Fur Farming:

The Fur Farms of Alaska Sarah Crawford Isto,2012-03-15 After its rudimentary beginning in 1749 fur farming in Alaska rose and fell for two centuries It thrived during the 1890s and again in the 1920s when rising fur prices caused a stampede for land and breed stock and led to hundreds of farms being started in Alaska within a few years The Great Depression and later the development of warm durable and lightweight synthetic materials during World War II brought further decline and eventual failure to the industry as the postwar economy of Alaska turned to defense and later to oil The Fur Farms of Alaska brings this history to life by capturing the remarkable stories of the men and women who made fur their livelihood For more than 200 years soft gold brought many people to Alaska Fur farming was Alaska s third largest industry in the 1920s and Sarah Isto writes of the many efforts successes and ultimately of the fur farming industry s failure This well researched history contextualizes current fox elimination projects on Alaska islands and explains the abandoned pens one stumbles across This is a story that has long needed to be written Joan M Antonson Alaska State Historian **Fur Farming** Arthur Robert Harding,1909 Recommendations to Beginners in Fur Farming Frank Getz Ashbrook,1928 *The Fur Farms of Alaska* Sarah Crawford Isto,2012-03-15 This title brings the history of the Alaskan fur farms to life by capturing the stories of the men and women who made fur their livelihood **Fur Farming** A.R Harding,2020-07-31 Reproduction of the original Fur Farming by A R Harding **American Fox and Fur Farmer** ,1926 *Fur-farming for Profit* Frank Getz Ashbrook,1928 **Fur-farming in Canada. 2d Ed** Canada. Congress. Senate. Committee on Appropriations,1946 World Market Transformation Robrecht Declercq,2017-05-25 To the surprise of many regionally embedded clusters of small to medium sized businesses have continued to exist in spite of industrialisation and mass production While scholars have discovered that the advantages of embeddedness in terms of industrialisation were situated in interfirm cooperation and conflict resolving mechanisms it is far less clear how changing historical circumstances on the world market i e globalisation affected such systems Taking a look inside Leipzig a capital of the global fur industry between 1870 and 1939 with its numerous highly specialised businesses both in production as well as trade World Market Transformation examines the robustness of district firms within the highly volatile international fur business This book examines how firm embeddedness not only served to overcome challenges

related to industrialisation but also strengthened the abilities of cluster firms to deal with changing world market circumstances World Market Transformation integrates the interior biased research tradition on local business systems and industrial districts into the exterior fields of global and transnational history It is demonstrated that the local business district not only emerged because of the expansion of international trade but that district processes of interfirm cooperation also gave shape to the spatial distribution conventions and structures of the very same world market The analysis of embedded communities thus offers an important instrument to examine phenomena of economic globalisation but also how such macro economic developments have been shaped and actively constructed by local actors
