**Putting Intellectual Property in Its Place** Laura J. Murray, S. Tina Piper, Kirsty Robertson, 2014-03 Putting Intellectual Property in its Place examines the relationship between creativity and intellectual property law on the premise that despite concentrated critical attention devoted to IP law from academic policy and activist quarters its role as a determinant of creative activity is overstated The effects of IP rights or law are usually more unpredictable non linear or illusory than is often presumed Through a series of case studies focusing on nineteenth century journalism fake art plant hormone research between the wars online knitting communities creativity in small cities and legal practice the authors

discuss the many ways people comprehend the law through information and opinions gathered from friends strangers coworkers and the media They also show how people choose to share create negotiate and dispute based on what seems fair just or necessary in the context of how their community functions in that moment while ignoring or reimagining legal mechanisms In this book authors Murray Piper and Robertson define the everyday life of IP law constituting an experiment in non normative legal scholarship and in building theory from material and located practice

**Theories of Informetrics and Scholarly Communication** Cassidy R. Sugimoto, 2016-02-22 Scientometrics have become an essential element in the practice and evaluation of science and research including both the evaluation of individuals and national assessment exercises Yet researchers and practitioners in this field have lacked clear theories to guide their work As early as 1981 then doctoral student Blaise Cronin published The need for a theory of citing a call to arms for the fledgling scientometric community to produce foundational theories upon which the work of the field could be based More than three decades later the time has come to reach out the field again and ask how they have responded to this call This book compiles the foundational theories that guide informetrics and scholarly communication research It is a much needed compilation by leading scholars in the field that gathers together the theories that guide our understanding of authorship citing and impact
