Dan Tarlock, John C. Dernbach and Gabriela Maria Kutting, 2010-10-30 International Sustainable Development Law is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on International Sustainable Development Law reflects on the rights and duties of states and other actors in the development process The chapters range from International Development Law standard applications of economic theory to more radical approaches These three volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs **Legislation on Foreign Relations with Explanatory Notes** United States, 1982 International Commerce , 1969-07 *Studies in International Investment* John H. Dunning, 2001 First published in 2000 Routledge is an imprint of Taylor Francis an informa company **Principles of International Investment Law** Rudolf Dolzer, Ursula Kriebaum, Christoph Schreuer, 2022 This book provides an ideal introduction to the fundamentals of international investment law and dispute settlement for students scholars and practitioners It combines a systematic analytical study of the texts and principles underlying investment law with a jurisprudential analysis of the case law arising in international tribunals *Foreign Investment, International Law and Common Concerns* Tullio Treves, Francesco Seatzu, Seline Trevisanut, 2013-10-23 Increasingly transnational corporations developed countries and private actors are broadening the boundaries of their investments into new territories in search of a higher return on capital This growth in direct foreign investment involves serious concerns for both the investor and host state Various exponents of international civil society and non governmental organisations persuasively claim that such growth in foreign investments constitutes potential and serious hazards both to the environment and the fundamental rights and freedoms of local populations This book explores from an international law perspective the complex relationship between foreign investments and common concerns i e values that do not coincide or do not necessarily coincide with the interests of the investor and of the host state It pays particular attention to the role of the main international development banks in reconciling the needs of foreign investors with the protection of common concerns such as the environment human rights and labour rights Among its collection of essays the volume asks how much regulatory space investment law leaves whether international investment law is an effective means of balancing contrasting interests and whether investment arbitration currently constitutes a mechanism of global governance In collecting the outlooks of various experts in human rights environmental and international economic law this book breaks new ground in exploring how attention to its legal aspects may help in navigating the relationship between foreign investment and common concerns In doing so the book provides valuable

insights into the substantive issues and institutional aspects of international investment law International Encyclopedia of Public Policy and Administration Volume 1 Jay Shafritz, 2019-03-01 This is the first volume of a four volume encyclopaedia which combines public administration and policy and contains approximately 900 articles by over 300 specialists This Volume covers entries from A to C It covers all of the core concepts terms and processes of applied behavioural science budgeting comparative public administration develop

General International Law in International Investment Law Andreas Kulick, Michael Waibel, 2024 This Commentary systematically and comprehensively examines the various sources of general international law relevant to international investment law and arbitration **The Three Laws of International**

Investment Jeswald W. Salacuse, 2013-02-14 There are three legal frameworks applicable to international investments the laws of the host state and the investor's country the contract between the host state and the investor and the rules of international investment law This book assesses how these three bodies of law interact in investment agreements and dispute arbitration *Large-Scale Land Investments in Least Developed Countries* Luis Tomás Montilla Fernández, 2017-11-09 This

book analyses large scale land investments for agricultural purposes in Africa's least developed countries from a law and economics perspective Focusing on the effects of foreign land investments on host countries local populations and the apparent failure of international law to create incentives to offset them it also examines the legal and economic mechanisms to hold investors accountable in cases where their investment leads to human rights violations Applying principal agent and contract theory it elucidates the sources of opportunism and develops control mechanisms to ameliorate the negative effects It shows that although judicial mechanisms fail to deliver justice international law offers alternatives to safeguard against arbitrary and abusive state and investor conduct and also to effectuate human rights and thus tackle opportunistic behaviour

The Foundations of International Investment Law Zachary Douglas, Joost Pauwelyn, Jorge E. Viñuales, 2014-05-01 International investment law is one of the fastest growing areas of international law It has led to the signing of thousands of agreements mostly in the form of investment contracts and bilateral investment treaties Also in the last two decades there has been an exponential growth in the number of disputes being resolved by investment arbitration tribunals Yet the legal principles at the basis of international investment law and arbitration remain in a state of flux Perhaps the best illustration of this phenomenon is the wide disagreement among investment tribunals on some of the core concepts underpinning the regime such as investment property regulatory powers scope of jurisdiction applicable law or the interactions with other areas of international law The purpose of this book is to revisit these conceptual foundations in order to shed light on the practice of international investment law It is an attempt to bridge the growing gap between the theory and the practice of this thriving area of international law The first part of the book focuses on the infrastructure of the investment regime or more specifically on the structural arrangements that have been developed to manage foreign investment transactions and the potential disputes arising from them The second part of the book identifies the common conceptual bases of an array of

seemingly unconnected practical problems in order to clarify the main stakes and offer balanced solutions The third part addresses the main sources of regime stress as well as the main legal mechanisms available to manage such challenges to the operation of the regime Overall the book offers a thorough investigation of the conflicting theoretical positions underlying international investment law testing their worth by reference to concrete issues that have arisen in the jurisprudence It demonstrates that many of the most important practical questions arising in practice can be addressed by a carefully dosed resort to theory
