volume contributes to the emerging research on the social formation of translators and interpreters as specific occupational

groups Despite the rising academic interest in sociological perspectives in Translation Studies relatively little research has so

far been devoted to translators social background status struggles and sense of self The articles assembled here zoom in on

the groups of individuals who perform the complex translating and or interpreting tasks thereby creating their own space of

cultural production Cutting across varied translatorial and geographical arenas they reflect a view of the interrelatedness

between the macro level question of professional status and micro level aspects of practitioners identity Addressing central

theoretical issues relating to translators habitus and role perception as well as methodological challenges of using qualitative

and quantitative measures this endeavor also contributes to the critical discourse on translators agency and ethics and to

questions of reformulating their social role The contributions to this volume were originally published in Translation and

[The Law and the Deaf](#) United States. Department of Health, Education, and Welfare. Vocational Rehabilitation Administration, 1967 **The Law and the Deaf** Lowell J. Myers, 1967 *White House Interpreter* Harry Obst, 2010-04-14 What is going on behind closed doors when the President of the United States meets privately with another world leader whose language he does not speak. The only other American in the room is his interpreter who may also have to write the historical record of that meeting for posterity. In his introduction the author leads us into this mysterious world through the meetings between President Reagan and Mikhail Gorbachev and their highly skilled interpreters. The author intimately knows this world having interpreted for seven presidents from Lyndon Johnson through Bill Clinton. Five chapters are dedicated to the presidents he worked for most often Johnson Nixon Ford Carter and Reagan. We get to know these presidents as seen with the eyes of the interpreter in a lively and entertaining book full of inside stories and anecdotes. The second purpose of the book is to introduce the reader to the profession of interpretation a profession most Americans know precious little about. This is done with a minimum of theory and a wealth of practical examples many of which are highly entertaining episodes keeping the reader wanting to read on with a minimum of interruptions. [Historical Evolution of the Eastern Mode of Production](#) Zhao Jiaxiang, 2020-06-09 In the four volumes of *The Development Trajectory of Eastern Societies and the Theories and Practices of Socialism* the author re-examines Marx and Engels theories on the development trajectory of Eastern societies by integrating theoretical analysis of Marxist theories and a historical investigation of socialist revolution and socialist construction around the world. This second volume focuses on Marx and Engels historical materialism explains the general laws of historical development and brings this to bear within the context of Eastern societies. The author notes that Marx and Engels historical materialism and its derivative theories on Eastern societies are compatible and interconnected. In addition he reveals how Marx and Engels

theory of the Asiatic mode of production plays an important part in the development trajectory of Eastern societies and is closely related to their theory of five social forms This volume is a key reference for readers who study and are interested in Marxism Marxist philosophy and the history of philosophy
