Fredrick Law Olmsted's New York:

Frederick Law Olmsted's New York Elizabeth Barlow Rogers, 1972 **Country, Park & City** Francis R.

Kowsky, 2003-08-07 After beginning his career as an architect in London Calvert Vaux 1824 1895 came to the Hudson River valley in 1850 at the invitation of Andrew Jackson Downing the reform minded writer on houses and gardens As Downing s partner and after Downing s death in 1852 Vaux designed country and suburban dwellings that were remarkable for their well conceived plans and their sensitive rapport with nature By 1857 the year he published his book *Villas and Cottages* Vaux had moved to New York City There he asked Frederick Law Olmsted to join him in preparing a design for Central Park He spent the next 38 years defending and refining their vision of Central Park as a work of art After the Civil War he and Olmsted led the nascent American park movement with their designs for parks and parkways in Brooklyn Buffalo and many other American cities Apart from undertakings with Olmsted Vaux cultivated a distinguished architectural practice Among his clients were the artist Frederic Church whose dream house Olana he helped create and the reform politician Samuel Tilden whose residence on New York s Gramercy Park remains one of the country s outstanding Victorian buildings A pioneering advocate for apartment houses in American cities Vaux designed buildings that mirrored the advance of urbanization in America including early model housing for the poor He planned the original portions of the Metropolitan Museum of Art and the American Museum of Natural History and conceived a stunning proposal for a vast iron and glass building to house the Centennial Exhibition in Philadelphia Especially notable are the many bridges and other charming structures that he designed for Central Park Vaux considered the Park s Terrace decorated by J W Mould as his greatest achievement An active participant in the cultural and intellectual life of New York Vaux was an idealist who regarded himself as an artist and a professional And while much has been written on Olmsted comparatively little has been published about Vaux The first in depth account of Vaux s career *Country Park and City* should be of great interest to historians of art architecture and urbanism as well as preservationists and other readers interested in New York City s past and America s first parks *Creating Central Park* Morrison H. Heckscher, 2008 The year 2008 marks the 150th anniversary of the design of Central Park the first and arguably the most famous of America s urban landscape parks In October 1857 the new park s board of commissioners announced a public design competition and the following April the imaginative yet practicable Greensward plan submitted by Calvert Vaux and Frederick Law Olmsted was selected This book tells the fascinating story of how an extraordinary work of public art emerged from the crucible of New York City politics From William Cullen Bryant s 1844 editorial calling for a pleasure ground of shade and recreation to the completion of construction in 1870 the history of Central Park is an urban epic a tale not only of animosity political intrigue and desire but also of idealism sacrifice and genius

New York City's Central Park Louise Chipley Slavicek, 2009 New York City s Central Park is the most visited urban park in the United States with more than 25 million visitors each year Designed in 1857 by the man who would become

America's most famous landscape architect Frederick Law Olmsted and his partner Calvert Vaux Central Park was intended to provide New Yorkers with a serene and scenic rural refuge from the noise and bustle of city life Yet transforming the rocky swampy park site into the rolling meadows lush woodlands and pristine lakes would prove an extremely time consuming and labor intensive endeavor Thousands of workers drained marshes blasted away boulders and planted a quarter billion trees flowers and shrubs to create the 843 acre green oasis in the heart of Manhattan as envisioned by Olmsted and Vaux

Landscape Into Cityscape Frederick Law Olmsted, Calvert Vaux, 1968 **The Olmsted National Historic Site and the Growth of Historic Landscape Preservation** David Grayson Allen, 2007-11-30 A contextual history of Massachusetts Olmsted National Historic Site **New York Recentered** Kara Murphy Schlichting, 2019-04-23 The history of New York City's urban development often centers on titanic municipal figures like Robert Moses and on prominent inner Manhattan sites like Central Park New York Recentered boldly shifts the focus to the city's geographic edges the coastlines and waterways and to the small time unelected locals who quietly shaped the modern city Kara Murphy Schlichting details how the vernacular planning done by small businessmen and real estate operators performed independently of large scale governmental efforts refigured marginal locales like Flushing Meadows and the shores of Long Island Sound and the East River in the late nineteenth and early twentieth centuries The result is a synthesis of planning history environmental history and urban history that recasts the story of New York as we know it **The Papers of Frederick Law Olmsted** Frederick Law Olmsted, 2013-11-30 These papers document the personal and professional life of the foremost landscape architect in American history Frederick Law Olmsted relocated from New York to the Boston area in the early 1880s With the help of his stepson and partner John Charles Olmsted his professional office grew to become the first of its kind a modern landscape architecture practice with park subdivision campus residential and other landscape design projects throughout the country During the period covered in this volume Olmsted and his partners apprentices and staff designed the exceptional park system of Boston and Brookline including the Back Bay Fens Franklin Park and the Muddy River Improvement Olmsted also designed parks for New York City Rochester Buffalo and Detroit and created his most significant campus plans for Stanford University and the Lawrenceville School The grounds of the U S Capitol were completed with the addition of the grand marble terraces that he designed as the transition to his surrounding landscape Many of Olmsted's most important private commissions belong to these years He began his work at Biltmore the vast estate of George Washington Vanderbilt and designed Rough Point at Newport Rhode Island and several other estates for members of the Vanderbilt family Olmsted wrote more frequently on the subject of landscape design during these years than in any comparable period He would never provide a definitive treatise or textbook on landscape architecture but the articles presented in this volume contain some of his most mature and powerful statements on the practice of landscape architecture [The Best Planned City in the World](#) Francis R. Kowsky, 2018 Beginning in 1868 Frederick Law Olmsted and Calvert Vaux created a series of parks and parkways

