Implementing Change Alcoholism Policies In Work Organizations:

Alcohol Problem Intervention in the Workplace Paul M. Roman, 1990-07-24 Since the 1950s social scientists have devoted serious attention to the relationship between alcohol and the workplace. In recent years awareness of the tremendous costs both human and financial associated with alcoholism has led to a dramatic increase in both scholarly and practical interest in the field. Although researchers working in this area are relatively few they have sustained a lively interest in the alcohol work nexus and have attracted others to the field through conferences where ideas and research strategies are exchanged. The larger part of *Alcohol Problem Intervention in the Workplace* provides an up to date thorough examination of the problem, the research and the possible solutions. This volume is directed toward both practitioners and researchers providing a wide range of new data and new ideas that bear upon coping with alcohol problems in the workplace. Part I addresses issues regarding the distribution and correlates of alcohol problems and alcohol use among employees. Part II is centered on issues associated with Employee Assistance Programs. And Part III is a general conclusion and overview offering suggestions and implications for the practitioner in the workplace. Because this collection supplies the most current thinking and information on controlling alcohol problems in the workplace it will be of particular interest to human resource management and to employee assistance specialists who are now required to pass a certification examination.

Implementing Change Janice M. Beyer, Harrison Miller Trice, 1978 *Implementation* Jeffrey L. Pressman, Aaron Wildavsky, 1984-06-05 This book confronts the widespread impression that policy or program implementation should be easy, arguing instead that implementation even under the best of circumstances is exceedingly difficult. Using the Oakland Project as a case study, this book discusses each stage of the process of implementation, demonstrating that completion of what might seem to be a simple sequence of events will in fact depend on a complex chain of reciprocal interactions. Each part of the chain must be built with the others in view so the separation of policy design from implementation is fatal. The first four chapters illustrate the movement from simplicity to complexity. Chapter 5 discusses the number of decision points throughout the process, giving an indication of the magnitude of the task. Chapter 6 examines why project targets may be set even if they are unlikely to be met, considering both the position of those who set targets (top federal officials who wish large accomplishments from small resources in a short time) and those who must implement them (career bureaucrats and local participants characterized by high needs and low cohesion). The last chapter discusses the relationship between the evaluation of programs and the study of their implementation, arguing that tendencies to assimilate the two should be resisted.

The Integration of Employee Assistance, Work/Life, and Wellness Services Mark Attridge, Patricia A. Herlihy, R. Paul Maiden, 2006-02-01 From their roots in the occupational alcohol programs in the 1940s, human services programs within organizations have grown exponentially. However, the seamless integration of each facet of those expanding programs into a cohesive whole has proven to be a major challenge. This book presents a comprehensive cross section of experienced pro

Recent Developments in

Alcoholism Marc Galanter, 2012-12-06 From the President of the Research Society on Alcoholism This annual book series is a valuable resource for the alcoholism field because it provides critical and timely reviews of selected areas that have interest to both practitioners and researchers It tries to achieve a balance between psychosocial and biomedical topics and between research and patient care activities Such a mix is offered in Volume 6 The Research Society on Alcoholism whose membership embraces researchers from all disciplines that study the etiology treatment and prevention of alcoholism and alcohol related disabilities regards the support and sponsorship of this book series as one of its major missions Ting Kai Li MD President Research Society on Alcoholism From the President of the American Medical Society on Alcoholism and Other Drug Dependencies The broadening scope of clinical and scientific interest in alcohol dependence is reflected in this sixth volume of Recent Developments in Alcoholism It offers valuable reviews on important current issues in the field namely the intertwining of nature and nurture a continuing search for predictors and indicators of the disease and the social impact of alcoholism on the job and in special populations This material should pique the interest of clinicians from all disciplines Medical social and political planners also need to turn to the expanding body of knowledge in the field of chemical dependence reflected here The volume is therefore of value to a contemporary readership and to those who will turn to it in future years

Occupational Subcultures in the Workplace Harrison Miller Trice, 1993 In the last decade interest has returned to the study of a cultural rather than bureaucratic model of the organization Trice emeritus Cornell U School of Industrial and Labor Relations argues that essential to this study is recognition of occupations as potent subcultures which adapt and interact within the context of the organization He uses as examples a variety of occupations from pipe welders to concert pianists Paper edition unseen 16 95 Annotation copyright by Book News Inc Portland OR
