Interreligious Dialogue:

Women and Interreligious Dialogue Catherine Cornille, Jillian Maxey, 2013-09-26 Though women have been objects more often than subjects of interreligious dialogue they have nevertheless contributed in significant ways to the dialogue just as the dialogue has also contributed to their own self understanding This volume the fifth in the Interreligious Dialogue Series brings together historical critical and constructive approaches to the role of women in the dialogue between religions These approaches deal with concrete examples of women s involvement in dialogue critical reflections on the representation of women in dialogue and the important question of what women might bring to the dialogue Together they open up new avenues for reflection on the nature and purpose of interreligious dialogue *The Common Heart* Netanel Miles-Yépez, 2006 For twenty years a group of spiritual seekers from many religious traditions met in various places around the United States under the rubric of the Snowmass Conferences to engage in the deepest form of interreligious dialogue The experience was intimate and trusting transformative and inspiring To encourage openness and honesty no audio or visual recording was made of and no articles were written about the encounters When these encounters came to an end it was agreed that reflection on what had happened emotionally spiritually philosophically and theologically during the Snowmass dialogues should be written down The result is *The Common Heart* Here is an extraordinary exploration of the wealth of the world s spiritual traditions combined with dialogue from the heart about the differences and similarities between their paths of wisdom Participants include Fr Thomas Keating Roshi Bernie Glassman Swami Atmarupananda Dr Ibrahim Gamard Imam Bilal Hyde Pema Chodron Rabbi Henschel Yehoshua Hoffman and many others ***The Faiths of Others*** Thomas Albert Howard, 2021-05-25 The first intellectual history of interreligious dialogue a relatively new and significant dimension of human religiosity In recent decades organizations committed to interreligious or interfaith dialogue have proliferated both in the Western and non Western worlds Why How so And what exactly is interreligious dialogue These are the touchstone questions of this book the first major history of interreligious dialogue in the modern age Thomas Albert Howard narrates and analyzes several key turning points in the history of interfaith dialogue before examining in the conclusion the contemporary landscape While many have theorized about and practiced interreligious dialogue few have attended carefully to its past connecting its emergence and spread with broader developments in modern history Interreligious dialogue grasped in light of careful critical attention to its past holds promise for helping people of diverse faith backgrounds to foster cooperation and knowledge of one another while contributing insight into contemporary global religious pluralism *Rituals in Interreligious Dialogue* Marcel Poorthuis, 2020-04-30 Rituals are back on stage today Until recently they were regarded as an obsolete and even incomprehensible part of religions relegated to the background while ethics and spirituality attracted more focus However the realisation is growing that rituals represent the treasure of religious memory They connect the human being to the past and to the community that surrounds her or him However what happens to rituals when different

religions meet This book shows that a great deal can be learned by taking rituals seriously This holds good for the rich treasure of rituals within religions such as Judaism Islam Hinduism and Christianity Only by recognizing these treasures can new possibilities for rituals in interreligious encounters be explored John Paul II and Interreligious Dialogue Byron L. Sherwin, Harold Kasimow, 2005-09-30 In the first book to explore Pope John Paul II's view on interreligious dialogue leading scholars from Buddhism Islam and Judaism respond to his writings and speeches on their respective traditions and the relationship between those faiths and Catholicism Contributors Pope John Paul II The XIV Dalai Lama Robert Aitken Masao Abe Jose Ignacio Cabezon David M Gordis Mahmoud Ayoub Ibrahim M Abu Rabi Michael L Fitzgerald Wayne Teasdale

