**Faiths in Conflict?** Vinoth Ramachandra,1999 Crosscultural communication and interconnection have never been greater in the history of the world Yet the potential for intercultural conflict accompanies every advance And religious belief which lies at the heart of most cultures often appears to contribute to such unrest and at times even to violence In this fascinating and ground breaking study Vinoth Ramachandra explores the complex nature of conflict among the major world religions of Islam Hinduism Buddhism and Christianity and also between them and the rising tide of secularism Challenging stereotypes built up on every side he raises questions about the seemingly inevitable clash of cultures due to their respective religious commitments He puts to the test the belief that a secular society that rejects universal truth claims can sustain a truly tolerant and pluralistic society He passionately demonstrates how the distinctive message of Christianity concerning the uniqueness of Jesus Christ actually provides a basis for a truly democratic and multicultural society Faiths in conflict? :

Christian integrity in a multicultural world Vinoth Ramachandra,1999 *Faiths in Conflict?* Vinoth Ramachandra,2000-08-28 In this fascinating and ground breaking study Vinoth Ramachandra explores the complex nature of conflict among the major world religions of Islam Hinduism Buddhism and Christianity and also between them and the rising tide of secularism

**Who Can Be Saved?** Terrance L. Tiessen,2009-09-20 Throughout history millions have lived and died without hearing the gospel of Jesus Christ Despite vigorous missionary efforts large populations of the world today have never been evangelized And now religious pluralism has set up shop on Main Street The question Who can be saved forces itself on the minds of Christians like never before Is there a wideness in God s mercy Does God reveal himself in a way that invites all people to respond positively in saving faith Does one have to be an Arminian to believe so Or is there a way for Calvinists to see how God might reveal and save apart from the explicit gospel and yet exclusively through Jesus Christ And if so what does this say about the role of religions within the sovereign providence of God These are big questions requiring thoughtful care In this intriguing study Terrance L Tiessen reassesses the questions of salvation and the role of religions and offers a proposal that is biblically rooted theologically articulated and missiologically sensitive This is a book that will set new terms for the discussion of these important issues Neighboring Faiths Winfried Corduan,2024-04-30 In this updated and revised edition of a classic text readers will find informed empathetic insights into world religions like Judaism Islam

Hinduism Native American religion and many more Emphasizing both formal teaching and daily practice this text shows Christians how to engage adherents of these faiths in constructive dialogue **The Cambridge Companion to**

**Evangelical Theology** Timothy Larsen,Daniel J. Treier,2007-04-12 Evangelicalism a vibrant and growing expression of historic Christian orthodoxy is already one of the largest and most geographically diverse global religious movements This Companion first published in 2007 offers an articulation of evangelical theology that is both faithful to historic evangelical convictions and in dialogue with contemporary intellectual contexts and concerns In addition to original and creative essays

on central Christian doctrines such as Christ the Trinity and Justification it breaks new ground by offering evangelical reflections on issues such as gender race culture and world religions This volume also moves beyond the confines of Anglo American perspectives to offer separate essays exploring evangelical theology in African Asian and Latin American contexts The contributors to this volume form an unrivalled list of many of today's most eminent evangelical theologians and important emerging voices

*A Trinitarian Theology of Religions* Gerald Robert McDermott, Harold A. Netland, 2014 How are Christians to think of non Christian religions How are they to relate to people who do not share their faith Two senior scholars survey the field of theology of religions from an evangelical perspective and propose fresh approaches to long debated questions such as salvation revelation the relationship between culture and religion conversion and social action

*Transforming Worldviews* Paul G. Hiebert, 2008-05-01 In the past changes in behavior and in belief have been leading indicators for missionaries that Christian conversion had occurred But these alone or even together are insufficient for a gospel understanding of conversion For effective biblical mission Paul G Hiebert argues we must add a third element a change in worldview Here he offers a comprehensive study of worldview its philosophy its history its characteristics and the means for understanding it He then provides a detailed analysis of several worldviews that missionaries must engage today addressing the impact of each on Christianity and mission A biblical worldview is outlined for comparison Finally Hiebert argues for gospel ministry that seeks to transform people's worldviews and offers suggestions for how to do so

*Christians Meeting Hindus* Bob Robinson, 2011-06-16 With rare exceptions serious intentional reflective and sustained interfaith encounter is a novel and recent enterprise This book looks in detail at one such encounter the intentional recent Hindu Christian dialog in India and asks why and how the practice of dialog came to replace previous attitudes of confrontation and monologue especially on the part of Christians Part I sets the encounter in its global context Part II offers a comprehensive and critical analysis of the actual encounter Part III draws on aspects of the Christian tradition as it critically examines the ways in which the dialog has been justified in Christological categories A final chapter discusses the future of the encounter Unlike many other works in the area of interfaith studies this work combines both descriptive detail of the actual encounter and critical theological analysis of the strengths and weakness of the dialog model

