**Aviation Instructor's Handbook** Federal Aviation Administration (FAA)/Aviation Supplies & Academics (Asa),2020-07-31 Designed for ground instructors flight instructors and aviation maintenance instructors this Aviation

Instructor's Handbook was developed by the Federal Aviation Administration FAA in cooperation with aviation educators and industry to help beginning instructors understand and apply the fundamentals of instruction. It provides up-to-date information on learning and teaching and how to apply this to the task of teaching aeronautical knowledge and skills to learners. Experienced aviation instructors will also find the information useful for improving their effectiveness in training activities. This book is a key reference tool to all the information necessary for operating as an authorized instructor and passing the Fundamentals of Instructing FOI FAA Knowledge Exam. Subjects covered include risk management and single pilot resource management, human behavior, the learning process, effective communication, the teaching process, assessments, planning instructional activity, instructor responsibilities and professionalism, and techniques of flight instruction. Appendices include a comprehensive bibliography of references, information on how to develop a test item bank, certificates and ratings, endorsements, and a personal minimums checklist. This new edition expands and updates the existing material, including scenario-based training relative to assessments, the submission process of an Airman Certificate and/or Rating application through IACRA, and endorsements. It also incorporates new areas of safety concerns and technical information not previously covered, such as referencing the Airman Certification Standards (ACS) alongside the Practical Test Standards (PTS), teaching practical risk management during flight instruction, and information for Remote Pilots. This book is the official FAA source for teaching flight, and many test questions for the FAA Knowledge Exams for instructors come from this reference. Complete with chapter summaries, detailed full-color drawings and photographs throughout, and a glossary and index.

Sport Pilot and Flight Instructor with a Sport Pilot Rating Knowledge Test Guide FAA-G-8082-4 Federal Aviation Administration (FAA) Staff, 2013-08-15

**Flight Instructor-Instrument for Airplane and Helicopter Practical Test Standards** Federal Aviation Administration (FAA), 2003-04. The Practical Test Standards (PTS) series guides student pilots, flight instructors, and FAA designated examiners through checkrides, the final test in acquiring a pilot license. Each PTS guide details the skill and knowledge that must be successfully demonstrated before an examiner can issue a certificate or rating. The knowledge requirements detail which subjects will be covered, which weather reports and forecasts candidates will be asked to analyze, which physiological conditions such as dehydration, spatial disorientation, and hypoxia candidates will need to discuss, and what kind of flight planning exercises will need to be demonstrated. The skill requirements include what kind of takeoff and landing must be performed, such as crosswind or short field, how a steep turn should be executed, with specifics that include what bank angle and airspeed to use, and what areas will be tested on a continuous basis, such as the checklist usage, positive exchange of flight controls, and crew resource management. The tolerances are defined so the candidates know what altitude, airspeed, headings, and banks must be maintained to complete each manoeuvre successfully. Each PTS guide lists the knowledge and experience prerequisites for a particular certificate or rating and provides background information and study and reference materials.
