researchers in the research of foreign and international law     Monthly Catalogue, United States Public Documents  
,1990-05     Monthly Catalog of United States Government Publications ,1993     **The Regulation of International Trade, Volume 1** Petros C. Mavroidis,2015-12-18 A detailed examination of the GATT regime for international trade discussing the negotiating record policy background economic rationale and case law The General Agreement on Tariffs and Trade GATT was created alongside other towering achievements of the post World War II era including the United Nations the World Bank and the International Monetary Fund GATT the first successful agreement to generate multilateral trade liberalization became the principal institution to administer international trade for the next six decades In this book Petros Mavroidis offers detailed examination of the GATT regime for international trade discussing the negotiating record policy background economic rationale and case law Mavroidis offers a substantive first chapter that provides a detailed historical background to GATT that stretches from the 1927 World Economic Conference through Bretton Woods and the Atlantic Charter Each of the following chapters examines the disciplines agreed to their negotiating record their economic rationale and subsequent practice Mavroidis focuses on cases that have influenced the prevailing understanding of the norm as well as on literature that has contributed to its interpretation and the final outcome In particular he examines quantitative restrictions and tariffs the most favored nation clause MFN the cornerstone of the GATT edifice preferential trade agreements and special treatment for products originating in developing countries domestic instruments and exceptions to the obligations assumed under GATT This book's companion volume examines World Trade Organization WTO agreements regulating trade in goods     *Globalization and the Developing Countries* David Bigman,2002-01-01 The objective of this book is to review the impact of globalization on a number of issues Key issues highlighted include the high risk or producing traditional commodity crops for export and the removal of many non tariff trade barriers which threaten the livelihoods of many farmers     *International Trade Policies and Global Agriculture* Mary E. Lassanyi,1993     *International Trade Theories and the Evolving International Economy* Richard Anthony Johns,2013-11-07 International Trade Theories and the Evolving International Economy provides a much needed from which to approach this topic offering a self contained introduction to the subject of international trade theory Drawing on a broad range of material this book provides the students with a well rounded and more broadly informed view of the subject     **Theory and Practice of International Trade Linkage Models** A. Italianer,2012-12-06 This book was mainly written while I stayed at the Catholic University of Louvain Professor Anton P Barten was the one who did not only give me a warm welcome in Louvain but also supported my research with most valuable comments and constructive criticisms In addition I benefitted from discussions with Erik Schokkaert Denis de Crombrughe and Jo Baras on various subjects such as the small sample correction of Chapter 9 The arduous task of transferring my neat handwriting into a readable typescript was excellently taken care of by Brs E Crabbe and notably Brs F Duij sens even after working hours Mrs A Molders prevented me of making serious abuse of the English language My

admiration for Carien finally is an exponential function of the patience and enthusiasm with which she supported my research Chapter I is a general introduction to the subject of linkage models and it contains few mathematical elaborations Chapters 2 to 4 use more but elementary mathematics and treat several aspects related to the derivation interpretation and estimation of linkage models Chapter 2 deals with the theory of import allocation models Chapter J treats the problem of defining and interpreting elasticities of substitution while Chapter 4 is concerned with the econometric problems related to the estimation of multivariate models with linear restrictions such as import allocation models

**The Law and Policy of the World Trade Organization** Peter Van den Bossche, 2005-06-10 This is primarily a textbook for graduate and upper level undergraduate students of law However practising lawyers and policy makers who are looking for an introduction to WTO law will also find it invaluable The book covers both the institutional and substantive law of the WTO While the treatment of the law is often quite detailed the main aim of this textbook is to make clear the basic principles and underlying logic of WTO law and the world trading system Each section contains questions and assignments to allow students to assess their understanding and develop useful practical skills At the end of each chapter there is a helpful summary as well as an exercise on specific true to life international trade problems
