Future Of American Strategy:

The Future of American Strategy David C. Hendrickson, 1987 *American Strategy: Issues and Alternatives For the Quadrennial Defense Review* Steven Metz, 2022 **An American Strategic Theology** John A. Coleman, 2005-01-25 This book represents a major new initiative in the contemporary dialogue between theology and sociology within the specifics of the North American context Relying on a renewed confidence in the power of biblical and Christian prophetic symbolism John Coleman proposes an American theology Far from being an easy accommodation to the American style with its strong tendencies toward the privatization of religion this is a forceful and comprehensive argument for the public possibilities of the Christian gospel in contemporary American culture **Afterglow Or Adjustment?** Mark Randal Brawley, 1999 Is the United States overstretched in its international commitments This book examines differing responses to overstretch in modern history focusing mostly on military and economic policies in the U S and Britain over the past century **Averting Crisis: American Strategy, Military Spending and Collective Defence in the Indo-Pacific** Ashley Townshend, Brendan Thomas-Noone, Matilda Steward, 2019-08-19 America no longer enjoys military primacy in the Indo Pacific and its capacity to uphold a favourable balance of power is increasingly uncertain The combined effect of ongoing wars in the Middle East budget austerity underinvestment in advanced military capabilities and the scale of America s liberal order building agenda has left the US armed forces ill prepared for great power competition in the Indo Pacific America s 2018 National Defense Strategy aims to address this crisis of strategic insolvency by tasking the Joint Force to prepare for one great power war rather than multiple smaller conflicts and urging the military to prioritise requirements for deterrence vis vis China Chinese counter intervention systems have undermined America s ability to project power into the Indo Pacific raising the risk that China could use limited force to achieve a fait accompli victory before America can respond and challenging US security guarantees in the process For America denying this kind of aggression places a premium on advanced military assets enhanced posture arrangements new operational concepts and other costly changes While the Pentagon is trying to focus on these challenges an outdated superpower mindset in the foreign policy establishment is likely to limit Washington s ability to scale back other global commitments or make the strategic trade offs required to succeed in the Indo Pacific Over the next decade the US defence budget is unlikely to meet the needs of the National Defense Strategy owing to a combination of political fiscal and internal pressures The US defence budget has been subjected to nearly a decade of delayed and unpredictable funding Repeated failures by Congress to pass regular and sustained budgets has hindered the Pentagon s ability to effectively allocate resources and plan over the long term Growing partisanship and ideological polarisation within and between both major parties in Congress will make consensus on federal spending priorities hard to achieve Lawmakers are likely to continue reaching political compromises over America s national defence at the expense of its strategic objectives America faces growing deficits and rising levels of public debt and political action to rectify these challenges has

so far been sluggish If current trends persist a shrinking portion of the federal budget will be available for defence constraining budget top lines into the future Above inflation growth in key accounts within the defence budget such as operations and maintenance will leave the Pentagon with fewer resources to grow the military and acquire new weapons systems Every year it becomes more expensive to maintain the same sized military America has an atrophying force that is not sufficiently ready equipped or postured for great power competition in the Indo Pacific a challenge it is working hard to address Twenty years of near continuous combat and budget instability has eroded the readiness of key elements in the US Air Force Navy Army and Marine Corps Military accidents have risen aging equipment is being used beyond its lifespan and training has been cut Some readiness levels across the Joint Force are improving but structural challenges remain Military platforms built in the 1980s are becoming harder and more costly to maintain while many systems designed for great power conflict were curtailed in the 2000s to make way for the force requirements of Middle Eastern wars leading to stretched capacity and overuse The military is beginning to field and experiment with next generation capabilities But the deferment or cancellation of new weapons programs over the last few decades has created a backlog of simultaneous modernisation priorities that will likely outstrip budget capacity Many US and allied operating bases in the Indo Pacific are exposed to possible Chinese missile attack and lack hardened infrastructure Forward deployed munitions and supplies are not set to wartime requirements and concerningly America s logistics capability has steeply declined New operational concepts and novel capabilities are being tested in the Indo Pacific with an eye towards denying and blunting Chinese aggression Some services like the Marine Corps plan extensive reforms away from counterinsurgency and towards sea control and denial A strategy of collective defence is fast becoming necessary as a way of offsetting shortfalls in America s regional military power and holding the line against rising Chinese strength To advance this approach Australia should Pursue capability aggregation and collective deterrence with capable regional allies and partners including the United States and Japan Reform US Australia alliance coordination mechanisms to focus on strengthening regional deterrence objectives Rebalance Australian defence resources from the Middle East to the Indo Pacific Establish new and expand existing high end military exercises with allies and partners to develop and demonstrate new operational concepts for Indo Pacific contingencies Acquire robust land based strike and denial capabilities Improve regional posture infrastructure and networked logistics including in northern Australia Increase stockpiles and create sovereign capabilities in the storage and production of precision munitions fuel and other materiel necessary for sustained high end conflict Establish an Indo Pacific Security Workshop to drive US allied joint operational concept development Advance joint experimental research and development projects aimed at improving the cost capability curve

Sustaining America's Strategic Advantage Joel R. Hillison, Jerad I.

Harper, Christopher J. Bolan, 2023-02-14 Written for foreign policy practitioners scholars and students this book offers critical insights into the modern landscape of international politics and warfare and explains how the United States can sustain its

strategic advantages in the 21st century and beyond From the level of grand strategy to more intricate security issues this book explores how the United States can sustain its strategic military and political advantages around the world Developing and implementing effective national policies fostering strong diplomatic and geopolitical ties with allies in Europe the Indo Pacific and the Middle East and managing an effective defense enterprise are key according to the authors to competing on a shifting international security landscape Advancing the literature on grand strategy and outlining emerging critical issues in security this book offers an overarching framework for strategy an analysis of crucial security related topics such as cyber warfare and informed opinions on components of competitive success such as irregular warfare and partner building Written by well respected scholars security professionals and foreign policy practitioners this book goes beyond focusing on hard power to consider how the U S can leverage its education institutions and a worldwide network of allies and partners to sustain its strategic advantage now and in the future *America's Strategic Choices, revised edition* Michael E.

