On the Training of Parents Ernest Hamlin Abbott, 1908 Helping Parents with Challenging Children Positive Family Intervention Parent Workbook V. Mark Durand, Meme Hieneman, 2008-03-14 Having a child with challenging behavior can be frustrating and affect the entire family This workbook will help you take a more positive attitude toward your child and carry out effective steps to improve behavior You will begin to feel more confident in your parenting skills and more optimistic about your child s future The program outlined in this workbook will be tailored to your child s and family s needs and goals It will teach you how to

identify what sets off your child's problem behavior as well as what your child gets or avoids from misbehaving. You will learn strategies to prevent problems, manage consequences, and teach your child new skills. With the help of your facilitator, you will design a behavior support plan for your child. Finally, you will put the plan into effect and monitor the results. Throughout the program, you will be practicing how to think more positively, which can help you be a better parent. In addition to working with your facilitator in session, you will be completing homework assignments using the workbook. Each chapter provides the information and forms you need to assess your child's behavior, apply new strategies, and track your family's progress. As you support positive behavior step by step, you will be working towards improving the lives of your child and your family.

Working with Parents in Child Psychotherapy Elisa Bronfman, Johanna D. Sagarin, 2024-11-06 Grounded in decades of clinical experience, this practical book presents a research-informed framework for delivering parent guidance as a stand-alone intervention or adjunct to child therapy. It delineates flexible strategies to enhance family relationships and parenting skills and find new solutions to struggles around discipline, homework, bedtime, meals, screen time, and other daily routines. Coaching can be tailored for parents dealing with any child mental health or behavioral challenge. Assessment, treatment planning, clinical decision making, and progress monitoring are detailed step by step. The book features illustrative case material and 34 reproducible, downloadable clinical tools.

Handbook of Early Intervention for Autism Spectrum Disorders Jonathan Tarbox, Dennis R. Dixon, Peter Sturmey, Johnny L. Matson, 2014-04-04 Current rates of autism diagnoses have been cause for concern and research, as well as rumor and misinformation. Important questions surround the condition: how early can an accurate diagnosis be made? At what age should intervention start? How can parents recognize warning signs? And what causes autism in the first place? There are no easy answers, but the *Handbook of Early Intervention for Autism Spectrum Disorders* gives researchers, practitioners, and academics the science and guidance to better understand and intervene. Background chapters survey the history of professional understanding of the disorders and the ongoing debate over autism as a single entity or a continuum. Chapters on best methods in screening, assessment, and diagnosis reflect the transition between the DSM-V and older diagnostic criteria. And at the heart of the book, the intervention section ranges from evidence-based strategies for developing core skills to ethical concerns, cultural considerations, and controversial treatments. Included in the *Handbook's* broad-based coverage: Designing curriculum programs for children with autism spectrum disorders (ASD); Mainstream education for children with ASD; Teaching independent living skills to children with ASD; Social skills and play; Behavioral and mental health disorders in children with ASD; Training and supporting caregivers in evidence-based practices; Teaching cognitive skills to children with ASD. The *Handbook of Early Intervention for Autism Spectrum Disorders* is a comprehensive reference for researchers, professors, and graduate students, as well as clinicians and other scientists, practitioners in clinical child and school psychology, child and adolescent psychiatry, social work, rehabilitation, special education, and pediatric medicine.
