Mating Intelligence An Integrative Model and Future Research Directions

Intimate Relationships across Cultures Charles T. Hill, 2019-06-20

A ground breaking study of the ways that intimate relationships are similar around the world and the ways they are different

Human-Robot Intimate Relationships Adrian David Cheok, Emma Yann Zhang, 2019-02-12

The idea of humans falling in love with artificial beings is not a modern conception Our relationship with artificial partners has come a long way since Pygmalion and his ivory lover In recent years there has been a strong upsurge of interest and discussions in the various aspects of intimate relationships between humans and artificial partners This interest is evidenced by the increase in media coverage TV documentaries and films on this topic as well as the active research efforts within the academic community This book provides a comprehensive collection and overview of the latest development in the field of intimate relationships between humans and artificial partners in particular robots and virtual agents It includes relevant research work undertaken by the authors the latest advancements in technology and commercial products and future predictions and insights from leading experts in the area This book contains an in depth discussion of the engineering philosophical psychological ethical and sociological implications of relationships with artificial companions It

also gives a glimpse of some future directions of artificial intelligence human computer love and sexual interaction robotics engineering etc It is a great resource for researchers and professionals working in these areas The narrative style of the book also makes it an enjoyable and educational read for everyone *Social Relationships* Joseph P. Forgas, Julie Fitness, 2008

Human beings are an intrinsically gregarious species our personal relationships are of immense interest to us and are a key factor in achieving happiness and well being From the moment of birth humans crave love and intimacy and we devote much energy to creating and maintaining successful personal relationships throughout our personal and our working lives However modern industrialized societies present a particularly challenging environment for sustaining rewarding personal relationships Understanding how people initiate develop maintain and terminate relationships is one of the core issues in psychology and the subject matter of this book Contributors to this volume are all leading researchers in relationship science and they seek here to explore and integrate the subtle influence that evolutionary socio cultural and intra psychic cognitive affective and motivational variables play in relationship processes In addition to discussing the latest advances in areas of relationship research they also advocate an expanded theoretical approach that incorporates many of the insights gained from evolutionary psychology social cognition and research on affect and motivation The contributions should be highly relevant to researchers teachers students laypersons and to everyone who is interested in the subtleties of human relationships The book is also highly recommended to clinical health and relationship professionals who deal with relationship issues in their daily work **The Handbook of Communication Skills** Owen Hargie, 2018-07-16 The

Handbook of Communication Skills is recognised as one of the core texts in the field of communication offering a state of the art overview of this rapidly evolving field of study This comprehensively revised and updated fourth edition arrives at a time when the realm of interpersonal communication has attracted immense attention Recent research showing the potency of communication skills for success in many walks of life has stimulated considerable interest in this area both from academic researchers and from practitioners whose day to day work is so dependent on effective social skills Covering topics such as non verbal behaviour listening negotiation and persuasion the book situates communication in a range of different contexts from interacting in groups to the counselling interview Based on the core tenet that interpersonal communication can be conceptualised as a form of skilled activity and including new chapters on cognitive behavioural therapy and coaching and mentoring this new edition also places communication in context with advances in digital technology The Handbook of Communication Skills represents the most significant single contribution to the literature in this domain Providing a rich mine of information for the neophyte and practising professional it is perfect for use in a variety of contexts from theoretical mainstream communication modules on degree programmes to vocational courses in health business and education With contributions from an internationally renowned range of scholars this is the definitive text for students researchers and professionals alike **California. Court of Appeal (4th Appellate District). Division 3. Records and Briefs** California