for Buffalo New York that drew national and international attention The improvements carefully augmented the city s original plan with urban design features inspired by Second Empire Paris including the first system of parkways to grace an American city Displaying the plan at the Centennial Exposition in Philadelphia Olmsted declared Buffalo the best planned city as to streets public places and grounds in the United States if not in the world Olmsted and Vaux dissolved their historic partnership in 1872 but Olmsted continued his association with the Queen City of the Lakes designing additional parks and laying out important sites within the growing metropolis When Niagara Falls was threatened by industrial development he led a campaign to protect the site and in 1885 succeeded in persuading New York to create the Niagara Reservation the present Niagara Falls State Park Two years later Olmsted and Vaux teamed up again this time to create a plan for the area around the Falls a project the two grand masters regarded as the most difficult problem in landscape architecture to do justice to In this book Francis R Kowsky illuminates this remarkable constellation of projects Utilizing original plans drawings photographs and copious numbers of reports and letters he brings new perspective to this vast undertaking analyzing it as a cohesive expression of the visionary landscape and planning principles that Olmsted and Vaux pioneered Published in association with Library of American Landscape History <http://lalh.org> *Frederick Law Olmsted, Landscape Architect, 1822-1903: Central Park as a work of art and as a great municipal enterprise, 1853-1895* Frederick Law Olmsted, Theodora Kimball Hubbard, 1928 *Frederick Law Olmsted, Landscape Architect, 1822-1903* Frederick Law Olmsted, Theodora Kimball Hubbard, 1928 *Morningside Heights* Andrew S. Dolkart, 2001-03-15 Few aspects of American military history have been as vigorously debated as Harry Truman s decision to use atomic bombs against Japan In this carefully crafted volume Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons surveys the major debates related to that decision and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945 He then provides a historical overview of the events in question beginning with the decision and program to build the atomic bomb Detailing the sequence of events leading to Japan s surrender he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders Finally Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents scholarly books and articles

answers and his own adventures Horwitz follows Olmsted's tracks and often his mode of transport including muleback through Appalachia down the Mississippi River into bayou Louisiana and across Texas to the contested Mexican borderland. Venturing far off beaten paths Horwitz uncovers bracing vestiges and strange new mutations of the Cotton Kingdom. Horwitz's intrepid and often hilarious journey through an outsized American landscape is a masterpiece in the tradition of Great Plains Bad Land and the author's own classic *Confederates in the Attic*. **National Parks** Alfred Runte, 2010-04-16 In this lavishly illustrated book well known environmental historian Alfred Runte, a prominent figure on the Ken Burns documentary *The National Parks: America's Best Idea*, tells the highly engaging story of the development of our national parks from the first national park Yellowstone to the more recent decision to set aside vast tracts of Alaska for preservation. **Frederick Law Olmsted's New York** Frederick Law Olmsted, Elizabeth Barlow, 1972 Picturesque Literature and the Transformation of the American Landscape, 1835-1874 John Evelev, 2021 This work challenges dominant narratives of the concerns of nineteenth century literature to show how supposedly minor works of picturesque helped transform the American landscape and create what we now recognize as the defining spaces of American life. **Frederick Law Olmsted, Landscape Architect, 1822-1903: Early years and experiences, together with biographical notes** Frederick Law Olmsted, Theodora Kimball Hubbard, 1922
