

INTERNATIONALIZATION OF CAPITAL MARKETS

- It should also be evident that foreign exchange rate changes must be taken into account by non domestic investors when gauging market performance. It is not surprising that the traditional preference of investing in one's back yard is beginning to give way to investors exploiting the most attractive investment opportunities where ever they may be located.

Al-Fadhat, 2019-01-09 This book analyzes the social forces and political coalitions driving regional integration projects in Asia with a focus on ASEAN and Indonesian conglomerates It asks which social forces within the domestic political economy of Asian states are driving governments to seek regional arrangements for economic governance In particular the book asks how the emergence reorganization and expansion of capitalist class have conditioned political support for regional economic integration By addressing these issues the book emphasizes that the wellspring of regional economic institution projects stem from the process of capitalist development and the social forces it has unleashed The book s aims place the social and class relations that underpin regional projects rather than the institutions which result from them at the centre of the

analysis of regional integration The research for this account draws primarily on primary documents from archival and field research conducted by the author including company documents and in depth interviews government reports and policies and trade publications and data sources which is supplemented with secondary sources where relevant

Emerging Capital Markets and Globalization Augusto de la Torre, Sergio Schmukler, 2006-10-20 Back in the early 1990s economists and policy makers had high expectations about the prospects for domestic capital market development in emerging economies particularly in Latin America Unfortunately they are now faced with disheartening results Stock and bond markets remain illiquid and segmented Debt is concentrated at the short end of the maturity spectrum and denominated in foreign currency exposing countries to maturity and currency risk Capital markets in Latin America look particularly underdeveloped when considering the many efforts undertaken to improve the macroeconomic environment and to reform the institutions believed to foster capital market development The disappointing performance has made conventional policy recommendations questionable at best

Emerging Capital Markets and Globalization analyzes where we stand and where we are heading on capital market development First it takes stock of the state and evolution of Latin American capital markets and related reforms over time and relative to other countries Second it analyzes the factors related to the development of capital markets with particular interest on measuring the impact of reforms And third in light of this analysis it discusses the prospects for capital market development in Latin America and emerging economies and the implications for the reform agenda
