa Peter Kallaway, 2021-07-29 The Changing Face of Colonial Education in Africa offers a detailed and nuanced perspective of colonial history based on 15 years of research that throws fresh light on the complexities of African history and the colonial world of the first half of the twentieth century It provides an analytical background to the history of education in the colonial context by balancing contributions by missionary agencies colonial government humanitarian agencies scientific experts and African agents It offers a foundation for the analysis of modern educational policy for the postcolonial state It attempts to move beyond clichés about colonial education to an understanding of the complexities of how educational policy was developed in different places at different times while giving credence to arguments that see schooling as a form of social control in the colonial environment It is essential reading for academics researchers and policymakers looking to better understand colonial education and contextualize modern developments related to the decolonizing African education It is intended to provide an essential background for policy makers by demonstrating the significance of a historical perspective for an understanding of contemporary educational challenges in Africa and elsewhere *The Ecumenical Movement* Thomas E. FitzGerald, 2004-04-30 What is Ecumenism How and when did it start What are its goals and how will they affect the future of the Christian churches This book answers these questions and examines the remarkable story of new encounters between Orthodox Roman Catholic Anglican Old Catholic and most Protestant churches Most of these churches have been divided for centuries over issues of theology faith and practice Ecumenism seeks to reconcile these differences and to bring the churches together into a new unity based on their commonalities and their understanding of Christian faith Here FitzGerald traces the history of the churches and their divisions and focuses on the ways in which the Ecumenical movement began and the efforts that have been made to assist the churches in overcoming age old strife animosity and misunderstanding For centuries Christian churches have remained divided over their doctrinal differences but beginning in the late nineteenth century churches and their members slowly began to emerge from their isolation They began to abandon competition mistrust and misunderstanding in an effort to seek out their common interests and faith through meetings and organizations meant to bring them together The encounters between the churches led to proposals for common prayers for unity and for common witness in society While not without difficulty these encounters have fostered a renewal in Christian theology worship and witness affecting all levels of church life The process has touched Christians all over the world in various ways FitzGerald carefully traces the history of the movement and its impact on the churches themselves as well as the believers who attend them making this important reading for all Christians and anyone interested in learning more about church division and efforts to restore unity **Young, Woke and Christian** Victoria Turner, 2022-02-28 Young people are often referred to as the church's missing generation But perhaps it is not them that are missing from God's mission but the church itself Young Woke and Christian brings together young church leaders and theologians who argue that the church needs to

become increasingly awake to injustices in British society It steers away from the capitalistic marketing ideas of how to attract young people into Christian fellowship and proclaims that the church's role in society is to serve society give voice to the marginalised and stand up to damaging dominating power structures Covering themes such as climate change racial inclusivity sexual purity homelessness food poverty sexuality trans identity feminism peace making interfaith relations and disability justice the collection is a cry for the reform of the church to not ally with woke issues because they are popular with youth but because they are gospel issues With a powerful prologue from Anthony Reddie *This is your hour* John Carter Wood, 2019-05-02 In the 1930s and 1940s amid the crises of totalitarianism war and a perceived cultural collapse in the democratic West a high profile group of mostly Christian intellectuals met to map out middle ways through the age of extremes Led by the missionary and ecumenist Joseph H Oldham the group included prominent writers thinkers and activists such as T S Eliot John Middleton Murry Karl Mannheim John Baillie Alec Vidler H A Hodges Christopher Dawson Kathleen Bliss and Michael Polanyi The Oldham group saw faith as a uniquely powerful resource for social and cultural renewal and it represents a fascinating case study of efforts to renew freedom in a dramatic confrontation with totalitarianism The group's story will appeal to those interested in the cultural history of the Second World War and the issue of applying faith to the modern social order

Grasping Truth and Reality Donald Le Roy Stults, 2009-02-26 When Lesslie Newbigin returned to Britain in 1974 after years of missionary service he observed that his homeland was as much a mission field as India where

he had spent the majority of his missionary career He concluded that the Western world needed a missionary confrontation Instead of the traditional approach to missions however Newbigin realized that the Western world needed to be confronted theologically From his earliest days at Cambridge University Newbigin developed the theological convictions that shaped his understanding of the Christian faith and he used these theological convictions as criteria to evaluate the belief system of Western culture and to provide an answer to its dilemma The Enlightenment reintroduced humanism and dualism into Western culture which resulted on the loss of purpose and the rise of scepticism This book discusses Newbigin s theological convictions and how they factored into both his critique of and his solution to Western culture s spiritual and worldview problems Donald Le Roy cleverly explains Newbigin s solution to reintroduce the Christian belief system into Western culture in order to restore purpose and truth to Westerners and put them back in contact with true reality through Jesus Christ
