Literature Art And Artifact:

Literature William A. Heffernan, Mark E. Johnston, Francis Hodgins, 1987-01-01 Art and Artifact in Austen Anna Battigelli, 2020-03-11 Jane Austen distinguished herself with genius in literature but she was immersed in all of the arts Austen loved dancing played the piano proficiently meticulously transcribed piano scores attended concerts and art exhibits read broadly wrote poems sat for portraits by her sister Cassandra and performed in theatricals For her art functioned as a social bond solidifying her engagement with community and offering order And yet Austen's hold on readers imaginations owes a debt to the omnipresent threat of disorder that often stems ironically from her characters socially disruptive artistic sensibilities and skill Drawing from a wealth of recent historicist and materialist Austen scholarship this timely work explores Austen's ironic use of art and artifact to probe selfhood alienation isolation and community in ways that defy simple labels and acknowledge the complexity of Austen's thought Death and Garden Narratives in Literature, Art, and Film Feryal Cubukcu, Sabine Planka, 2020-07-30 Death and Garden Narratives in Literature Art and Film Song of Death in Paradise analyzes the combination of two motifs death and gardens throughout various media and cultural contexts in order to show how the two subjects are intertwined and prevalent throughout the world's cultures The Sign in Music and Literature Wendy Steiner, 2014-11-06 The notion of semiotics as a universal language that can encompass any object of perception makes it the focus of a revolutionary field of inquiry the semiotics of art This volume represents a unique gathering of semiotic approaches to art from Saussurian linguistics to transformational grammar from Prague School aesthetics to Peircean pragmatism from structuralism to poststructuralism Though concerned specifically with the semiotics of music and literature the essays reveal the breadth of semiotics interdisciplinary appeal involving specialists in musicology ethnomusicology jazz performance literary criticism poetics aesthetics rhetoric linguistics dance and film The diversity of authorial training and approach makes this collection a dramatic demonstration of the on going debates in the field In many ways the semiotics of art is the testing ground of sign theory as a whole and work in this subject is as vital to the interests of theoretical semioticians as to students of the arts It is to both these interests that this volume is addressed Mikhail Bakhtin's Heritage in Literature, Arts, and Psychology Slav N. Gratchev, Howard Mancing, 2020-07-07 Art and Answerability the work that would become Mikhail Bakhtin s literary manifesto was first published in Den Iskusstva The Day of the Art on September 13 1919 Mikhail Bakhtin's Heritage in Literature Arts and Psychology Art and Answerability celebrates one hundred years of Bakhtin's heritage This unique book examines the heritage of Mikhail Bakhtinin a variety of disciplines To articulate the enduring relevance and heritage of the varied works of Bakhtin sixteen scholars from eight countries have come together and each has brought his her unique perspective to the subject Bakhtin's work in aesthetics moral philosophy linguistics psychology carnival cognition contextualism and the history and theory of the novel are present here as understood by a wide variety of distinguished scholars **Artifacts, Representations and Social Practice** C.

Gould, Robert S. Cohen, 2012-12-06 The essays collected here in honor of Marx Wartofsky's sixty fifth birthday are a celebration of his rich contribution to philosophy over the past four decades and a testimony to the wide influence he has had on thinkers with quite various approaches of their own His diverse philosophical interests and main themes have ranged from constructivism and realism in the philosophy of science to practices of representation and the creation of artifacts in aesthetics and from the development of human cognition and the historicity of modes of knowing to the construction of norms in the context of concrete social critique Or again in the history of philosophy his work spans historical approaches to Hegel Feuerbach and Marx as well as contemporary implications of their work and in applied philosophy problems of education medicine and new technologies Marx s philosophical theorizing moves from the highest levels of abstraction to the most concrete concern with the everyday and with contemporary social and political reality And perhaps most notably it is acutely sensitive to the importance of historical development and social practice As a student of John Herman Randall Jr and Ernest Nagel at Columbia Marx developed an exemplary background in both the history of philosophy and systematic philosophy and subsequently combined this with a wide acquaintance with analytic philosophy He is at once aware of the requirements of system and of the need for rigorous and careful detailed argument Tragedy and the Tragic in German Literature, Art, and Thought Stephen D. Dowden, Thomas P. Quinn, 2014 Essays in this volume seek to clarify the meaning of tragedy and the tragic in its many German contexts art forms and disciplines from literature and philosophy to music The Branches of the Gospel of John Kyle Keefer, 2006-03-01 In The Branches of the Gospel of John painting and history Keefer presents a new paradigm for understanding the role of history of interpretation in New Testament studies with a focus on the Gospel of John Drawing largely from the work of Hans Robert Jauss he presents history of interpretation as a means to understand both the text and the historical reader Jauss's concept of Rezeptions sthetik helps the New Testament scholar to reflect upon both text and history in a new light John is an exemplary work to investigate along these lines because no other canonical book was as provocative in the early church John was used extensively by Valentinians but also by the best known opponent of Valentinus Irenaeus Later major figures such as Origen Augustine and John Chrysostom worked through this gospel chapter by chapter to produce either commentaries Origen or sets of homilies Augustine and Chrysostom What emerges in The Branches of the Gospel of John is a realization that these early interpreters prove fruitful for both textual and historical study of the Fourth Gospel With regard to history early interpreters of John provide data points for understanding John in second and third century contexts Although these early interpretations do not explain the origins of John s gospel they nevertheless provide us with evidence of the Fourth Gospel s historical role in the construction of the early church With regard to literary and textual issues the present book demonstrates that these early readings of John can open up fresh avenues of interpretation for contemporary readers The Philosophical Novel as a Literary Genre Michael H. Mitias, 2022-03-11 This book examines the conceptual existential and logical conditions under which the philosophical novel

