### **Place, Diversity and Solidarity**

Stijn Oosterlynck, Nick Schuermans, Maarten Loopmans, 2017-05-08 In many countries particularly in the Global North established forms of solidarity within communities are said to be challenged by the increasing ethnic and cultural diversity of the population. Against the backdrop of renewed geopolitical tensions which inflate and exploit ethno-cultural rather than political economic cleavages concerns are raised that ethnic and cultural diversity challenge both the formal mechanisms of redistribution and informal acts of charity reciprocity and support which underpin common notions of community. This book focuses on the innovative forms of solidarity that develop around the joint appropriation and the envisaged common future of specific places. Drawing on examples from schools streets community centres workplaces churches housing projects and sporting projects it provides an alternative research agenda from the loss of community narrative. It reflects on the different spatiotemporal frames in which solidarities are nurtured the connections forged between solidarity and citizenship and the role of interventions by professionals to nurture solidarity in diversity. This timely and original work will be essential reading for those working in human geography sociology ethnic studies social work urban studies political studies and cultural studies.

**Privacy in Peril** Richard Jochelson,David Ireland,2019-11-01 In 1984 the Supreme Court of Canada in *Hunter v Southam*  
declared warrantless searches unreasonable under section 8 of the Charter of Rights and Freedoms Police would henceforth  
require authorization based on reasonable and probable grounds The decision promised to protect individuals from state  
power but as Richard Jochelson and David Ireland argue post *Hunter* search and seizure law took a turn away from the  
landmark decision An examination of dozens of subsequent cases reveals that section 8 protections have become more  
difficult to obtain in the post 9 11 era Rather than developing rigorous standards for new search and surveillance techniques  
and technologies the courts have used the Charter to sanction broader police powers Yet even as it demonstrates that the  
core principles of Justice Dickson's vision for section 8 rights have been diminished *Privacy in Peril* suggests that increasing  
citation of *Hunter* in the halls of justice offers hope that some protection of civil liberties will endure in the twenty first  
century
