Food Packaging Technology Richard Coles, Derek McDowell, Mark J. Kirwan, 2003-08-15. The protection and preservation of a product, the launch of new products or re-launch of existing products, perception of added value to products or services and cost reduction in the supply chain are all objectives of food packaging. Taking into consideration the requirements specific to different products, how can one package successfully meet all of these goals? Food Packaging Technology provides a contemporary overview of food processing and packaging technologies. Covering the wide range of issues you face when developing innovative food packaging, the book includes Food packaging strategy, design and

development Food biodeterioration and methods of preservation Packaged product quality and shelf life Logistical packaging for food marketing systems Packaging materials and processes The battle rages over which type of container should be used for which application It is therefore necessary to consider which materials or combination of materials and processes will best serve the market and enhance brand value Food Packaging Technology gives you the tools to determine which form of packaging will meet your business goals without compromising the safety of your product The Essentials of Packaging Sola Somade, Tunji Adegboye, 2018-03-09 Packaging remains the most effective medium through which goods can be made available to the consumer wherever he resides The Essentials of Packaging A Guide for Micro Small and Medium Sized Businesses has been written to guide manufacturers or anyone who has any marketable product to package As the book's title shows some emphasis has been focused on MSMEs that are at a disadvantage for various reasons among which is their lack of financial muscle to engage full time packaging professionals to handle their packaging needs on a routine basis
