and the Environment in England and Wales since 1800 John Hassan,2016-12-05 The seaside has always held a special position in British history as a place of rest relaxation and recuperation Over the last 200 years many have made their way to the coast attracted by the long sunshine hours the clean ozone charged air and the opportunities for bathing in and even drinking sea water Although the early health resort ideal began to give way to more pleasure orientated themes in the nineteenth century the seaside holiday was still regarded by many as a wholesome and invigorating break from inland urban life well into the twentieth century Yet with ever increasing numbers of visitors and rising levels of coastal pollution this was by no means a forgone conclusion The Seaside Health and the Environment in England and Wales since 1800 explores the ways in which English seaside resorts continually reinvented themselves to take account of contemporary trends in popular leisure and maintain their hold on the public s imagination Particular account is paid to the interwar years when new obsessions with outdoor activities such as sunbathing and tanning were purposefully adopted by the industry to define the

modern image of the resort holiday For these and other reasons the seaside holiday reached new peaks of popularity in the 1930s and 1950s yet this very success placed enormous pressures on the environmental amenities that people came to enjoy As this work shows environmental stresses were manifold particularly pollution of the resorts prime assets their beaches As such serious questions are raised concerning why it took such a long time for a determined effort to be made to reverse beach pollution and the lessons to be learned regarding the impact of negative images of the coast as a zone of danger and infection Francis Frith's Around Belfast Henry Hall, Francis Frith, 2000 **The British National Bibliography** Arthur James Wells, 2005 **The Connoisseur**, 1924 **SHIPWRECKS FOR WALKERS VOL 2** TOM BENNETT, Winter storms keep removing sand to expose remnants of long lost ships on Britain's beaches This book puts names and stories to 50 of these relics which are now regarded as Historic Monuments Go shipwreck hunting on foot and discover something of our forgotten maritime heritage A Victorian Maritime Album Francis Frith, National Maritime Museum (Great Britain), 1974 A History of British Birds Francis Orpen Morris, 1897 **Britain from the Rails** Benedict Le Vay, 2014-12-01 Including the nation's best kept secret railways Cover **John Brett** Charles Brett, Michael Hickox, Christiana Payne, 2006 The Victorian painter John Brett delighted in the natural world As a Pre Raphaelite in the mid century he created glowing landscapes famously the Stonebreaker of 1857 and The Val d'Aosta painted in the following year which showed all the qualities of the Pre Raphaelites truthfulness to nature and almost obsessional attention to detail He was at this time influenced by the teachings of John Ruskin although their friendship was to end in some acrimony There were to be other sides to John Brett and from the 1870s onwards he devoted much of his time to painting the sea and the coast of the British Isles including as this sumptuous book shows the many faces and colors of Cornwall Painting during long family holidays he left over 200 known views of the coastline from Fowey in the east to Bude in the north In thirty years he recorded with Ruskinian precision and Pre Raphaelite intensity of color its varied beauties revelling in the diverse moods of sea and sky the golden sands and the majesty and grandeur of the Cornish cliffs *The Antiquaries Journal*, 2009 A History of British Birds Francis Orpen Morris, 1870 *The Antiquarian Magazine & Bibliographer*, 1885
