**Korean Security in a Changing East Asia** Terence Roehrig,Jungmin Seo,Uk Heo,2007-08-30 Since its partition in the 1950s the Korean peninsula has directly or indirectly shaped the broader security relations between regional powerhouses and the recent test of a nuclear weapon by the North Korean regime has heightened tensions across the world This study draws upon contributions from a diverse array of experts who offer their perspectives on the region s complex network of alliances and hostilities The authors discuss the future of the region the potential for military conflict and a new arms race and the ways to maintain peace and stability Since its partition in the 1950s the Korean peninsula has directly or indirectly shaped the broader security relations between regional powerhouses while the recent test of a nuclear weapon by the North Korean regime has heightened tensions across the world Japan feeling increasingly threatened by the North Korean regime and China s extravagant military expenditures has begun questioning Article IX in its Constitution that renounces war and the maintenance of armed forces Its neighbors still haunted by Japanese atrocities during World War II are fearful of a new nuclear arms race in the region The United States for its part has adopted unprecedented hard line policies in response to 9 11 going so far as to condemn North Korea as part of an axis of evil It has strengthened its alliance with Japan and alienated its long time strategic partner South Korea Add to this the economic entanglements of each of these countries both with each other and with the rest of the world and the regional security issues become even more paramount This study makes sense of

these complex alliances and frictions and offers an array of perspectives on the future of the region the potential for military conflict and a new arms race and the ways to maintain peace and stability Topics include big power rivalries South Korea's sunshine policy anti Americanism and emerging nationalisms

**Peace Regime Building on the Korean Peninsula and Northeast Asian Security Cooperation** Seung-Ho Joo, 2016-05-13 A permanent peace regime on the Korean peninsula has yet to be achieved even though the Korean War came to a halt more than half a century ago Without a peace treaty formally ending the Korean War the two Korean states are technically still at war The current situation on the Korean peninsula is extremely tense and precarious and tensions and distrust between the two Koreas and between the U S and North Korea escalated in the wake of North Korea's second underground nuclear weapons testing in 2009 The editors of this volume conceptually present a two track inter Korean and international approach to Korean peninsula peace regime building They argue that an inter Korean and international approach should be pursued simultaneously for the construction of a permanent peace regime on the Korean peninsula The contributing authors are established specialists and experts on Korean foreign relations and Northeast Asian international relations As natives of the U S Korea China and Japan they provide objective scholarly and diverse perspectives on the Korean peace regime building

**South Korean Engagement Policies and North Korea** Key-young Son, 2006-11-22 A fresh historical and theoretical exploration of the much debated but still elusive question of the Korean divide In contrast to much of the literature on the divide which deals with state building on the two sides of the Demilitarized Zone this book sheds light on the slow but steady process of homogenization between the two estranged peoples as accelerated after the end of the Cold War and especially after the inauguration of President Kim Dae jung in 1998 Providing immense empirical detail as well as theoretical debate on the ideas in policy shaping in South Korea the book presents a rich history of enemies and covers issues including an overview of the structural shift and the rise and fall of identity groups in South Korea history of enemy making and peace building North Korea's external relations with the US Japan and Europe Hyundai's groundbreaking cross border tourism and other economic cooperation projects the lingering nuclear weapons crises By focusing on the question of identities the book presents a new approach on one of the most important legacies of the Cold War and threat to peace in the contemporary world the divided Korean peninsula As such it fills a major gap in the literature utilizing new theoretical and empirical frameworks to deal with the Korean division and its future implications in East Asia

**Non-Traditional Security Issues in North Korea** Kyung-Ae Park,2013-07-31 The concept of security has undergone significant change in the past few decades Traditionally thought of in terms of the state centric militarily focused realist discourse the concept of security has been broadened to include a greater number of potential threats and an increased number of relevant actors Yet despite the great changes in security scholarship the vast majority of studies on North Korea continue to focus primarily on the country s nuclear weapons program its military and other traditional security issues surrounding Pyongyang While North Korea captures headlines with its aggressive behavior and growing nuclear arsenal the ground level threats to average everyday North Koreans go largely unnoticed This groundbreaking volume seeks to refocus research on North Korean security from the traditional to largely unexplored non traditional security NTS issues In the wake of political succession to Kim Jung Un the issue of non traditional security is increasingly important From the lasting effects of the famine of the 1990s to continued food shortages and the growing

