Official Gazette of the United States Patent Office United States. Patent Office, 1956 Official Gazette of the United States Patent Office ,1898 Climate Change, Interrupted Barbara Leckie, 2022-11-01 In this moment of climate precarity Victorian studies scholar Barbara Leckie considers the climate crisis as a problem of time Spanning the long nineteenth century through our current moment her interdisciplinary treatment of climate change at once rethinks time and illustrates that the time for climate action is now Climate Change Interrupted argues that linear progress inflected temporalities are not adequate to a crisis that defies their terms Instead this book advances a theory and practice of interruption to rethink prevailing temporal frameworks At the same time it models the anachronistic time blending and time layering temporality it advances In a series of experimental chapters informed by the unlikely trio of Walter Benjamin Donna Haraway and Virginia Woolf Leckie reinfects and cowrites the traditions and knowledges of the long nineteenth century and the current period in the spirit of climate action collaboration The current moment demands as many approaches as possible invites us to take risks and asks scholars and activists adept at storytelling to participate in the conversation Climate Change Interrupted accordingly invests in interruption to tell a different story of the climate crisis

Kant, Hume, and the Interruption of Dogmatic Slumber Abraham Anderson, 2020-02-24 Kant once famously declared in the Prolegomena that it was the objection of David Hume that first many years ago interrupted my dogmatic slumber Abraham Anderson here offers an interpretation of this utterance arguing that Hume roused Kant not as has often been thought by challenging the principle that every event has a cause which governs experience but rather by attacking the principle of sufficient reason the basis of both rationalist metaphysics and the cosmological proof of the existence of God This suggestion Anderson proposes allows us to reconcile Kant's declaration with his later assertion that it was the Antinomy of pure reason the clash of opposing theses that first woke him from dogmatic slumber For the Antinomy suspends the dogmatic principle of sufficient reason in doing so Anderson proposes it is extending Hume's attack on that principle This reading of Kant also explains why Kant speaks of the objection of David Hume after mentioning Hume's attack on metaphysics The objection that Kant has in mind Anderson argues is a challenge to metaphysics rather than to the foundations of empirical knowledge Consequently Anderson's analysis issues a new view of Hume himself as primarily interested not in the foundations of experience but in the problem of metaphysics and theology It thereby positions Kant and Hume as champions of the Enlightenment in its struggle with superstition Shedding new light on the connection between two of the most influential figures in the history of philosophy this volume will appeal not only to scholars of Kant Hume and early modern philosophy but to philosophers and students interested in the history of philosophy and metaphysics generally

Caves and Karst of the Greenbrier Valley in West Virginia William B. White, 2017-11-20 The focus of this book is on the more than 2000 caves of the Greenbrier Valley of West Virginia of which the 14 with lengths greater than 10 km have an aggregate length of 639 km The major caves form the core

part of sub basins which drain to big springs and ultimately to the Greenbrier River Individual chapters of this book describe each of the major caves and its associated drainage basin The caves are formed in the Mississippian Greenbrier Limestone in a setting of undulating gentle folds Fractures lineaments and confining layers within the limestone are the main controlling factors The caves underlie an extensive sinkhole plain which may relate to a major erosion surface The caves are habitat for both aquatic and terrestrial organisms which are cataloged and described as are the paleontological remains found in some of the caves The sinkhole plain of the Greenbrier karst and the underlying complex of cave systems are the end result of at least a ten million year history of landscape evolution which can be traced through the evolving sequence of cave passages and which is described in this book

Thermodynamics and Gas Dynamics of the Stirling Cycle Machine Allan J. Organ, 1992-08-20 This 1992 book provides a coherent and comprehensive treatment of the thermodynamics and gas dynamics of the practical Stirling cycle Invented in 1816 the Stirling engine is the subject of worldwide research and development on account of unique qualities silence indifference to heat source low level of emissions when burning conventional fuels and an ability to function in reverse as heat pump or refrigerator The student of engineering will discover an instructive and illuminating case study revealing the interactions of basic disciplines The researcher will find the groundwork prepared for various types of computer simulation Those involved in the use and teaching of solution methods for unsteady gas dynamics problems will find a comprehensive treatment on nonlinear and linear wave approaches for the Stirling machine provides an elegant example of the application of each The book will be of use to all those involved in researching designing or manufacturing Stirling prime movers coolers and related regenerative thermal machines

Hume's Scepticism and the Science of Human Nature Paul Stanistreet, 2017-07-05 This book explores the relationship between Hume's sceptical philosophy and his Newtonian ambition of founding a science of human nature Assessing both received and new readings of Hume's philosophy Stanistreet offers a

line of interpretation which he argues makes sense of many of the apparent conflicts and paradoxes in Hume's work and describes how well known controversies concerning Hume's thinking about causation induction and the external world can be resolved. Offering important new contributions to Hume scholarship this book also surveys and assesses the new research responsible for the recent sea change in thinking about Hume. It offers an accessible overview of these developments while suggesting significant revisions to current readings of Hume's philosophy.

The Rhetoric of Interruption Daniel Lynwood Smith, 2012-08-31 Why are so many speakers interrupted in Luke and in Acts? For nearly a century scholars have noted the presence of interrupted speech in the Acts of the Apostles but explanations of its function have been limited and often contradictory. A more effective approach involves grounding the analysis of Luke Acts within a larger understanding of how interruption functions in a wide variety of literary settings. An extensive survey of ancient Greek narratives, epics, histories, and novels reveals the forms, frequency, and functions of interruption in Greek authors who lived and wrote between the eighth century B.C.E. and the second century C.E. This comparative study suggests that the frequent interruptions of Jesus and his followers in Luke 4:28, Acts 4:1, 7:54, 13:48, etc. are designed both to highlight the pivotal closing words of the discourses and to draw attention to the ways in which the early Christian gospel was received. In the end, the interrupted discourses are best understood not as historical accidents but as rhetorical exclamation points intended to highlight key elements of the early Christian message and their varied reception by Jews and Gentiles.
