Mak,2003-06-05 China Reconstructs includes ten articles that investigate the reconstruction of modern China and provide different dimensions to the vibrant and multifaceted history of the country The book discusses how prominent individuals political parties and ordinary people alike looked for ways to reconstruct China in a period of great political upheavals **Pacific News Letter** ,1944 **Library List** National Agricultural Library (U.S.),1966 [The Chinese and the Japanese](#) Akira Iriye,2014-07-14 Together these essays tell the story of how two highly self conscious cultures with long and proud traditions of their own have defined themselves both with respect to one another and under the influence of the West Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Free China and Asia** ,1959

Eastman,1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of The Cambridge History of China they represent the most complete and stimulating

political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949 *No Great Wall* Felix Boecking, 2020-05-11 This book an in depth study of Nationalist tariff policy fundamentally challenges the widely accepted idea that the key to the Communist seizure of power in China lay in the incompetence of Chiang Kai shek s Nationalist government It argues instead that during the second Sino Japanese War China s international trade the Nationalist government s tariff revenues and hence its fiscal policy and state making project all collapsed Because tariffs on China s international trade produced the single greatest share of central government revenue during the Nanjing decade the political existence of the Nationalist government depended on tariff revenue Therefore Chinese economic nationalism both at the official and popular levels had to be managed carefully so as not to jeopardize the Nationalist government s income Until the outbreak of war in 1937 the Nationalists management of international trade and China s government finances was largely successful in terms of producing increasing and sustainable revenues Within the first year of war however the Nationalists lost territories producing 80 percent of tariff revenue Hence government revenue declined just as war related expenditure increased and the Nationalist government had to resort to more rapacious forms of revenue extraction a decision that had disastrous consequences for both its finances and its political viability *China's Bitter Victory* James C. Hsiung, Steven I. Levine, 2016-09-16 China s Bitter Victory is a comprehensive analysis of China s epochal war with Japan Striving for a holistic understanding of China s wartime experience the contributors examine developments in the Nationalist communist and Japanese occupied areas of the country More than just a history of battles and conferences the book portrays the significant impact of the war on every dimension of Chinese life including politics the economy culture legal affairs and science For within the overriding struggle for national survival the competition for political goals continued China ultimately triumphed but at a price of between 15 and 20 million lives and vast destruction of property and resources And China s bitter victory brought new trials for the Chinese people in the form of civil war and revolution This book tells the story of China during a crucial period pregnant with consequences not only for China but also for Asia and the world as well Addressed to students scholars and general readers the book aims to fill a gap in the existing literature on modern Chinese history and on World War II **Mid-America** , 1943 *China and the United States* Xiaobing Li, Hongshan Li, 1997-12-11 This essay collection presents a new examination and fresh insight into Sino American relations from the end of World War II to the 1960s The compilation breaks new ground by exploring some of the untouched Chinese and Soviet Communist sources to document the major events and crises in East Asia It also identifies a new pattern of confrontations between China and America during the Cold War Based on extensive multi archival research utilizing recently released records the authors move the study away from the usual Soviet American rivalry and instead focus on the relatively unknown area of communists interactions and

conflicts in order to answer questions such as why Beijing sent troops to Korea what role China played in the Vietnam War and why Mao caused crises in the Taiwan Straits The articles in the book examine Chinese perceptions and positions and discuss the nature and goals of China's foreign policy and its impact on Sino American relations during this crucial period
