El-Hi Textbooks & Serials in Print, 2005 ,2005 The Impact of Mentoring African American Middle Grade Males Linda W. Washington,2012-10-12 This insightful book gives suggestions on increasing academic rigor of the middle school male student increasing consistent student attendance and decreasing discipline referrals This book gives situational examples and possible suggestions to help single parents teachers administrators board members and the male student to overcome obstacles to be successful Washington believes that bonding should initially take place early in the relationship of the teacher to student and student to teacher Much like a client coming to a store for specific items the store owner has to get to know his customer in order to effectively serve this individual for continued customer satisfaction The same principles apply for teachers getting to know their students Oftentimes this notion is not developed because of constant new initiatives being introduced to teachers without lasting results Hence mentoring of students can eliminate many problems schools face Using the suggestions offered in this book will cause increase academic performance and attendance while decreasing discipline referrals tremendously El-Hi Textbooks & Serials in Print, 2000 ,2000 *Lessons from a Dual Language Bilingual School* Tatyana Kleyn,Victoria Hunt,Alcira Jaar,Rebeca Madrigal,Consuelo Villegas,2024-08-13 This edited book showcases the lessons successes and challenges of starting and growing a fully bilingual school Reflecting on the first 10 years of Dos Puentes Elementary School in New York City it explores the evolution of the school through its four founding pillars 1 bilingismo biliteracidad y multiculturalismo 2 las familias son partners leaders and advocates 3 investigaciones and hands on learning and 4 partnerships with universities organizations y la comunidad The chapter authors include families teachers school administrators and university partners centering the voices of those directly involved in the school community and highlighting key moments in the life of the school At the end of each chapter researcher commentary contextualizes these experiences within the wider literature and discusses implications and next steps for the field of bilingual education This book will be of interest to pre and in service teachers and school administrators particularly those looking to develop bilingual programs in their own context **Teachers Engaged in Research** Laura R. Van Zoest,2006-03-01 This book provides examples of the ways in which 9 12 grade mathematics teachers from across North America are engaging in research It offers a glimpse of the questions that capture the attention of teachers the methodologies that they use to gather data and the ways in which they make sense of what they find The focus of these teachers investigations into mathematics classrooms ranges from students understanding of content to pedagogical changes to social issues Underlying the chapters is the common goal of enabling students to develop a deep understanding of the mathematics they learn in their classrooms *Human-Computer Interaction: Users and Applications* Julie A. Jacko,2011-06-18 This four volume set LNCS 6761 6764 constitutes the refereed proceedings of the 14th International Conference on Human Computer Interaction HCII 2011 held in Orlando FL USA in July 2011 jointly with 8 other thematically similar conferences The revised papers presented were

carefully reviewed and selected from numerous submissions The papers accepted for presentation thoroughly cover the entire field of Human Computer Interaction addressing major advances in knowledge and effective use of computers in a variety of application areas The papers of the fourth volume are organized in topical sections on HCI and learning health and medicine applications business and commerce HCI in complex environments design and usability case studies children and HCI and playing experience *American Primary Teacher* ,1912 **Assessment Practices with Indigenous Children, Youth, Families, and Communities** Shaun Murphy,Trudy Cardinal,Janice Huber,Stefinee Pinnegar,2023-04-03 STEM Education in Action United States. Blending Human Intelligence With Technology in the Classroom Alaqad, Mohammed H.,Al Murshidi, Ghadah,Bougdira, Abdesselam,Almurshidi, Badria,Al Zaabi, Ahmed,2025-04-09 In recent years the integration of artificial intelligence AI in education has rapidly transformed the traditional classroom opening new possibilities for both teachers and students AI powered tools can enhance the classroom environment by offering personalized adaptive learning experiences tailored to individual student needs From automated grading systems and AI driven tutoring to intelligent content recommendations and predictive analytics AI empowers educators to optimize their teaching strategies and engage students in more meaningful ways However the growing presence of AI in classrooms also raises critical questions about the role of human educators and the ethical implications of machine based learning The future of education lies not in replacing teachers with machines but in creating synergistic environments where technology amplifies human creativity empathy and instructional expertise *Blending Human Intelligence With Technology in the Classroom* offers a comprehensive exploration of how AI technologies redefine teaching methodologies reshape learning experiences and challenge existing pedagogical models It bridges the gap between human intelligence and machine driven solutions demonstrating how AI powered tools can enhance the classroom environment by offering personalized adaptive learning experiences tailored to individual student needs Covering topics such as critical thinking gamification and human connections this book is an excellent resource for educators administrators computer engineers policymakers researchers academicians and more *Building Age* ,1908 *American Lumberman* ,1889 *Resources in Education* ,1998 Imaginative Science Education Yannis Hadzigeorgiou,2016-05-26 This book is about imaginative approaches to teaching and learning school science Its central premise is that science learning should reflect the nature of science and therefore be approached as an imaginative creative activity As such the book can be seen as an original contribution of ideas relating to imagination and creativity in science education The approaches discussed in the book are storytelling the experience of wonder the development of romantic understanding and creative science including science through visual art poetry and dramatization However given the perennial problem of how to engage students of all ages in science the notion of aesthetic experience and hence the possibility for students to have more holistic and fulfilling learning experiences through the aforementioned imaginative approaches is also discussed Each chapter provides an in

depth discussion of the theoretical background of a specific imaginative approach e g storytelling wonder full science reviews the existing empirical evidence regarding its role in the learning process and points out its implications for pedagogy and instructional practices Examples from physical science illustrating its implementation in the classroom are also discussed In distinguishing between participation in a science activity and engagement with science ideas per se the book emphasizes the central role of imaginative engagement with science content knowledge and thus the potential of the recommended imaginative approaches to attract students to the world of science
