Why Vergil? Stephanie Quinn, 2000 An anthology of 43 classic essays and poems on the Roman poet Quinn's position is that his work continues to be compelling and flexible enough to support a wide range of interpretations and perspectives In addition to a bibliography she provides a lengthy introduction and conclusion that tackle the question of the book's title Why Vergil Further she juxtaposes the first few lines of the Aeneid in its original Latin with five translations and includes a synopsis of it and a list of dates for quick reference She has not indexed the volume *Virgil the Partisan* Anton Powell, 2012-12-31 Since its first appearance in 2008 this book has changed the landscape of Virgilian studies Analysing closely the logic and the literary genres of Virgil's three poems it politely confronts the modern orthodoxy that Virgil signalled distaste for the methods of his ruler Octavian Augustus It refreshes the study of Virgil's poetry by comparing it with the detail normally neglected by scholars of Rome's civil wars after Julius Caesar's death when Octavian's survival looked highly unlikely And it argues that Virgil wrote as a passionate and brave partisan of Octavian who like a good lawyer confronted his patron's undeniable failings in order to defend **Twelve Voices from Greece and Rome** Christopher Pelling, Maria Wyke, 2014-10-30 Twelve Voices from Greece and Rome is a book for all readers who want to know more about the literature that underpins Western civilization Christopher Pelling and Maria Wyke provide a vibrant and distinctive introduction to twelve of the greatest authors from ancient Greece and Rome writers whose voices still resonate strongly across the centuries Homer Sappho Herodotus Euripides Thucydides Plato Caesar Cicero Virgil Horace Juvenal and Tacitus To what vital ideas do these authors give voice And why are we so often drawn to what they say even in modern times Twelve Voices investigates these tantalizing questions showing how these great figures from classical antiquity still address some of our most fundamental concerns in the world today of war and courage dictatorship and democracy empire immigration city life art madness irrationality and religious commitment and express some of our most personal sentiments about family and friendship desire and separation grief and happiness These twelve classical voices can sound both compellingly familiar and startlingly alien to the twenty first century reader Yet they remain suggestive and inspiring despite being rooted in their own

times and places and have profoundly affected the lives of those prepared to listen to them right up to the present day

Dante's Masterplot and Alternative Narratives in the Commedia Nicolò Crisafi, 2022 Alongside traditional notions of Dante's trademark plurality of linguistic registers and styles this book argues that his narrative pluralism can and should play a key role in contemporary and future readings of the *Commedia*

Between Orality and Literacy: Communication and Adaptation in Antiquity Ruth Scodel, 2014-06-05 The essays in *Between Orality and Literacy* address how oral and literature practices intersect as messages texts practices and traditions move and change because issues of orality and literacy are especially complex and significant when information is transmitted over wide expanses of time and space or adapted in new contexts Their topics range from Homer and Hesiod to the New Testament and Gaius Institutes from epic poetry and drama to vase painting historiography mythography and the philosophical letter Repeatedly they return to certain

issues Writing and orality are not mutually exclusive and their interaction is not always in a single direction Authors whether they use writing or not try to control the responses of a listening audience A variable tradition can be fixed not just by writing as a technology but by such different processes as the establishment of a Panhellenic version of an Attic myth and a Hellenistic city's creation of a single celebratory history *The Child and the Hero* Mark Petrini, 1997 Explores the presentation of liminal figures in two major Latin poets R. Harrison, Martin McLaughlin, Elisabetta Tarantino, 2020-09-07 This volume shows the pervasiveness over a millennium and a half of the little studied phenomenon of multi tier intertextuality whether as linear window reference where author C simultaneously imitates or alludes to a text by author A and its imitation by author B or as multi directional imitative clusters It begins with essays on classical literature from Homer to the high Roman empire where the feature first becomes prominent then comes late antiquity a lively area of research at present and after a series of essays on European neo Latin literature from Petrarch to 1600 another area where developments are moving rapidly the volume concludes with early modern vernacular literatures Italian French Portuguese and English Most papers concern verse but prose is not ignored The introduction to the volume discusses the relevant methodological issues An Afterword outlines the critical history of window reference and includes a short essay by Professor Richard Thomas of Harvard University who coined the term in the 1980s
