Canonical Texts and Scholarly Practices Anthony Grafton, Glenn W. Most, 2016-09-07 In this collection of richly documented case studies experts in many textual traditions

examine the ways in which important texts were preserved explicated corrected and used for a variety of purposes The authors describe the multiple ways in which scholars in different cultures have addressed some of the same tasks revealing both radical differences and striking similarities in textual practices across space time and linguistic borders This volume shows how much is learned when historians of scholarship like contemporary historians of science focus on earlier scholars practices and when Western scholarly traditions are treated as part of a much larger cross cultural inquiry The Commentarial Transformation of the Spring and Autumn Newell Ann Van Auken,2016-10-24 The Spring and Autumn is among the earliest surviving Chinese historical records covering the period 722 479 BCE It is a curious text the canonical interpretation claims that it was composed by Confucius and embodies his moral judgments but this view appears to be contradicted by the brief and dispassionate records themselves Newell Ann Van Auken addresses this puzzling discrepancy through an examination of early interpretations of the Spring and Autumn and uncovers a crucial missing link in two sets of commentarial remarks embedded in the Zu Tradition These embedded commentaries do not seek moral judgments in the Spring and Autumn but instead interpret its records as produced by a historiographical tradition that was governed by rules related to hierarchy and ritual practice Van Auken s exploration of the Zu Tradition and other early commentaries sheds light on the transformation of the Spring and Autumn from a simple non narrative historical record into a Confucian classic

Modern Archaics Shenqing Wu,2020-10-26 After the collapse of the Qing dynasty in 1911 and the rise of a vernacular language movement most scholars and writers declared the classical Chinese poetic tradition to be dead But how could a longstanding high poetic form simply grind to a halt even in the face of tumultuous social change In this groundbreaking book Shengqing Wu explores the transformation of Chinese classical style poetry in the early twentieth century Drawing on extensive archival research into the poetry collections and literary journals of two generations of poets and critics Wu discusses the continuing significance of the classical form with its densely allusive and intricately wrought style She combines close readings of poems with a depiction of the cultural practices their authors participated in including poetry gatherings the use of mass media international travel and translation to show how the lyrical tradition was a dynamic force fully capable of engaging with modernity By examining the works and activities of previously neglected poets who maintained their commitment to traditional aesthetic ideals Modern Archaics illuminates the splendor of Chinese lyricism and highlights the mutually transformative power of the modern and the archaic

The Shaman and the Heresiarch Gopal Sukhu,2012-09-01 The first book length study in English of the Chinese classic the Li sao Encountering Sorrow Includes translations of the Li sao and the Nine Songs The Li sao also known as Encountering Sorrow attributed to the poet statesman Qu Yuan 4th3rd century BCE is one of the cornerstones of the Chinese poetic tradition It has long been studied as Chinas first extended allegory in poetic form yet most scholars agree that there is very little in the two thousand year old tradition of commentary on it that convincingly explains its supernatural flights its complex floral imagery or the gender ambiguity of its primary poetic persona The Shaman and the Heresiarch is the first book length study of the Li sao in English offering new translations of both the Li sao and the Nine Songs The book traces the shortcomings of the earliest extant commentary on those texts that of Wang Yi back to the quasi divinatory methods of the highly politicized tradition of Chinese classical hermeneutics in general and the political machinations of a Han dynasty empress dowager in particular It also offers an entirely new interpretation of the Li sao one based not on Qu Yuan hagiography but on what late Warring States period artifacts and texts including recently unearthed texts teach us about the cultural context that produced the poem In that light we see in the Li sao not only a reflection of the era of the great classical Chinese philosophers but also the breakdown of the political religious order of the ancient state of Chu

Inter-culturality and Philosophic Discourse Yolaine Escande,Chenyang Li,Vincent Shen,2014-07-24 Responding to a deep and universal need of philosophizing in the context of intensive intercultural interaction among all philosophical traditions in the process of globalization this timely book offers a unique collection of excellent papers on inter translatability art and ethics subjects which are most crucial for intercultural conversations today Instead of opting for a comparative philosophy that suggests the superiority of philosophy in comparison with other forms of thought this book explores inter translatability between East and West given that any dialogue between heterogeneous cultures and systems of thought has to start with translation which constitutes the first part of this book Art and ethics are the two areas that most obviously link philosophies of the past and the present and constitute a fundamental part of Chinese long living and practical philosophy The value of art and aesthetic appreciation no less than ethics is at the core of Chinese culture and indeed promises a great deal for the future world Thus they are dealt with here in the second and third parts This book is also relevant to inter culturalism in philosophy itself as the contributors firstly come from several different continents and secondly though most of them are philosophers all contributors are well versed in other disciplines such as anthropology literature religion aesthetics history of art sinology cognitive sciences and social sciences

The Vulnerability of Integrity in Early Confucian Thought Michael Ing,2017-07-06 The Vulnerability of Integrity in Early Confucian Thought is about the necessity and value of vulnerability in human experience In this book Michael Ing brings early Chinese texts into dialogue with questions about the ways in which meaningful things are vulnerable to powers beyond our control and more specifically how relationships with meaningful others might compel tragic actions Vulnerability is often understood as an undesirable state invulnerability is usually preferred While recognizing the need to reduce vulnerability in some situations The Vulnerability of Integrity demonstrates that vulnerability is pervasive in human experience and enables values such as morality trust and maturity Vulnerability is also the source of the need for care for oneself and for others The possibility of tragic loss fosters compassion for others as we strive to care for each other This book demonstrates the plurality of Confucian thought on this topic The first two

chapters describe traditional and contemporary arguments for the invulnerability of integrity in early Confucian thought The remainder of the book focuses on neglected voices in the tradition which argue that our concern for others can and should lead to us compromise our own integrity In such cases we are compelled to do something transgressive for the sake of others and our integrity is jeopardized in the transgressive act **Unlocking the Treasury** Katherine Ngo,2025-01-14 The first major study in English of the Qing era textbook on elementary education **A Better World Is Possible** Ambrose Mong,2018-10-25 Paradise has been widely perceived as somewhere on ocean islands or in distant mountains where people come together to set up tightly knit societies so they can live work and worship in harmony and peace For the first time ever in this widely researched work that bridges the utopian ideas and visions of East and West Ambrose Mong explores the writings of influential thinkers from ancient China to Renaissance Europe and today including Thomas More Teilhard de Chardin Confucius and Mo Tzu and even twentieth century political reformist Kang Youwei