can be treated as a literary genre on a par with generally recognized literary genres such as mystery romantic adventure religious or historical novel Michael H Mitias argues that the philosophical novel meets these conditions He advances a detailed analysis of the concept of literary genre and discusses the reasons which justify the claim that philosophical novel is a distinct literary genre This is based on the assumption that philosophical ideas can be communicated metaphorically An analysis of this assumption necessarily leads to a detailed discussion of the concept of metaphor and the extent to which it can be the vehicle of communicating philosophical truth What Happens in Literature Edward W. Rosenheim, 1961 How can we become good readers In this classic handbook Edward W Rosenheim lays out the basics that can help us all become sharper more proficient readers Looking at specific poems novels and plays this excellent critical guide raises questions and offers suggestions designed to make us think more and enjoy more fully what we are reading Designed for students of literature as well as those who simply like to read What Happens in Literature helps readers appreciate literary works as unique creations born in a particular time and place but powerful enough to speak across centuries **Literary Gaming** Astrid Ensslin, 2023-08-15 A new analytical framework for understanding literary videogames the literary ludic spectrum illustrated by close readings of selected works In this book Astrid Ensslin examines literary videogames hybrid digital artifacts that have elements of both games and literature combining the ludic and the literary These works can be considered verbal art in the broadest sense in that language plays a significant part in their aesthetic appeal they draw on game mechanics and they are digital born dependent on a digital medium unlike for example conventional books read on e readers They employ narrative dramatic and poetic techniques in order to explore the affordances and limitations of ludic structures and processes and they are designed to make players reflect on conventional game characteristics Ensslin approaches these hybrid works as a new form of experimental literary art that requires novel ways of playing and reading She proposes a systematic method for analyzing literary ludic L L texts that takes into account the analytic concerns of both literary stylistics and ludology After establishing the theoretical underpinnings of her proposal Ensslin introduces the L L spectrum as an analytical framework for literary games Based on the phenomenological distinction between deep and hyper attention the L L spectrum charts a work s relative emphases on reading and gameplay Ensslin applies this analytical toolkit to close readings of selected works moving from the predominantly literary to the primarily ludic from online hypermedia fiction to Flash fiction to interactive fiction to poetry games to a highly designed literary auteur game Finally she considers her innovative analytical methodology in the context of contemporary ludology media studies and literary discourse analysis Relational **Designs in Literature and the Arts**, 2012-01-01 This collection focuses on texts that address the other arts from painting to photography from the stage to the screen and from avant garde experiments to mass culture Despite their diversity of object and approach the essays in Relational Designs coalesce around the argument that representations are defined by relations and dynamics rather than intrinsic features This rationale is supported by the discourses and methodologies

favoured by the book's contributors their approaches offer a cross section of the intellectual and critical environment of our time The book illustrates the critical possibilities that derive from the broad range of modes of inquiry poststructuralist criticism gender studies postcolonial studies new historicism that the book s four sections bring to bear on a wealth of intermedial practices But Relational Designs compounds such critical emphases with the voice of the practitioner the book is rounded off by an interview in which a contemporary novelist discusses her attraction to the other arts in terms that extend the book s insights and bridge the gap between academic discourse and artistic practice Viktor Shklovsky's Heritage in Literature, Arts, and Philosophy Slav N. Gratchev, Howard Mancing, 2019-07-01 This book examines the heritage of Victor Shklovsky in a variety of disciplines To achieve this end Slav N Gratchev and Howard Mancing draw upon colleagues from eight different countries across the world the United States Canada Russia England Scotland the Netherlands Norway and China in order to bring the widest variety of points of view on the subject Viktor Shklovsky's Heritage in Literature Arts and Philosophy is more than just another collection of essays of literary criticism the editors invited scholars from different disciplines literature cinematography and philosophy who have dealt with Shklovsky's heritage and saw its practical application in their fields Therefore all of these essays are written in a variety of humanist academic and scholarly styles all The Arts and the Bible Stanley E. Porter, Wendy J. Porter, 2024-01-04 Throughout its history the engaging and dynamic Christian church has had a troubled relationship with the arts whether literature poetry music visual arts or other forms of artistic expression This volume is not designed to resolve the issues but it is designed to present a number of different statements about various dimensions of the arts in their relationship to the Bible The Bible is the document that stands behind the Christian church as an inspiration to it and to its arts As a result we have divided this volume into six parts perspectives on the arts culture and art visual enactments contemporary interpretations music and the Bible and literature Many of the issues that the history of the interaction of the arts and the Bible within the Christian church has uncovered are insightfully and artfully addressed by this book The wide range of contributors runs the gamut from practicing artists of various media to scholars within varied academic fields Earth is My Mother, Sky is My Father Trudy Griffin-Pierce, 1995 Explores the circularity of Navajo thought through studies of sandpaintings chantway myths and stories reflected in the constellations Literacy Lives in Transcultural Times Rahat Zaidi, Jennifer Rowsell, 2017-07-06 Combining language research with digital multimodal and critical literacy this book uniquely positions issues of transcultural spaces and cosmopolitan identities across a range of contexts Its distinctive contribution is a framework to relate observation and analysis of these flows to language development communication and meaning making *Walter Pater: an Imaginative* Sense of Fact Philip Dodd, 2013-08-21 First Published in 1981 Pater is certainly the least widely read and understood of any of the Victorian critics and creative writers though there are signs of a coming revival of interest in him Each of the discussions included in this issue devoted to Pater touches in some significant way on his imaginative sense of fact on his

struggle with the objective givens of experience ideas or individuals and on his efforts to co opt or turn that Other into a reordered reflection of his own image
