Chavs Owen Jones, 2020-10-27 In modern Britain the working class has become an object of fear and ridicule From Little Britain's Vicky Pollard to the demonization of Jade Goody media and politicians alike dismiss as feckless criminalized and ignorant a vast underprivileged swathe of society whose members have become stereotyped by one hate filled word chavs In this acclaimed investigation Owen Jones explores how the working class has gone from salt of the earth to scum of the earth Exposing the ignorance and prejudice at the heart of the chav caricature he portrays a far more complex reality The chav stereotype he argues is used by governments as a convenient figleaf to avoid genuine engagement with social and economic problems and to justify widening inequality Based on a wealth of original research Chavs is a damning indictment of the media and political establishment and an illuminating disturbing portrait of inequality and class hatred in modern Britain This updated edition includes a new chapter exploring the causes and consequences of the UK riots in the summer of 2011

Indexing 'Chav' on Social Media Emilia Di Martino, 2022-09-15 The book sets out to examine the concept of chav providing a review of its origins its characterological figures the process of enregisterment whereby it has come to be recognized in public discourse and the traits associated with it in traditional media representations The author then discusses the chav label in light of recent re appropriations in social network activity particularly through the video sharing app TikTok and subsequent commentary in the public sphere She traces the evolution of the term from its use during the first decade of the twenty first century to make sense of class status and cultural capital to its resurgence and the ways in which it is still associated with appearance in gendered and classed ways She then draws on recent developments in linguistic anthropology and embodied sociocultural linguistics to argue that social media users draw on communicative resources to perform identities that are both situated in specific contexts of discourse and dynamically changing challenging the idea that geo sociocultural varieties and mannerisms are the sole way of indexing membership of a community This volume contends that equating chav with underclass in the most recent uses of the concept on social networks may not be the whole story and the book will be of interest to sociocultural linguistics and identity researchers as well as readers in anthropology sociology British studies cultural studies identity studies digital humanities and sociolinguistics
