

Fundamentals for Nursing

Basic principles of ethics:

- **Accountability:** ability to answer for one's own actions.
- **Responsibility:** willingness to respect obligations and follow through on promises.
- **Confidentiality:** protection of privacy without diminishing access to high-quality care.
- **Advocacy:** support of clients' health, wellness, safety, and personal rights, including privacy.

Ethical principles of client care:

- **Fidelity:** fulfillment of promises.
- **Veracity:** a commitment to tell the truth.
- **Nonmaleficence:** a commitment to do no harm.
- **Autonomy:** the right to make one's own personal.
- **Justice:** fairness in care delivery and use of resources.
- **Beneficence:** action that promotes good for others, without any self-interest decisions, even when those decisions might not be in that person's own best interest.

Types of torts

Unintentional torts

- ❖ **Negligence:** A nurse fails to implement safety measures for a client at risk for falls.
- ❖ **Malpractice:** A nurse administers a large dose of medication due to a calculation error. The client has a cardiac arrest and dies.

Quasi-intentional torts

- **Breach of confidentiality:** A nurse releases a client's medical diagnosis to a member of the press.
- **Defamation of character:** A nurse tells a coworker that she believes the client has been unfaithful to her partner.

Intentional torts

- ✓ **Assault:** The conduct of one person makes another person fearful and apprehensive. A nurse threatens to place an NG tube in a client who is refusing to eat.
- ✓ **Battery:** Intentional and wrongful physical contact with a person that involves an injury or offensive contact. A nurse restrains a client and administers an injection against her wishes.
- ✓ **False imprisonment:** A person is confined or restrained against his will. A nurse uses restraints on a competent client to prevent his leaving the health care facility.

The five elements necessary to prove negligence

1. Duty to provide care
2. Breach of duty by failure to meet standard
3. Foreseeability of harm
4. Breach of duty has potential to cause harm

Fundamentals Of Nursing Review

Geralyn Frandsen, Christine Kleckner

Fundamentals Of Nursing Review:

Nursing Fundamentals Mary Ann Hogan (MSN.), 2014 PEARSON REVIEWS health promotion throughout the life span skills needed for safe practice Next it presents concise chapters on meeting basic human needs as well as the needs of clients with pain perioperative clients and those with altered skin integrity sensory perception or mobility The text concludes with a full chapter on safely administering medications and intravenous fluids A complete support package includes access to additional questions and the complete eText online and a tear out NursingNotes card for clinical reference and quick review
