Dynamics of Uneven Development Lynn

Mainwaring,1990 All in all this is an excellent work on trade growth and especially international investment with a unified theme S M Murshed The Economic Journal This book is an impressive contribution to the literature on North South models of international economic relations and their implications for development Scott MacDonald The World Economy The challenge of providing a simple yet illuminating and integrated analysis of trade development and international capital flows is clearly a daunting one Lynn Mainwaring has nevertheless met that challenge well in this impressive book Ian Steedman University of Manchester UK This important new book critically examines the argument that structural asymmetries between the rich industrialised countries of the global north or centre and the poor largely primary producing countries of the south or periphery could be responsible for an unequal division of the gains from international trade and investment It explores this view by developing a model of Centre Periphery relations using building blocks provided by Sraffa Leontief Pasinetti Goodwin and others

The Theory of Monopoly Capitalism

John Bellamy Foster,2014-04 Absent any epoch making innovations like the automobile or vast new increases in military spending the result was a general trend toward economic stagnation a condition that persists and is increasingly apparent to this day Their analysis was also extended to issues of imperialism or accumulation on a world scale overlapping with the path breaking work of Samir Amin in particular John Bellamy Foster is a leading exponent of this theoretical perspective today continuing in the tradition of Baran and Sweezy s Monopoly Capital This new edition of his essential work The Theory of Monopoly Capitalism is a clear and accessible explication of this outlook brought up to the present and incorporating an analysis of recently discovered lost chapters from Monopoly Capital and correspondence between Baran and Sweezy

History Of Development 3rd Edition Gilbert Rist,2009 Rethinking Capitalist Development Kalyan

Sanyal,2014-04-30 In this book Kalyan Sanyal reviews the traditional notion of capitalism and propounds an original theory of capitalist development in the post colonial context In order to substantiate his theory concepts such as primitive

accumulation governmentality and post colonial capitalist formation are discussed in detail Analyzing critical questions from a third world perspective such as Will the integration into the global capitalist network bring to the third world new economic opportunities Will this capitalist network make the third world countries an easy prey for predatory multinational corporations The end result is a discourse drawing on Marx and Foucault which envisages the post colonial capitalist formation albeit in an entirely different light in the era of globalization Global Political Economy and New World Disorder Sean Creaven,2025-04-24 Drawing upon a range of resources of critique including critical realist social theory realist international relations theory the sociology of globalization the Marxist critique of imperialism and dependency theory this book is an essential contribution to the critical understanding of nationalism and imperialism in the global age It conducts a sustained and in depth analysis of the relations between the asymmetry in the distribution of economic resources and powers of command and the recent play of political events involving imperialist wars including the Russo Ukrainian and Israeli Hamas wars Crucially the author argues that establishing these connections requires theorizing political economy in the so called global age as comprised of neoimperial and neoliberal orders As such the book offers a new interpretation of the relations between neoliberalism and neoimperialism and between modes of organizing social relations and resulting global disorders and instabilities This will therefore be of interest to researchers scholars and students working at the intersection of global political economy international relations and the sociology of globalization **The War System** Richard Falk,Samuel S Kim,2019-08-15 An interdisciplinary study of this nature and scope reflects contributions of many scholars in diverse disciplines and fields concerned with human conflict behavior in general and with human war prone behavior in particular They are too numerous to enumerate here Still our deep gratitude goes to those scholars whose writings have been incorporated in this volume as sample representatives of what their particular disciplines can contribute to the study of war Handbook of Alternative Theories of Economic Development Erik S.
