**Echoes of Scripture in the Letter of Paul to the Colossians** Christopher A. Beetham,2009-01-31 While the use of the

Old Testament in the New Testament has captured the attention of biblical scholars over the years no study has been devoted to the presence of Scripture in Colossians largely because there are no explicit quotations in Colossians With the introduction of literary intertextuality into the discipline however scholars have begun to devote more attention to the NT authors less explicit references to Scripture often labelled as allusions and or echoes Scholars however continue to debate what constitutes an allusion or echo or how one validates a given proposal as such This study proposes new definitions of these terms and offers a methodology on how to detect and validate them using Colossians as a test case [Interpretation in Religion](#) Shlomo Biderman, Ben-Ami Scharfstein, 2023-12-14 Interpretation in Religion is the work of a group of contemporary American European and Israeli scholars and philosophers who analyze the crucial course of interpretation in religion religion in general and in particular Hinduism ancient Egyptian religion Judaism christianity and Islam *Imagination and Convention* Ernest Lepore, Matthew Stone, 2015 How do hearers manage to understand speakers And how do speakers manage to shape hearers understanding Lepore and Stone show that standard views about the workings of semantics and pragmatics are unsatisfactory They advance an alternative view which better captures what is going on in linguistic communication [Rebirth](#) Jennifer Whitmer Taylor, 2025-04-10 Reimagining both the House Museum and Reconstruction memory for the twenty first century In Rebirth public historian Jennifer Whitmer Taylor provides a compelling account of how to reenvision the historic house museum Using the Museum of the Reconstruction Era known as the Woodrow Wilson Family Home for most of its many years as a house museum as a case study Taylor explores the challenges and possibilities that face public history practitioners and museum professionals who provide complex interpretations of contested public memory Anchored by oral history interviews with docents who interact directly with the visiting public Rebirth considers how a dated and seemingly outmoded venue for interpretation the historic house museum can be reimagined for twenty first century audiences Taylor offers best practices for interpreting issues such as white supremacy and domestic political terrorism for public audiences and she challenges readers to contemplate how historic sites interact with and contribute to vital contemporary political conversations Rebirth is a necessary book for public history practitioners students of museum studies and historic site interpretation and those interested in the history and memory of the Reconstruction era [Stephen Hetherington on Epistemology](#) Stephen Hetherington, 2024-04-18 Philosophy has long embraced epistemology as one of its central elements What is knowledge How do we gain it Can we gain it Or do we always deceive ourselves when thinking that we have knowledge Are we too deeply fallible ever to know something For centuries these questions have helped to define and motivate epistemological research This volume engages strikingly with them offering some unusual answers Stephen Hetherington s prominent career within epistemology has been a series of bold varied and provocative arguments and ideas Bringing together some elements of his unique body of writing for the first time this collection features previously published as well as new material displaying and extending some of his highly original approaches to key issues including knowledge

justification fallibility scepticism and the Gettier Problem Advancing our understanding of the systemic nature of Hetherington's thinking Stephen Hetherington on Epistemology presents his distinctive perspective on some of philosophy's central questions about knowledge an inviting blend of forensic detail and big picture proposals **Expanding Ezekiel** Timothy P. Mackie, 2015-03-11 Timothy P Mackie focuses on the quantitative differences between the Greek and Hebrew text witnesses of the book of Ezekiel and explores the interrelationships between the production transmission and interpretation of scriptural scrolls by Jewish scribes during the late Second Temple period A comparison of the Hebrew Masoretic text and Greek Septuagint versions of Ezekiel provides a large body of evidence for the phenomenon of scribal expansion instances where scribes added words and phrases into the body of the text Mackie starts off by laying out a methodology for identifying scribal additions among the many textual differences between the Hebrew and Greek text forms of Ezekiel Having compiled an index of such quantitative differences he proposes a descriptive typology for categorizing and analyzing the different types of additions in order to understand their purpose and significance The body of the book is a commentary on all the various types of scribal expansion The scribal additions in Ezekiel show how scribes expressed reverence for the text's divine authority by not only by preserving the sacred text but supplementing it in order to increase its coherence and clarity for future readers They also demonstrate an awareness of an emerging collection of scriptural scrolls in the post exilic Judean community and represent attempts to coordinate Ezekiel with other parts of that collection Ultimately the scribal expansions in Ezekiel provide a glimpse into the intersection of scriptural interpretation scribal production and the transmission of these texts Mackie's Conclusions are relevant not only for text critical scholarship on the Hebrew Bible but also for research on the early history of Jewish scriptural exegesis and scribal culture **Illinois and Michigan Canal Corridor** John D. Peine, Debora A. Neurohr, 1981 **Corporate Responsibility in the Hebrew Bible** Joel S. Kaminsky, 1995-06-01 This book explores a variety of biblical texts in order to clarify and better understand the relationship between the individual and the community in ancient Israel Although much of the argument is focused upon Deuteronomy and the deuteronomistic history other pentateuchal and prophetic texts are also probed In particular certain instances of divine retribution that are corporate in nature are explored and it is argued that such punishments are quite common and completely understandable of the basic theological ideas that are operative in such cases The examination turns to other biblical texts that appear to reject the notion of corporate divine retribution e.g. Ezekiel 18 Here the focus is on whether these texts do in fact reject all forms of corporate divine retribution and how large a shift these texts signal in the biblical understanding of the relationship between the individual and the community Finally Kaminsky asserts that certain theological features explored in this study can be used by those scholars who argue that the enlightenment idea of individualism needs to be balanced by a renewed philosophical and theological emphasis on the individual's responsibility to the larger society **Salem Maritime National Historic Site, Massachusetts** United States.
