Internet In The Middle East:

Internet in the Middle East, The Deborah L. Wheeler, A surprising look at how the Internet does and does not affect public discourse and social practice in the Middle East and Kuwait in particular Broadband Networks in the Middle East and North Africa Natalija Gelvanovska, Michel Rogy, Carlo Maria Rossotto, 2014-02-11 The existing telecommunications infrastructure in the Middle East and North Africa MENA suffers from various regulatory and market bottlenecks that are hampering the growth of the Internet in most countries and related access to information and to potential new job sources

Online Activism in the Middle East Jon Nordenson, 2017-03-17 Does the internet facilitate social and political change or even democratization in the Middle East Despite existing research on this subject there is still no consensus on the importance of social media and online platforms or on how we are to understand their influence This book provides empirical analysis of the day to day use of online platforms by activists in Egypt and Kuwait The research evaluates the importance of online platforms for effecting change and establishes a specific framework for doing so Egypt and Kuwait were chosen because since the mid 2000s they have been the most prominent Arab countries in terms of online and offline activism In the context of Kuwait Jon Nordenson examines the oppositional youth groups who fought for a constitutional democratic monarchy in the emirate In Egypt focus surrounds the groups and organizations working against sexual violence and sexual harassment Online Activism in the Middle East shows how and why online platforms are used by activists and identifies the crucial features of successful online campaigns Egypt and Kuwait are revealed to be authoritarian contexts but where the challenges and possibilities faced by activists are quite different The comparative nature of this research therefore exposes the context specific usage of online platforms separating this from the more general features of online activism Nordenson demonstrates the power of online activism to create an essential counterpublic that can challenge an authoritarian state and enable excluded groups to fight in ways that are far more difficult to suppress than a demonstration **On the Cyber** Sean

Swan (Ed), 2012-05-20 **Intercultural Communication with Arabs** Rana Raddawi, 2014-12-08 This book features 18 essays that explore the ways people communicate in the Arab world from the United Arab Emirates to Qatar Saudi Arabia to Oman While there is a concentration of studies from the Gulf Arab states the collection spans perspectives from Iraq Syria Lebanon Egypt Libya Tunisia and Sudan Written by both Arab authors and foreign scholars who live or have lived in the region it will help readers to better understand and communicate with Arab culture and society The book is divided into three main sections that include studies in educational professional and societal contexts Based on ethnographies case studies and real life experiences the essays provide insight into the ways Arabs communicate in different situations contexts and settings such as business education politics media healthcare and society at large Drawing on current theory research and practice this book will help readers better understand and as a result better engage with the Arab world ,

Dissent and Revolution in a Digital Age David Faris, 2013-03-22
During the Arab uprisings of early 2011 which saw the overthrow of Zine el Abidine Ben Ali in Tunisia and Hosni Mubarak in Egypt the role of digital media and social networking tools was widely reported With tens of thousands publicly committed to public protest through their online social networks and with calls to protest circulating through email networks Facebook groups and street organizing the activists had set in motion a staged confrontation with the Egyptian regime of the sort that had previously been unthinkable The potentially subversive nature of social networks was also recognized by the very authorities fighting against popular pressure for change and the Egyptian government's attempt to block internet and mobile phone access in January 2011 demonstrated this What is yet to be examined is the local context that allowed digital media to play this role in Egypt for example a history of online activism has laid important ground work Here David Faris argues that it was circumstances particular to Egypt more than the spark from Tunisia that allowed the revolution to take off namely blogging and digital activism stretching back into the 1990s combined with sustained and numerous protest movements and an independent press During the Mubarak era where voicing a political opinion was to say the least risky and registering as a political party was onerous and precarious undertaking it was online avenues of discussion and debate that flourished Over the course of those years digital activists bloggers and later users of other forms of social media like Twitter Facebook and Youtube scored a number of important victories over the regime over issues largely revolving around human rights Faris analyses these activists and their online activities and campaigns examining how the internet was used as a space in which to create identities and spur action Dissent and Revolution in a Digital Age tracks the rocky path taken by Egyptian bloggers operating in Mubarak's authoritarian regime to illustrate how the state monopoly on information was eroded making space for dissent and for those previously without a voice
