Libraries Community And Technology:

Libraries, Community, and Technology Andy Barnett, 2010-06-25 A number of people including politicians techies and even librarians themselves are convinced that if libraries are not obsolete now it is only a matter of time until they are thanks to the Internet Many though are optimistic about the future of libraries and their continuing role in shaping a community s cultural life Libraries have changed but the important things about them have not This book is a collection of 15 essays written by the author All of the essays consider the relationships between libraries the communities they serve and the technology that has become such a significant part of them Among the topics explored are the public library and its social mission librarians and their core values the concept of the killer application as it pertains to librarianship balancing competing claims on resources why the author became a librarian why libraries should not be re engineered re imagined or otherwise changed how technology is being used to help libraries stay local digitizing on a budget for public libraries why the Internet will not replace public libraries e books the end of cataloging how library technology strikes back new competencies for library trustees and how librarians weed books deciding which ones should be kept and which are just taking up space

Developing Community-Led Public Libraries John Pateman, Ken Williment, 2016-04-22 This important book examines the potential for a new community led service model in public libraries Using theoretical approaches to working with socially excluded community members with a direct application of those approaches in Canadian public libraries the authors offer a powerful and persuasive case for adopting the community led approach in libraries worldwide The book showcases good practice and outlines the challenges to community development work With public libraries facing budget cuts this book offers an alternative way forward based on a community led approach to developing needs based library services This book makes a unique contribution to public library thinking and policy synthesising the outcomes of research and best practice at the cutting edge of library service delivery and will be essential reading for all those researching and working in the public library sector
