✓ Exclusively available on IvyPanda

Franz Kafka was a fundamental pillar that contributed immensely to shaping 20th-century literature through novels and short stories. The modernist writer famously known for his novels *The Metamorphosis*, and *The Trial*, transformed literature and left a remarkable legacy that the current and future generations should acknowledge and emulate. While his contributions to literature remain unrivaled, Kafka was never free from criticisms and controversies, especially after he declared that he was an atheist. At just 41 years, Kafka succumbed to lung tuberculosis, leaving a thriving field of modernist literature that has remained a significant part of world literature. Franz Kafka's biography, connection to fellow modernists in other disciplines, the critical acclaim of his works, and his culture demonstrate that he was an impactful person and the void he left remains fallow.

Since he was an important figure, especially among academicians worldwide, numerous publications have been made on his life and works. Franz Kafka was born on July 3, 1883, in Prague, Czech Republic, formerly known as Bohemia, which formerly belonged to the Austria-Hungarian Empire (The Kafka Project). He was the first-born child of middle-class and German-speaking Jew parents, who became a natural writer (The Kafka Project). Under the strict care of his authoritative parents, who ran a business as their major income-generating activity, Franz Kafka grew and became an obedient, intelligent, and responsible person.

Kafka started his education by learning German and French languages and culture. Between 1889 and 1893, he studied at the Deutsche Knabenschule boys' elementary school in Prague (The Kafka Project). After this school, he joined Altstädter Deutsches Gymnasium, a secondary school implementing an academic curriculum in eighth grades using the German language. After that, Franz Kafka joined Prague-based Charles University, where he studied law. It was not until he joined a literary club at the university that he developed an interest in reading and participating in literary events. He graduated in 1906.

He published several literary texts in which he expressed his philosophy of existentialism and absurdism, which positively influenced the field of literature. His short stories that were primarily published in newspapers and magazines include

Kafka's The Trial Espen Hammer, 2018-03-23 Kafka's novel *The Trial* written from 1914 to 1915 and published in 1925 is a multi faceted notoriously difficult manifestation of European literary modernism and one of the most emblematic books of the 20th Century It tells the story of Josef K a man accused of a crime he has no recollection of committing and whose nature is never revealed to him The novel is often interpreted theologically as an expression of radical nihilism and a world abandoned by God It is also read as a parable of the cold inhumane rationality of modern bureaucratization Like many other novels of this turbulent period it offers a tragic quest narrative in which the hero searches for truth and clarity whether about himself or the anonymous system he is facing only to fall into greater and greater confusion This collection of nine new essays and an editor's introduction brings together Kafka experts intellectual historians literary scholars and philosophers in order to explore the novel's philosophical and theological significance Authors pursue the novel's central concerns of justice law resistance ethics alienation and subjectivity Few novels display human uncertainty and skepticism in the face of rapid modernization or the metaphysical as it intersects with the most mundane aspects of everyday life more insistently than *The Trial* Ultimately the essays in this collection focus on how Kafka's text is in fact philosophical in the ways in which it achieves its literary aims Rather than considering ideas as externally related to the text the text is considered philosophical at the very level of literary form and technique

The Book of Job Leora Batnitzky, Ilana Pardes, 2014-12-12 *The Book of Job* has held a central role in defining the project of modernity from the age of Enlightenment until today *The Book of Job Aesthetics Ethics and Hermeneutics* offers new

Paul Auster's Writing Machine Evija Trofimova, 2014-08-28

Paul Auster is one of the most acclaimed figures in American literature. Known primarily as a novelist, Auster's films and various collaborations are now gaining more recognition. Evija Trofimova offers a radically different approach to the author's wider body of work, unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic, factio-fictional network produced by a set of writing tools. Exploring Auster's literal and figurative use of these tools: the typewriter, the cigarette, the doppelgänger figure, the city. Evija Trofimova discovers Auster's writing machine, a device that works both as a means to write and as a construct that manifests the emblematic writer figure. This is a book about assembling texts and textual networks, the writing machines that produce them and the ways such machines invest them with meaning. Embarking on a scholarly quest that takes her from between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself, Paul Auster's *Writing Machine* becomes not just a critical investigation but a critical collaboration, raising important questions about the ultimate meaning of Auster's work and about the relationship between texts, their authors, their readers and their critics.
