British and Irish Experiences and Impressions of Central Europe, c.1560-1688 David Worthington,2016-04-15

Whilst much recent scholarly work has sought to place early modern British and Irish history within a broader continental context most of this has focused on western or northern Europe In order to redress the balance this new study by David Worthington explores the connections linking writers and expatriates from the later Tudor and Stuart kingdoms with the two major dynastic conglomerates east of the Rhine the Austrian Habsburg lands and Poland Lithuania Drawing on a variety of sources including journals diaries letters and travel accounts the book not only shows the high level of scholarly interest evidenced within contemporary English language works about the region but how many more British and Irish people ventured there than is generally recognised As well as the soldiers merchants and diplomats one might expect we discover more unexpected and colourful characters including a polymath Irish moral theologian in Vienna an orphaned English poetess in Prague a Welsh humanist in Cracow and a Scottish physician and botanist at the Vasa court in Warsaw This examination of the diverse range of Irish Scottish Welsh and English religious intellectual political military and commercial contacts with central Europe provides not only a more balanced view of British and Irish history but also continues the process of reintegrating the histories of the European regions Furthermore by extending the focus of research beyond widely studied areas towards other more illuminating international aspects the book challenges scholars to analyse these networks within less parochial and more transnational settings

Lithuania Thomas Lane,2014-04-08 Lithuania restored her independence after half a century of Soviet occupation in the immediate aftermath of the failed Moscow coup in August 1991 As the multi national Soviet state disintegrated Lithuania evolved without war or violence from a communist state and a command economy to a liberal democracy a free market and a society guaranteeing human and minority rights Lithuania therefore offers a notable example of peaceful transition all the more impressive in the light of the bloody conflict elsewhere in the former Soviet Union of Yugoslavia where the aspirations to independence of the constituent republics were either violently resisted or dissolved into inter ethnic violence Equally remarkable has been Lithuania s determination to return to Europe after half a century of separation even at the price of submerging its recently restored sovereign rights in the supranational European Union The cost of membership in western economic and security organizations are judged to be worth paying to prevent Lithuania s being drawn once again into a putative Russian sphere of influence On the threshold of a new millennium therefore Lithuania has made a pragmatic accommodation to the demands of becoming a modern European state whilst vigorously resisting the dilution of her rich cultural and historical traditions These twin themes of accommodation and resistance are Lithuania s historical legacy to the current generations of Lithuanians as they integrate into European institutions and continue the modernization process
