Lee Galda, Bernice E. Cullinan

Literature And The Child:

Literature and the Child Lee Galda, Bernice E. Cullinan, Lawrence R. Sipe, 2009-05 LITERATURE AND THE CHILD 7th Edition covers the two major topical areas of children's literature: the genres of children's literature (picture books, folklore, etc.) and the use of children's literature in the classroom. Deliberately concise, the book offers succinct yet beautifully written and illustrated discussions that reflect the tone and feel of children's books. Featuring discussions of the latest works of children's literature, the text includes coverage of the growing importance of young adult literature as well as expanded emphasis on upper level children's literature and adolescent literature. The authors pay careful attention to diversity in children's literature and equip students with practical, research-based teaching ideas.

Literature and the Child Bernice E. Cullinan, Lee Galda, 1998 With a slender design and appealing art, Cullinan and Galda present a thought-provoking discussion on how children can read to respond, read to learn, and read to enjoy. This text provides evaluation criteria for selecting superior children's books rather than listing thousands of titles and synopses. Booklists direct readers to quality literature, and extended discussions of selected titles demonstrate the selection criteria. Multicultural literature is discussed throughout the text, with a separate chapter on more specific multicultural issues. Numerous teaching ideas, many of which are contributed by classroom teachers, provide practical applications. This is a book for teachers stressing the use of good books in a literature-based curriculum.

Literature and the Child James Holt McGavran, James Holt McGavran, 1998-04 The Romantic myth of childhood as a transhistorical, holy time of innocence and spirituality, uncorrupted by the adult world, has been subjected in recent years to increasingly serious interrogation. Was there ever really a time when mythic ideals were simple, pure, and

uncomplicated The contributors to this book contend although in widely differing ways and not always approvingly that our culture is indeed still pervaded in this postmodern moment of the very late twentieth century by the Romantic conception of childhood which first emerged two hundred years ago In the wake of the French Revolution and the Industrial Revolution western Europe experienced another fin de siècle characterized by overwhelming material and institutional change and instability By historicizing the specific political social and economic conflicts at work within the notion of Romantic childhood the essayists in *Literature and the Child* show us how little these forces have changed over time and how enriching and empowering they can still be for children and their parents In the first section *Romanticism Continued and Contested* Alan Richardson and Mitzi Myers question the origins and ends of Romantic childhood In *Romantic Ironies Postmodern Texts* Dieter Petzold Richard Flynn and James McGavran argue that postmodern texts for both children and adults perpetuate the Romantic complexities of childhood Next in *The Commerce of Children's Books* Anne Lundin and Paula Connolly study the production and marketing of children's classics Finally in *Romantic Ideas in Cultural Confrontations* William Scheick and Teya Rosenberg investigate interactions of Romantic myths with those of other cultural systems