**Beyond the Academy** David Thang Moe, 2024-10-11 The term public theology was introduced by Martin E Marty in a 1974 article Since then scholarly discussions on public theology have become more popular in academic circles This book however is about the invitation for moving beyond the academy It provides two reasons for doing so First an overtly academic public theology is in crisis today Although public theology may be flourishing in the academy its relevance for real life is limited Second there is the ecclesial flourishing among grassroots Christian communities across Asia who witness to their lived faith in public and hidden life Their voices are largely unheard due to the gaps between the academy and the church This volume argues that we should consider their voices as key sources for developing a relevant lived Asian public theology The author makes the case for

reimagining the paradigm shifts in lived Asian public theology of religions and for bridging the unhappy gaps between the academic and grassroots voices      *Religion and Normativity, Volume III* Peter Lodberg, 2009-12-31 The volumes of Religion and Normativity present the latest research in three central fields Volume III discusses religious pluralism and the development of a Western European version of Islam The question of religious authority in a European tradition of enlightenment is also included The analyses are inter disciplinary including the ideas of the study of religion theology politology and the history of ideas      *Issues Facing Christians Today* Dr. John R.W. Stott, John Wyatt, 2011-04-19 Terrorism Same sex marriage Debt cancellation The AIDS pandemic These are just some of the critical contemporary issues addressed in this book Issues Facing Christians Today helps thinking Christians sift through and respond to a sweeping array of complex and pressing topics Thoroughly revised and updated by Roy McCloughry and fully endorsed by John Stott this fourth edition continues a two decades plus legacy of bringing important current issues under the lens of biblically informed thinking Combining a keen global awareness with a gift for penetrating analysis the authors examine such vital topics as Pluralism and Christian witness Cohabitation environmentalism and ecological stewardship War and peace Abortion and euthanasia And much more An entirely new chapter on bio engineering has been contributed by Professor John Wyatt of University College London Including a study guide Issues Facing Christians Today is essential reading for Christians who wish to engage our culture with insight passion and faith knowing that the gospel is as relevant and deeply needed today as at any time in history As the culture wars continue this book will remain a critical contribution helping to define Christian social and ethical thinking in the years ahead      **Comprehending Mission** Stanley H. Skreslet, 2012 This comprehensive book offers a concise overview of the development of missiology over the last century an introduction to its characteristic methodologies and insight into the kinds of questions missiologists typically bring to the study of their subject From back cover      Christianity and Religious Diversity Harold A. Netland, 2015-05-12 This book explores how religions have changed in a globalized world and how Christianity is unique among them Harold Netland an expert in philosophical aspects of religion and pluralism offers a fresh analysis of religion in today s globalizing world He challenges misunderstandings of the concept of religion itself and shows how particular religious traditions such as Buddhism undergo significant change with modernization and globalization Netland then responds to issues concerning the plausibility of Christian commitments to Jesus Christ and the unique truth of the Christian gospel in light of religious diversity The book concludes with basic principles for living as Christ s disciples in religiously diverse contexts      **The Political Economy of NGOs** Jude L. Fernando, 2011-07-08 This book explores the paradoxical relationship between NGOs and capitalism showing that supposedly progressive organisations often promote essentially the same policies and ideas as existing governments It examines how a diverse group of NGOs have shaped state formation in Bangladesh and Sri Lanka It argues that rather than influencing state formation for the better NGOs have been integrated into the capitalist system and their language adopted to give traditional

exploitative social relations a transformative appearance This enlightening study will give pause to those who see NGOs as drivers of true social change and will encourage students of development studies to make a deeper analysis of state formation

What About Other Faiths? Martin Goldsmith, 2012-05-24 Today our multi cultural society forces Christians to be aware of those with other equally strong religious convictions In this challenging and popular book Martin Goldsmith answers all the hard questions facing Christians in this area drawing on both biblical material and his own expertise as someone with wide cross cultural experience A brief explanation of other religions concept of God revelation and salvation is included and the question of whether it is right to evangelise those of other faiths is tackled along with a look at practical methods that can be used A brand new chapter asks Why is Jesus so special when each of the world religions have central figure to worship

Beyond the Impasse Amos Yong, 2014-09-25 Can Christians learn from other religions This book offers a fascinating account of the nature role and purposes of religious diversity within God s providential plan

The Seven Stories that Shape Your Life Gerard Kelly (Author), 2016-02-15 The most basic questions everyone faces in life is Why am I here What is my purpose Gerard Kelly presents the stories that make up the overall story of God in the world And here we find our purpose for each of our individual Christian lives Our purpose is as distinctive as our fingerprint and we will connect with it when we connect with our identity and origin in God God remembers how he made us and is committed to the fruitfulness and fulfilment of our potential We discover the importance of finding our place of service and usefulness knowing that our lives have meaning in the purposes of God

**The Pursuit & Acquisition of Health & Wealth** Gerard Jacobs, 2012-04-30 The pursuit and acquisition of health and wealth are part of the worldview that drives Singaporean society It encompasses a strong work ethic in the pursuit to modernise and be a key player in the global economy Health and wealth are defined in terms of an individuals well being in the sense of good health and a continued assurance of material provision and security This worldview stems from a syncretism with non Christian religions that have reconceptualised themselves with the socioeconomic and political goals of Singaporean society Subsequently they continue to be the authentic expression of the noblest longings of people that have become symbiotic with their daily expressions shaping their history and culture The book attempts to show that while Pentecostal and Charismatic Christianity have played a significant role in the growth of contemporary Singaporean churches it has inadvertently presented a gospel that appeals to the deeply embedded dominant religious secular worldview of its society in the context of health and wealth