marketization of North Korean society the Pyongyang regime is facing diverse and unprecedented challenges This book offers cutting edge analyses of emerging North Korean NTS issues by the world s leading specialists in the field It looks at these issues and their effects at the local regional and international level as well as examining the international community s efforts to promote an NTS approach to North Korea More specifically the volume addresses the traditional and non traditional security paradigms energy security gender security transnational organized crime the internal and external dimensions of North Korea s food security the Responsibility to Protect refugee issues and international law and the role of NGOs in promoting NTS in North Korea As the global community begins to move toward a more people centered approach to security and foreign policy work such as that presented in this thought provoking volume will be increasingly vital to scholars policymakers and interested citizens Contributors Tsuneo Akaha Peter Hayes Brendan Howe W Randall Ireson David C Kang Shin wha Lee Mark Manyin Kyung Ae Park Scott Snyder Jae Jung Suh David von Hippel North Korea and Northeast Asia Samuel S. Kim, Tai Hwan Lee, 2002-10-09 A country of stark contradictions and puzzles North Korea exhibits uncanny resilience in the face of external shocks and internal woes raising important questions of theoretical and real world significance What has made it possible for North Korea to defy the classical realist axiom The strong do what they have the power to do and the weak accept what they have to accept What is the nature of the North Korean threat in post Cold War Northeast Asia What kind of bargaining leverage does Pyongyang exercise in system maintaining survival strategies What are North Korea s prospects for sustaining such survival strategies in the uncertain years ahead This volume offers a major reappraisal of the changing relationship between North Korea and its neighboring powers in the post Cold War era in both theoretical and practical terms The contributors examine the complex interplay of global regional and national forces that have influenced and shaped the changing patterns of conflict and cooperation in North Korea s relationships with China Russia and Japan and with the United States Within the context of Northeast Asian geopolitics the book tracks explains and assesses North Korea s survival strategies in both the security and economic domains as well as the prospects of these strategies in the coming years *Identity and Change in East Asian Conflicts* S. Horowitz, U. Heo, A. Tan, 2007-02-05 This book examines the changing national identities that are transforming East Asia pushing China and Taiwan apart and toward a showdown while propping up a weakened North Korea Accomplished contributors analyze the dynamics and the U S s policy response **Security Assurances and Nuclear Nonproliferation** Jeffrey W. Knopf, 2012-08-15 While policy makers and scholars have long devoted considerable attention to strategies like deterrence which threaten others with unacceptable consequences such threat based strategies are not always the best option In some cases a state may be better off seeking to give others a greater sense of security rather than by holding their security at risk The most prominent use of these security assurances has been in conjunction with efforts to prevent the spread of nuclear weapons Ongoing concerns about the nuclear activities of countries like Iran and North Korea and the possible reactions of other states in their regions have

catapulted this topic into high profile This book represents the first study to explore the overall utility of assurance strategies to evaluate their effectiveness as a tool for preventing nuclear proliferation and to identify conditions under which they are more or less likely to be effective Middle Powers and Regional Influence Joshua B. Spero, 2018-11-16 In the growing literature on middle powers this book contributes by expanding case study analysis and extending international relations theory in its application to foreign policy decisions Thus this book builds on prominent middle power literature and aims to advance our theoretical understanding for why crucial foreign policies were made by the pivotal middle powers this book examines Poland South Korea and Bolivia For this book s three case studies and their first term leadership s critical junctures from first term post communist Poland post authoritarian post ruling party South Korea and post colonial Bolivia we have the antecedents for contemporary middle powers essential for realizing the regional evolution for cooperative change with greater powers systemically we may then grasp today why those historical foreign policies albeit not so long ago give us crucial antecedents for adapting and trying yet again to resolve seemingly perennial power dilemmas regionally peacefully Here are why middle power impact matters not only regionally for stronger dominant greater power neighbours but also for transformative middle power leaderships which proved pivotal geopolitically for their region s challenges and changes