Interreligious Dialogue and Cultural Change Catherine Cornille, Stephanie Corigliano, 2012-08-17 The challenges and changes that take place when religions move from one cultural context to another present unique opportunities for interreligious dialogue In new cultural environments religions are not only propelled to enter into dialogue with the traditional or dominant religion of a particular culture religions are also invited to enter into dialogue with one another about cultural changes In this volume scholars from different religious traditions discuss the various types of dialogue that have emerged from the process of acculturation While the phenomenon of religious acculturation has generally focused on Western religions in non Western contexts this volume deals predominantly with the acculturation in the United States It thus offers a fresh look at the phenomenon of acculturation while also lifting up an often implicit or ignored dimension of interreligious dialogue Evangelization as Interreligious Dialogue John C. Cavadini, Donald Wallenfang, 2019-08-21 What does Jesus have to do with Buddha What does Muhammad have to do with Krishna One of the most important tasks for theology in the twenty first century is interreligious dialogue Given the rapid process of globalization and the surge of information via the Internet travel and library networking today interreligious dialogue has become a necessary element within Christian theology that no longer can be avoided Evangelization as Interreligious Dialogue features eleven essays plus an extensive introduction that exercise a live conversation between religious others Divided into four thematic sections 1 Catholic approaches to interreligious dialogue 2 dialogues between Judaism and Christianity 3 dialogues between Islam and Christianity and 4 dialogues between Hinduism Buddhism and Christianity this volume conducts a sustained theological reflection on the current state of interreligious dialogue by signaling its hopeful promises and unrelenting challenges The reader will be invited to encounter the religious other firsthand and put his or her most cherished theological assumptions to the test This book aims to provoke an expansion of horizons for theological imagination as it exposes the basic dialectic of identity and difference as played out in the interaction between diverse religious beliefs practices and experiences

Catholicism and Interreligious Dialogue James Heft, 2011-11-21 Each article is followed by a significant response from a member of the non Catholic faith community being addressed and by a response to the response by the author of the article

The Problem with Interreligious Dialogue Muthuraj Swamy, 2016-03-24 Muthuraj Swamy provides a fresh

perspective on the world religions paradigm and interreligious dialogue By challenging the assumption that world religions operate as essential entities separate from the lived experiences of practitioners he shows that interreligious dialogue is in turn problematic as it is built on this very paradigm and on the myth of religious conflict Offering a critique of the idea of dialogue as it has been advanced by its proponents such as religious leaders and theologians whose aims are to promote inter religious conversation and understanding the author argues that this approach is elitist and that in reality people do not make sharp distinctions between religions nor do they separate political economic social and cultural beliefs and practices from their religious traditions Case studies from villages in southern India explore how Hindu Muslim and Christian communities interact in numerous ways that break the neat categories often used to describe each religion Swamy argues that those who promote dialogue are ostensibly attempting to overcome the separate identities of religious practitioners through understanding but in fact they re enforce them by encouraging a false sense of separation The Problem with Interreligious Dialogue Plurality Conflict and Elitism in Hindu Christian Muslim Relations provides an innovative approach to a central issue confronting Religious Studies combining both theory and ethnography

Approaches to Jewish-Arab Interreligious Dialogue and Peacebuilding: Theory and Practice Molloy, M. Ben, 2024-10-01 Religion in its most negative form has and can be the basis of conflict escalation and terror However religion in its more noble and elevated forms can also be a force for peacebuilding particularly between Jews and Arabs If the slow but steady progress toward Israel's acceptance into Middle East continues an interreligious dimension will clearly accompany it as the Abraham Accords demonstrates Yet as the region continues to evolve and new challenges emerge new peacebuilding strategies will be required Approaches to Jewish Arab Interreligious Dialogue and Peacebuilding Theory and Practice follows the genre of scholars and practitioners who have contended that the religious contribution to conflict resolution and peacebuilding has been sorely overlooked particularly in the Middle East Based on the author's rich professional experience this book delves into the complexities of Jewish Arab relations by examining both the theoretical frameworks and practical initiatives that seek to bridge divides through religious dialogue Covering topics such as the Arab Israeli conflict Jewish political tradition and religious diplomacy this book is an essential resource for academicians scholars practitioners in peacebuilding policymakers government officials religious leaders and communities students and educators and more

The World Market and Interreligious Dialogue

Catherine Cornille, Glenn Willis, 2011-09-06 The fair and equitable distribution of wealth and the cultivation of proper attitudes toward material goods and economic development concern all religious traditions alike In so far as the dynamics of the world market or the global economic system transcend the competency and control of any particular religion dialogue between religions as well as between religionists and economists becomes both possible and necessary This volume brings together religious thinkers from various traditions as well as economists to reflect on the possibilities and the challenges of such dialogue

