Communication for Nurses Pamela McHugh Schuster, 2010-02-24 This exceptional book for nurses and nursing students guides the development of the comprehensive professional communication skills to prevent errors that result in patient injuries and death With a patient safety focus thorough coverage of communication and extensive interactive ancillaries it demonstrates how communication is tied to desired clinical outcomes *Of Essence and Context* Rūta Stanevičiūtė, Nick Zangwill, Rima Povilionienė, 2019-06-01 This book provides a new approach to the intersections between music and philosophy It features articles that rethink the concepts of musical work and performance from ontological and epistemological perspectives and discuss issues of performing practices that involve the performer's and listener's perceptions In philosophy the notion of essence has enjoyed a renaissance However in the humanities in general it is still viewed with suspicion This collection examines the ideas of essence and context as they apply to music A common concern when thinking of music in terms of essence is the plurality of music There is also the worry that thinking in terms of essence might be an overly conservative way of imposing fixity on something that evolves Some contend that we must take into account the varying historical and cultural contexts of music and that the idea of an essence of music is therefore a fantasy This book puts forward an innovative approach that effectively addresses these concerns It shows that it is in fact possible to find commonalities among the many kinds of music The coverage combines philosophical and musicological approaches with bioethics biology linguistics communication theory phenomenology and cognitive science The respective chapters written by leading musicologists and philosophers reconsider the fundamental essentialist and contextualist approaches to music creation and experience in light of twenty first century paradigm shifts in music philosophy Human Communication Theory Frank E. X. Dance, 1982 Although it is not a new label or title human communication theory is as old as the human race in terms of its presence in the daily affairs of men and women People have always looked for reasons underlying their communicative successes and failures reasons that could then be used to guide their future communicative efforts
