INSTRUCTOR INTERVIEW

Literature Connection Instructors

**Claudio Longobardi ,Matteo Angelo
Fabris**

Literature Connection Instructors:

Teaching Literary Research Kathleen A. Johnson, Steven Robert Harris, 2009 Literary Experience-Instructors Manual Beiderwell, Wheeler, 2007 This helpful all in one instructor's resource contains a brief introduction for each chapter in the book. These introductions examine the literature examples, images, and film references to further explain how the featured pieces work within the element as well as what other pieces in the book exemplify that element. It provides an expansion of the questions that are currently in the book and how the piece would work with the Experiencing Literature through Writing Questions. A sample syllabi created by authors Bruce Beiderwell and Jeffrey Wheeler is also included. Finally, The Guide to Film located in the Instructor's Manual is an excellent resource for expanding the film coverage in THE LITERARY EXPERIENCE ESSENTIAL EDITION. Instructor, 1996 **Striving for Excellence**, 1991 *Normal Instructor and Teachers World*, 1923 Teaching Literature in Modern Foreign Languages Fotini Diamantidaki, 2019-04-04 From plays to poetry, Le Petit Nicolas to the Association for Language Learning, ALL Literature wiki, this book shows trainee teachers of MFL, teachers in schools, teacher educators how literature can be an essential tool for developing students' cultural awareness as well as language skills. With contributions from Ruth Heilbronn, Jane Jones, and other leading scholars, it covers a wide range of approaches including looking at how to support students to develop the skills they need to read and discuss texts and how to use stories as a pedagogic tool rather than just a way to develop reading skills. Examples of teaching French, German, Japanese, Mandarin, and Spanish are used throughout, but the book draws together resources and strategies for use in teaching all modern foreign languages. Supporting students to develop into creative, reflective teachers, this book offers support for readers to develop their own tasks for their pupils and questions throughout to keep them engaged and encouraging them to critically engage with the content. Seemingly daunting articles are made much more approachable for readers with windows on research which provide a summary of relevant research papers with full reference details for follow up. Normal Instructor, 1915 Writers on Writing Robert Pack, Jay Parini, 1991 From deeply personal perspectives, two dozen established writers ponder the mystery of their art and such fundamentals as: What is a genuine writing impulse? Why does good writing work? How is writing learned? What is the role of craft and technique? Who is meant to be a writer? How is close reading related to good writing? The volume is peppered with critical perspectives and practical advice, yet its special richness and inspiration lie in the wonderment and deep love for the act of writing expressed by each contributor. Each essay is a joy to read, blending storytelling, literary anecdotes gathered from a lifetime of avid reading, and the kind of shoptalk exchanged between colleagues. Writers will find here camaraderie and encouragement; teachers of writing will hear practical testimony to what works, and readers will come away with a renewed awe for the spell cast by good writing. From back cover.

Resources in Education, 1998 Teaching Language and Literature On and Off-Canon Correoso-Rodenas, José Manuel, 2020-06-26 Language and literature teaching are a keystone in the age of STEM, especially when dealing with

minority communities Practical methodologies for language learning are essential for bridging the cultural gap Teaching Language and Literature On and Off Canon is a critical research publication that provides a multidisciplinary multimodal and heterogenous perspectives on the applications of language learning and teaching practices for commonly studied languages such as Spanish English and French and less studied languages such as Latin Gaelic and ancient Semitic languages Highlighting topics such as language acquisition artistic literature and minority languages this book is essential for language teachers linguists academicians curriculum designers policymakers administrators researchers and students The Congregational magazine [formerly The London Christian instructor]. , *Highlights in Educational Psychology:*

Teacher-student Relationship Claudio Longobardi, Alberto Crescentini, Elisabetta Sagone, 2024-12-16 We are pleased to introduce the collection *Frontiers in Psychology Highlights in Educational Psychology Teacher student Relationship* This collection will welcome and showcase a selection of articles about this timely topic authored by leaders in the field The work presented here highlights the broad diversity of research performed across education and aims to put a spotlight on the main areas of interest Service Learning and Literary Studies in English Laurie Grobman, Roberta Rosenberg, 2015-02-01 Service learning can help students develop a sense of civic responsibility and commitment often while addressing pressing community needs One goal of literary studies is to understand the ethical dimensions of the world and thus service learning by broadening the environments students consider is well suited to the literature classroom Whether through a public literacy project that demonstrates the relevance of literary study or community based research that brings literary theory to life student collaboration with community partners brings social awareness to the study of literary texts and helps students and teachers engage literature in new ways In their introduction the volume editors trace the history of service learning in the United States including the debate about literature s role and outline the best practices of the pedagogy The essays that follow cover American English and world literature creative nonfiction and memoir literature based writing and cross disciplinary studies Contributors describe a wide variety of service learning projects including a course on the Harlem Renaissance in which students lead a community writing workshop an English capstone seminar in which seniors design programs for public libraries and a creative nonfiction course in which first year students work with elderly community members to craft life narratives The volume closes with a list of resources for practitioners and researchers in the field