Strangers or

Co-Pilgrims? S. Wesley Ariarajah, 2017-11-01 This book argues that interfaith dialogue begins with the basic goal of improving Christian relationships with people of other religious traditions But gradually we become aware that this new ministry when taken seriously presents many new challenges We are forced to reexamine our approach to religious plurality to the Bible and to our understanding of Christian missions and our theology of religions

Understanding Interreligious Relations

David Cheetham, Douglas Pratt, David Thomas, 2013-11-21 The ways in which religious communities interact with one another is an increasing focus of scholarly research and teaching Issues of interreligious engagement inclusive of

dialogue more specifically and relations more generally attract widespread interest and concern In a religiously pluralist world how different communities get along with each other is not just an academic question it is very much a focus of socio political and wider community attention The study of religions and religion in the 21st century world must necessarily take account of relations within and between religions whether this is approached from a theological historical political or any other disciplinary point of view Understanding Interreligious Relations is a reference work of relevance to students and scholars as well as of interest to a wider informed public It comprises two main parts The first provides expositions and critical discussions of the ways in which the other has been construed and addressed from within the major religious traditions The second presents analyses and discussions of key issues and topics in which interreligious relations are an integral constituent The editors have assembled an authoritative and scholarly work that discusses perspectives on the religious other and interreligious relations that are typical of the major religious traditions together with substantial original chapters from a cross section of emerging and established scholars on main debates and issues in the wider field of interreligious relations

Controversies in Interreligious Dialogue and the Theology of Religions Paul

Hedges,2013-01-03 A challenging controversial discussion of the current state of the debate about Christianity and other world faiths

You Have Been Told What Is Good Paul O. Ingram,2016-09-12 The radical interdependency of justice compassion and solidarity of community working for the common good are ideals celebrated in the religious Ways of humanity Human beings at all times and in all places have known what is good but for reasons too numerous to count have failed to act justly and compassionately in communal harmony with one other and with the sentient beings with whom we share life on planet Earth Today the major justice issue confronting us is human caused environmental destruction running amok on this planet the only place in the universe where our species is alive Accordingly this book offers socially engaged dialogue between persons representing the world s religious Ways The natural sciences are included as a third partner The dialogue presented in this book is a powerful resource for confronting and stopping the causes of climate change But we must do so before it s too late

Ritual Participation and Interreligious Dialogue Marianne Moyaert,Joris

Geldhof,2015-04-23 Shared ritual practices multi faith celebrations and interreligious prayers are becoming increasingly common in the USA and Europe as more people experience religious diversity first hand While ritual participation can be seen as a powerful expression of interreligious solidarity it also carries with it challenges of a particularly sensitive nature Though celebrating and worshiping together can enhance interreligious relations cross riting may also lead some believers to question whether it is appropriate to engage in the rituals of another faith community Some believers may consider cross ritual participation as inappropriate transgressive behaviour Bringing together leading international contributors and voices from a number of religious traditions Ritual Participation and Interreligious Dialogue delves into the complexities and intricacies of the phenomenon They ask what are the promises and perils of celebrating and praying together What are the

limits of ritual participation How can we make sense of feelings of discomfort when entering the sacred space of another faith community The first book to focus on the lived dimensions of interreligious dialogue through ritual participation rather than textual or doctrinal issues this innovative volume opens an entirely new perspective *The Future of Interfaith Dialogue* Yazeed Said, Yazid Said, Lejla Demiri, 2018-08-30 Provides insightful discussions of the exegetic and discursive process begun by the open letter A Common Word Between Us and You Possibility of Interreligious Dialogue Michael H. Mitias, 2021-04-22 Is dialogue between the major religions of the world possible If it is possible under what conditions In this book Michael H Mitias argues that it is possible provided various conditions are met These conditions include mutual respect mutual understanding and God centeredness First how can a religion that is unusually complex composed of a doctrine founded in a unique divine revelation a leadership class of theologians teachers clergy and administrators and a community across global cultures show uniform respect to another religion How can a complex institution like a religion truly understand another religion Third can the different religions worship the same God if their conceptions of God are based on their unique doctrines Mitias addresses these questions and argues that it is possible for religions to respect and understand one another Further he argues that the different conceptions of God are necessarily founded in a belief in the existence of a transcendent infinite and wise being
