Little Blue Of Ufos:

UFOs Robert Powell, 2024-04-02 Robert Powell a founding Board member of the Scientific Coalition for UAP Studies has studied the UFO subject for 17 years His work is encapsulated in UFOs A Scientist Explains What We Know And Don t Know which provides a scientific rationale for the reality of non terrestrial craft that are intelligently controlled Powell begins his book by familiarizing the reader with the history of UFOs and he identifies the more enigmatic and interesting UFO sightings He examines the characteristics of these sightings that argue against a prosaic explanation extreme acceleration electromagnetic interference bending light no obvious propulsion mechanisms and a lack of interaction with the atmosphere Powell discusses the recent events that have caused our government to change the term from UFO to UAP Included is information never before released indicating the government possesses not just two videos but five videos from 2015 of UFOs operating in the vicinity of the USS Roosevelt nuclear aircraft carrier Powell s later chapters in the book discuss the extraterrestrial hypothesis considering the thousands of exoplanets that have been discovered in the last twenty years Powell challenges the reader to consider all the implications that must be considered if intelligent life discovers us first He looks at how we as individuals and as a society react to UFOs He documents actions taken by our military that include instances when we have fired on UFOs Powell argues that it is time for a change in the study of UFOs The phenomenon has been with us for 75 years and we have learned very little as the decades have passed The author makes the case for what needs to be done going forward The solution he proposes will require a paradigm shift Real Aliens, Space Beings, and Creatures from Other Worlds Brad Steiger, Sherry Hansen Steiger, 2011-05-01 Shocking true stories of those who walk among us With the Kepler satellite observatory detecting new planets at an unprecedented rate and the powerful computers at NASA s Ames Research Center seeking signs of distant life will a breakthrough discovery happen shortly or has there already been a secret encounter with alien beings Who might be coming next And who walks among us today Visits from otherworldly creatures aliens living among us abductions of humans to alien spacecraft and accounts of interstellar cooperation since the UFO crash in Roswell are thoroughly investigated in Real Aliens Space Beings and Creatures from Other Worlds Paranormal researcher extraordinaire Brad Steiger an author of thousands of books and articles on the mysterious and unknown looks into a wide host of otherworldly encounters from alleged eyewitness accounts of extraterrestrial beings working side by side with human scientists to the uncomfortable accusations of alien abductions Disquieting testimonials enlightening news articles informative historical accounts and documents this book chronicles more than 300 examples of alien encounters conspiracy theories and the influence of extraterrestrials on human events throughout history This discussion of the theories and mysteries surrounding aliens is packed with thought provoking stories and shocking revelations of alien involvement in the lives of Earthlings such as Three Russian scientists who were monitoring the Apollo Moon Landing on July 20 1969 claim that

astronauts Armstrong and Aldrin were being closely observed by UFOs Thousands of women all over the world claim to have been abducted for the purpose of bearing Hybrid Children A family in Colorado repeatedly visited by aliens with physical evidence and photographs to prove their story From cattle and human mutilations to missing time experienced by UFO experiences and from secret underground and even underwater alien facilities to government alien conspiracies each astonishing report is detailed with thorough research and recounted with a storyteller s crafted voice Real Aliens Space Beings and Creatures from Other Worlds will leave the reader wondering who has visited us who s coming to visit next and who walks among us

UFOs, the Absurd, and the Limit of Anthropological Knowledge Diana Espírito Santo,2024-09-20 This book offers an ethnographic and conceptual analysis of contemporary UFO phenomena focusing specifically on Chilean ufology and the ufological absurd nonsensical instances for their experiencers in which there is no conceptual way out It asks how anthropology can come to terms with what is not said what is not known what is in the dark or even with what both is and is not The work draws on three years of participant observation with empirical ufologists amateur sky watchers and contactees of varying kinds in Chile The chapters mobilize three main bodies of literature to elucidate the ufological absurd negative theology anthropology of play and deceit and the physics of dark matter They explore notions of parallax paradox and trickster anthropology The author takes UFO phenomena specifically the absurd aspects as a heuristic with which to posit a conversation between domains a conversation which highlights darknesses finiteness and the limits of representation and media in anthropology one that could perhaps signal the route to a new language Consideration is given to how not knowing can be a space of extreme productiveness for the discipline The argument put forward is that only by doing an anthropology that looks outside of itself for conceptual inspiration can we come to terms with the non representable the un conceptualizable the fully paradoxical This innovative book will be of particular interest to scholars of anthropological theory and religion

Strieber,Jeffrey J. Kripal,2017-09-26 Two of today s maverick authors on anomalous experience present a perception altering and intellectually thrilling analysis of why the paranormal is real but radically different from what is conventionally understood Whitley Strieber Communion and Jeffrey J Kripal J Newton Rayzor professor of religion at Rice University team up on this unprecedented and intellectually vibrant new framing of inexplicable events and experiences Rather than merely
