Intimate Relations:

Understanding Abuse in Young People's Intimate Relationships Ceryl Teleri Davies, 2023-06-30 Ceryl Teleri Davies research in female only spaces informs this illuminating guide to young women's experiences of intimate relationships. Essential reading for those working with young people, the book makes a vital contribution to the study of gender-based violence. Her research reveals young women's understandings of what it means to have a healthy relationship and considers the influence of gendered social norms within both healthy and abusive relationships. While contributing to the debate on how young women negotiate the conflicts inherent in contemporary constructions of gender, the book then suggests a pathway towards gender equality.

Informality Barbara Misztal, 2002-09-11 For most of the twentieth century, modernity has been characterised by the formalisation of social relations as face-to-face interactions are replaced by impersonal bureaucracy and finance. As we enter the new millennium, however, it becomes increasingly clear that it is only by stepping outside these formal structures that trust and co-operation can be created and social change achieved. In a brilliant theoretical tour de force, illustrated with sustained case studies of changing societies in the former eastern Europe and of changing forms of interaction within so-called virtual communities, Barbara Misztal argues that only the society that achieves an appropriate balance between the informality and formality of interaction will find itself in a position to move forward to further democratisation and an improved quality of life.

Interpersonal Relationship, Reimagining Rapport Zane Goebel, 2021 To do ethnography, a researcher must have rapport with research subjects. But what is rapport? Ethnography and ethnographic methods have increasingly become a feature of social inquiry in general and sociolinguistics in particular, and rapport is generally considered a prerequisite for fieldwork. And yet, unlike related terms such as communication and phatic communion, this concept has remained largely unexamined. *Reimagining Rapport* turns a critical eye to the use of the term rapport across disciplines. The collection analyzes the very idea of rapport, both exploring how it has been shaped by historical forces and actors within sociocultural anthropology and questioning its usefulness. Rather than viewing the term as simply denoting a type of positive social relationship that needs to be formed between researcher and consultant before research can begin, this book invites us to reimagine rapport theoretically, methodologically, and meta-methodologically. Zane Goebel and other leading sociolinguists challenge readers to think about how rapport has been constructed within these disciplines and ultimately to see rapport as an emergent, co-constructed social relationship that is actively built during situated multimodal encounters. The contributors collectively examine the role of ideology and mediation in the construction of rapport and argue that reconceptualizing research subject relationships is essential for establishing more sophisticated ways of understanding, interpreting, and representing research context. A valuable resource for scholars and students of sociolinguistics and linguistic anthropology, as well as for others engaged in ethnographic fieldwork, *Reimagining Rapport* is the first collection to provide an in-depth investigation of this critically important but previously unexamined concept. **The**

Purchase of Intimacy Viviana A. Zelizer, 2009-02-09 In their personal lives people consider it essential to separate economics and intimacy We have for example a long standing taboo against workplace romance while we see marital love as different from prostitution because it is not a fundamentally financial exchange In *The Purchase of Intimacy* Viviana Zelizer mounts a provocative challenge to this view Getting to the heart of one of life's greatest taboos she shows how we all use economic activity to create maintain and renegotiate important ties especially intimate ties to other people In everyday life we invest intense effort and worry to strike the right balance For example when a wife's income equals or surpasses her husband's how much more time should the man devote to household chores or child care Sometimes legal disputes arise Should the surviving partner in a same sex relationship have received compensation for a partner's death as a result of 9/11 Through a host of compelling examples Zelizer shows us why price is central to three key areas of intimacy sexually tinged relations health care by family members friends and professionals and household economics She draws both on research and materials ranging from reports on compensation to survivors of 9/11 victims to financial management Web sites and advice books for same sex couples From the bedroom to the courtroom *The Purchase of Intimacy* opens a fascinating new window on the inner workings of the economic processes that pervade our private lives Tough Choices Sigal R.

Ben-Porath, 2016-06-28 To what extent should government be permitted to intervene in personal choices In grappling with this question liberal theory seeks to balance individual liberty with the advancement of collective goals such as equality Too often however society's obligation to provide meaningful opportunities is overshadowed by its commitment to personal freedom *Tough Choices* charts a middle course between freedom oriented anti interventionism and equality oriented social welfare presenting a way to structure choices that equalize opportunities while protecting the freedom of individuals to choose among them Drawing on insights from behavioral economics psychology and educational theory Sigal Ben Porath makes the case for structured paternalism which is based on the understanding that state intervention is often inevitable and that therefore theorists and policymakers must focus on the extent to which it can productively be applied as well as on the forms it should take in different social domains Ben Porath explores how structured paternalism can play a role in providing equal opportunities for individual choice in an array of personal and social contexts including the intimate lives of adults parent child relationships school choice and intercultural relations *Tough Choices* demonstrates how structured paternalism can inform more egalitarian social policies ones that acknowledge personal social and cultural differences as well as the challenges all individuals may face when they make a choice *Destructive Desires* Robert J.