Proceedings of the Meeting of the Convention of American Instructors of the Deaf Convention of American Instructors of the Deaf, 1921 List of members in 15th 26th **Connecting Abstract Algebra to Secondary Mathematics, for Secondary Mathematics Teachers** Nicholas H. Wasserman, 2018-12-12 Secondary mathematics teachers are frequently required to take a large number of mathematics courses including advanced mathematics courses such as abstract algebra as part of their initial teacher preparation program and or their continuing professional development The content areas of advanced and secondary mathematics are closely connected Yet despite this connection many secondary teachers insist that

such advanced mathematics is unrelated to their future professional work in the classroom This edited volume elaborates on some of the connections between abstract algebra and secondary mathematics including why and in what ways they may be important for secondary teachers Notably the volume disseminates research findings about how secondary teachers engage with and make sense of abstract algebra ideas both in general and in relation to their own teaching as well as offers itself as a place to share practical ideas and resources for secondary mathematics teacher preparation and professional development Contributors to the book are scholars who have both experience in the mathematical preparation of secondary teachers especially in relation to abstract algebra as well as those who have engaged in related educational research The volume addresses some of the persistent issues in secondary mathematics teacher education in connection to advanced mathematics courses as well as situates and conceptualizes different ways in which abstract algebra might be influential for teachers of algebra Connecting Abstract Algebra to Secondary Mathematics for Secondary Mathematics Teachers is a productive resource for mathematics teacher educators who teach capstone courses or content focused methods courses as well as for abstract algebra instructors interested in making connections to secondary mathematics

Student-Teacher Relationship Quality Research: Past, Present and Future,volume II Claudio Longobardi ,Matteo Angelo Fabris,2024-06-28 Since the publication of Robert Pianta s 2001 handbook on the quality of the teacher student relationship much has been accomplished and research contributions have multiplied from different authors and countries This testifies to the richness and continuous evolution of this field of research The quality of the teacher student relationship has been recognized as an important factor in the psychological development of students and seems to increase their adjustment to the school context A good quality of relationship according to attachment theorists is characterized by closeness affection and respect In this direction the teacher can offer a relational context that can support the child in their learning processes and psychological development preventing negative outcomes The research focused on defining the salient features of this educational relationship and refining tools that could collect the perceptions of students and teachers trying to identify the possible outcomes associated and the mechanisms involved

Successful Teacher: Personality and Other Correlates Elena Mirela Samfira,Tiberiu Sandu Dughi,Jesus de la Fuente,2023-11-08 The question of what makes a good teacher has been asked by practitioners policymakers and researchers Teachers are important drivers of student success in the immediate term such as academic success Nowadays the education process is influenced by various factors which can all have a strong effect on the quality of teaching and learning Having the intention to create high quality teaching and learning it is very important to clearly determine what those factors are and what kind of effect they have on the education process Different teacher characteristics and competencies have been distinguished in the literature as being relevant predictors of their instructional quality Even though educational psychology has emphasized the significance of the personality role in the education process the empirical evidence on the relationship between teacher characteristics and instructional quality is not

yet conclusive Certainly there is much more to find out

Instructional Communication Competence and Instructor

Social Presence: Enhancing Teaching and Learning in the Online Environment Sherwyn Morreale,Patrick R.

Lowenthal,Janice Thorpe ,Larisa Olesova,2024-05-16 The coronavirus pandemic mandated unexpected instant transitions to remote learning and accelerated student demand for online courses As a result colleges and universities in the U S and around the world began and have continued to expand their online courses and degree programs The online learning industry is projected to pass 370 billion by 2026 and one third of post secondary school administrators indicate they will continue to offer both remote and online course options even after their campuses completely resume offering in person face to face courses Students have demonstrated there is an increased demand for online courses as well A national survey of 1 413 students registered at U S higher education institutions in fall 2020 and spring 2021 said their experiences with learning remotely during the pandemic left them with a positive attitude toward online and hybrid courses This increased interest calls attention to the need for more scholarly examination of online teaching and learning

Agents of Integration

Rebecca S. Nowacek,2011-11-02 In Agents of Integration Understanding Transfer as a Rhetorical Act Rebecca S Nowacek explores through a series of case studies the issue of knowledge transfer by asking what in an educational setting engages students to become agents of integration individuals actively working to perceive as well as to convey effectively to others the connections they make
