*Mammoth Cave* Horton H. Hobbs III, Rickard A Olson, Elizabeth G Winkler, David C. Culver, 2017-06-14. This book reveals the science and beauty of Mammoth Cave, the world's longest cave which has played an important role in the natural sciences. It offers a comprehensive and interdisciplinary treatment of the cave, combining insights from leading experts in fields ranging from archeology and cultural history to life science and geosciences. The first animals specialized for cave life in North America, including beetles, spiders, crayfish and fish, were discovered in Mammoth Cave in the 1840s. It has also been used and explored by humans, including Native Americans who mined its sulfate minerals and later African American slaves who made a map of the cave. More recent stories include wars between commercial cave owners, epic exploration trips by modern cave explorers and, of course, tourism. The first section of the book is an extensive description, including maps and photos of the cave, its basic structural pattern and how it relates to the surface landscape. The second section covers the human history of utilization and exploration of the cave, including mining, tourism and medical experiments. Cave science is

the topic of the third section including geology hydrology mineralogy climatology paleontology ecology biodiversity and microbiology The fourth section looks to the future with an overview of environmental issues facing Mammoth Cave managers The book is intended for anyone interested in caves in general and Mammoth Cave in particular experts in one discipline seeking information about other areas and researchers and students interested in the many avenues of pursuit possible in Mammoth Cave

has come to fruition For many years growing up I was encouraged to be a writer by my mother She told me to experience life  
and one day I will have the heart to write a great book I began sailing the Chesapeake Bay in my sixteen foot Hobie cat when  
I was a preteen As I gained experience I grew braver and ventured across the bay and into some of the major rivers that  
flowed into it One day about midday I was sailing up the York river and I met a young Mattiponi boy about my same age I  
offered to take him for a ride on my cat and a friendship developed When I graduated from high school I attended a small  
college in North Carolina The Vietnam war was developing so I felt it was my duty to join the service I became a Navy  
photographer When my tour of duty was completed I decided to return to college and get my degree I graduated with a BS in  
elementary education 4 7 I enjoyed my career of 28 years of teaching but I hadn t met my goal to write a book Having taught  
about the Woodland Powhatan Indians throughout the years I focused my research and learned about and visited close local  
tribe sights and museums I retired from teaching to write my book After many reams of paper and constant editing and  
revising my two plus years of writing finally became hopeful reality We all have watched Apache raids in movies and on tv
