Domesticity and Dissent in the Seventeenth Century Katharine Gillespie, 2004-02-05 In *Domesticity and Dissent* Katharine Gillespie examines writings by seventeenth century English Puritan women who fought for religious freedom Seeking the right to preach and prophesy women such as Katherine Chidley Anna Trapnel Elizabeth Poole and Anne Wentworth envisioned the modern political principles of toleration the separation of Church from state privacy and individualism Gillespie argues that their sermons prophesies and petitions illustrate the fact that these liberal theories did not originate only with such well known male thinkers as John Locke and Thomas Hobbes Rather they emerged also from a group of determined female religious dissenters who used the Bible to reassess traditional definitions of womanhood public speech and religious and political authority Gillespie takes the pamphlet literatures of the seventeenth century as important subjects for analysis and her study contributes to the important scholarship on the revolutionary writings that emerged during the volatile years of the mid seventeenth century Civil War in England

Mothers of the Nation Anne K. Mellor, 2000-05-22 A survey of British women s writings of the late eighteenth and early nineteenth centuries and the revolutionary New Woman they promoted British women writers were enormously influential in the creation of public opinion and political ideology during the years from 1780 to 1830 Anne Mellor demonstrates the many ways in which they attempted to shape British public policy and cultural behavior in the areas of religious and governmental reform education philanthropy and patterns of consumption She argues that the theoretical paradigm of the doctrine of the separate spheres may no longer be valid According to this view British society was divided into distinctly differentiated and gendered spheres of public versus private activities in the eighteenth and nineteenth centuries Surveying all the genres of literature drama poetry fiction non fiction prose and literary criticism Mellor shows how women writers promoted a new concept of the ideal woman as rationally educated sexually self disciplined and above all virtuous This New Woman these writers said was better suited to govern the nation than were its current fiscally irresponsible lecherous and corruptible male rulers Beginning with Hannah More Mellor argues that women writers too often dismissed as conservative or retrogressive instead promoted a

revolution in cultural mores or manners She discusses writers as diverse as Elizabeth Inchbald Hannah Cowley and Joanna Baillie as Charlotte Smith Anna Barbauld and Lucy Aikin as Mary Wollstonecraft Charlotte Reeve and Anna Seward and concludes with extended analyses of Charlotte Smith's *Desmond* and Jane Austen's *Persuasion* She thus documents women writers full participation in that very discursive public sphere which Habermas so famously restricted to men of property Moreover the new career of philanthropy defined by Hannah More provided a practical means by which women of all classes could actively construct a new British civil society and thus become the mothers not only of individual households but of the nation as a whole Intellectual and social historians and not just feminists have long believed that the late 18th and early 19th centuries in Britain saw an increasing separation of the male public and female domestic realms with the result that the public sphere theorized by Jurgen Habermas and others to have emerged in the Enlightenment almost entirely excluded women With energy wit and admirable command of her sources Mellor author of distinguished books on Romanticism demonstrates that just the opposite was true in the years around 1800 women became the primary producers and consumers of writing in Britain and vitally participated in the discursive public sphere many arguing in their different ways for what Hannah More the most popular author of the period called a moral revolution in the national manners and principles A splendid survey of women novelists poets critics playwrights and social theorists this bracing and important work of revision deserves a place in serious academic libraries serving both undergraduates and advanced scholars D L Patey Choice

Public and Private Spaces of the City Ali Madanipour, 2003 This book sets out to find out how and why social space is subdivided in this way and to explore the nature of each realm as defined by spatial and symbolic boundaries Kantian Virtue at the Intersection of Politics and Nature Scott Roulier, 2004 An examination on how virtue is acquired in Kant's ethics In Kant's philosophy virtue is defined as the moral strength or resolve to adopt obligatory ends and to act upon only those maxims that can apply equally to all But how is virtue acquired To answer this question this project turns to Kant's moral anthropology broadly conceived in which he considers those subjective conditions in human nature that both facilitate and hinder the quest for virtue Tailored to the specific constitution of human beings then are a number of moral anthropological strategies for strengthening and promoting moral principles Drawing on Kant's own discussions and the work of several contemporary interpreters this study identifies key approaches to character formation The central concern of the project however is to investigate the roles Kant suggests the larger social political and natural settings that is the dynamic and inspiring contexts of natural beauty law and political discourse play in the process of virtue acquisition The story of politics and nature's influence on virtue acquisition leads into intriguing and given traditional understandings of Kant unexpected territory This study also takes up the question of reciprocal relations Once acquired What support if any does virtue provide for politics and nature With the goal of highlighting what may be valuable in a Kantian approach to the environment the book assesses the workability of alternative ethical paradigms e.g. bio and ecocentric philosophies and concludes that while both

schools of thought challenge anthropocentric assumptions in helpful ways they are ultimately flawed By engaging in this kind of critique this study creates a plausibility structure for re considering the merits of a Kantian approach Scott Roulier is Associate Professor of Political Science at Lyon College Making Sense of Corruption Bo Rothstein,Aiysha Varraich,2017-03-09 This book provides a systematic analysis of how the understanding of corruption has evolved and pinpoints what constitutes corruption *A Private Sphere* Zizi Papacharissi,2010-08-02 Online technologies excite the public imagination with narratives of democratization The Internet is a political medium borne of democracy but is it democratizing This text examines how online digital media shape and are shaped by contemporary democracies **The boundaries of international law** Hilary Charlesworth,Christine Chinkin,2022-04-19 In the first book length treatment of the application of feminist theories of international law Charlesworth and Chinkin argue that the absence of women in the development of international law has produced a narrow and inadequate jurisprudence that has legitimated the unequal position of women worldwide rather than confronting it The boundaries of international law provides a feminist perspective on the structure processes and substance of international law shedding new light on treaty law the concept of statehood and the right of self determination the role of international institutions and the law of human rights Concluding with a consideration of whether the inclusion of women in the jurisdiction of international war crimes tribunals represents a significant shift in the boundaries of international law the book encourages a dramatic rethinking of the discipline of international law With a new introduction that reflects on the profound changes in international law since the book s first publication in 2000 this provocative volume is essential reading for scholars practitioners and students alike *Sites of Discourse - Public and Private Spheres - Legal Culture* ,2022-05-09 The present collection of essays grew out of a conference held in Dresden in December 2001 exploring the relationship between the public sphere and legal culture The conference was held in connection with the ongoing research undertaken by the Sonderforschungsbereich 537 Institutionalisation and Historical Change and in particular by the project Circulation of Legal Norms and Values in British Culture from 1688 to 1900 The conference papers include essays on the theory of the public sphere from a systematic and historical point of view by Gert Melville by Peter Uwe Hohendahl and by Jürgen Schläeger all of whom try to re evaluate and or improve upon Jürgen Habermas seminal contribution to the discussion of the emergence of modernism Alastair Mann s contribution investigates the situation in Scotland particularly censorship and the oath of allegiance Annette Pankratz focuses on the king s body as a site of the public sphere Heinz Joachim Mollenbrock looks into the widespread culture of contention at the beginning of the eighteenth century and Eckhart Hellmuth considers the reform movement at the end of the century and the radical democrats insistence on the right to discuss the constitution Ian Bell who took part in the conference suggested the inclusion of part of the first chapter of his seminal study *Literature and Crime in Augustan England* 1991 Beth Swan Anna Christina Giovanopoulos and Christoph Houswitschka respectively analyse the ideologies of justice the interrelation between
