*Paths to Contemporary French Literature* John Taylor, 2017-07-05 The first volume of *Paths to Contemporary French Literature* offered a critical panorama of over fifty French writers and poets With this second volume John Taylor an American writer and critic who has lived in France for the past thirty years continues this ambitious and critically acclaimed project Praised for his independence curiosity intimate knowledge of European literature and his sharp reader's eye John Taylor is a writer critic who is naturally skeptical of literary fashions overnight reputations and readymade academic categories Charting the paths that have led to the most serious and stimulating contemporary French writing he casts light on several neglected postwar French authors all the while highlighting genuine mentors and invigorating newcomers Some names Patrick Chamoiseau Pascal Quignard Jean Philippe Toussaint Jean Rouaud Francis Ponge Aime Cesaire Marguerite Yourcenar J M G Le Clezio may be familiar to the discriminating and inquisitive American reader but their work is incisively re-evaluated here The book also includes a moving remembrance of Nathalie Sarraute and an

evocation of the author's meetings with Julien Gracq. Other writers in this second volume are equally deserving authors whose work is highly respected by their peers in France yet little known in English speaking countries. Taylor's pioneering elucidations in this respect are particularly valuable. This second volume also examines a number of non-French originally non-French speaking writers such as Gherasim Luca, Petr Kral, Armen Lubin, Venus Ghoura, Khata Piotr Rawicz, as well as Samuel Beckett who chose French as their literary idiom. Taylor is in a perfect position to understand their motivations, struggles and goals. In a day and age when so little is known in English speaking countries about foreign literature and when so little is translated, the two volumes of *Paths to Contemporary French Literature* are a must-read. **Memory and Latency in Contemporary Anglophone Literature** Yvonne Liebermann, 2023-06-06. Up until fairly recently, memory used to be mainly considered within the frames of the nation and related mechanisms of group identity. Building on mechanisms of inclusion and exclusion, this form of memory focused on the event as a central category of meaning-making. Taking its cue from a number of Anglophone novels, this book examines the indeterminate traces of memories in literary texts that are not overtly concerned with memory but still latently informed by the past. More concretely, it analyzes novels that do not directly address memories and do not focus on the event as a central meaning-making category. Relegating memory to the realm of the latent, that is, the not directly graspable dimensions of a text, the novels that this book analyses withdraw from overt memory discourses and create new ways of remembering that refigure the temporal tripartite of past, present and future and negotiate what is memorable in the first place. Combining the analysis of the novels' overall structure with close readings of selected passages, this book links latency as a mode of memory with the productive agency of formal literary devices that work both on the micro and macro level, activating readers to challenge their learned ways of reading for memory.

Western Literary Criticism and Contemporary China Yamin Hu, 2020-07-14 Since the reform and opening up of China in 1978 Western literary criticism has begun to flourish and gain in popularity within the country's academic literature community. These two volumes meticulously select and examine nine of the most influential keywords from Western literary theory while identifying the intricate historical sources of these terms and analyzing their relevance to other disciplines and ideas. The result shows how these words function as heterogeneous cultural contexts in the complexity of experience but also how they function within the context of Chinese culture as well as Chinese literature and criticism. In this volume the editors focus on discourse, text, narrative, literariness, and irony from the perspectives of etymology, documentation, meanings, and other core factors. Students of literature and languages and especially Chinese literature will benefit from this two-volume set.