Brown,Owen R. Cote, Jr.,Sean M. Lynn-Jones,Steven E. Miller,2000-07-18 Contending perspectives on the future of US grand strategy More than a decade has passed since the end of the Cold War but the United States has yet to reach a consensus on a coherent approach to the international use of American power The essays in this volume present contending perspectives on the future of U S grand strategy U S policy options include primacy cooperative security selective engagement and retrenchment This revised edition includes additional and more recent analysis and advocacy of these options The volume includes the Clinton administration s National Security Strategy for a New Century the most recent official statement of American grand strategy so readers can compare proposed strategies with the official U S government position **America in the Third World** Steven Metz,1994 The Taiwan Issue In Sinoamerican Strategic Relations Martin L

Lasater,2019-07-09 The first two years of the Reagan administration saw a close correlation between improved unofficial relations between Washington and Taipei and a deterioration of strategic cooperation between Washington and Beijing These developments led many U S officials and scholars to conclude that U S security interests may require periodic concessions over Taiwan to ensure China s cooperation in countering the Soviet threat Rejecting this view Mr Lasater argues that Washington s and Beijing s bilateral relations with Moscow and not the Taiwan issue are the key international determinants of Sino American strategic cooperation Examining the parameters of that cooperation and the role of Taiwan in Sino American relations Mr Lasater suggests that Beijing is deliberately using U S security concerns to seek concessions on Taiwan and other issues He advises a policy that stands firm in negotiations with the Chinese and that resists the temptation to make politically expedient concessions a more balanced course of action whereby improved relations with Beijing are sought concurrently with the maintenance of friendly unofficial ties with Taipei *Strategic Review* ,1985 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States Iraq and the Evolution of American Strategy Steven Metz,2008-10-31 Today the U S

military is more nimble mobile and focused on rapid responses against smaller powers than ever before One could argue that the Gulf War and the postwar standoff with Saddam Hussein hastened needed military transformation and strategic reassessments in the post Cold War era But the preoccupation with Iraq also mired the United States in the Middle East and led to a bloody occupation What will American strategy look like after U S troops leave Iraq Iraq and the Evolution of American Strategy examines the ways in which the Gulf War the WMD standoff the Iraq War and the ongoing occupation have driven broader changes in U S national security policy and military strategy Steven Metz answers three overarching questions 1 How did the conflict with Iraq drive and shape broader changes in national security and military strategy 2 Did policymakers and military leaders interpret the conflict correctly and make the most effective responses 3 What does this process tell us about the process of change in America s national security and military strategy and in the evolution of its strategic culture Metz concludes that the United States has a long standing continuing problem developing sound assumptions when the opponent operates within a different psychological and cultural framework He sees a pattern of misjudgments about Saddam and Iraq based on Western cultural and historical bias and a pervasive faith in the superiority of America s worldview and institutions This myopia contributed to America being caught off guard by Saddam s invasion of Kuwait in 1990 then underestimating his longevity and finally miscalculating the likelihood of a stable and democratic Iraq after he was toppled With lessons for all readers concerned about America s role in the world Dr Metz s important new work will especially appeal to scholars and students of strategy and international security studies as well as to military professionals and DOD civilians With a foreword by Colin S Gray **Future Survey Annual 1988-1989** Michael Marien, Lane Jennings, 1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time From the revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3 and its controversial replacement the Z4 the family has made BMW s name in the increasingly competitive sports car market

America's Strategy in World Politics Nicholas John Spykman, Less than a year after the United States entered the Second World War Nicholas Spykman wrote a book that placed the war effort in the broader context of the 1940s global balance of power In America s Strategy in World Politics Spykman examined world politics from a realist geopolitical perspective The United States he explained was fighting for its very survival as an independent country because the conquests of Germany and Japan raised the specter of our geopolitical encirclement by hostile forces controlling the power centers of Europe the Middle East and East Asia Spykman warned that the United States could not safely retreat to a defensive position in the Western Hemisphere Spykman looked beyond the immediate strategic requirements of the Second World War envisioning a postwar world in which the United States would help shape the global balance of power to meet its security needs Even though Soviet Russia was our wartime ally Spykman recognized that a geopolitically unbalanced Soviet Union could threaten to upset the postwar balance of power and thereby endanger U S security Spykman also foresaw the

rise of China in postwar Asia and the likely need for the United States to ally itself with Japan to balance China's power. He also recognized that the Middle East would play a pivotal role in the postwar world. Spykman influenced American postwar statesmen and strategists. During the Cold War, the U.S. sought to deny the Soviet Union political control of Western Europe, the Middle East, and East Asia. Spykman's geopolitical vision of U.S. security supported by a balanced Eurasian land mass coupled with his focus on power as the governing force in international relations makes America's Strategy in World Politics relevant to the twenty-first century.

U.S. Army War College Guide to Strategy Joseph R. Cerami, James F. Holcomb, 2001. For more than 3 decades the U.S. Army War College (USAWC) Department of National Security and Strategy has faced the challenge of educating future strategic leaders on the subject of national security or grand strategy. Fitting at the top of an officer's or government official's career-long professional development program, this challenge has been to design a course on strategy that incorporates its many facets in a short period of time, all within the 1-year senior service college curriculum. To do this, a conceptual approach has provided the framework to think about strategy formulation. The purpose of this volume is to present the USAWC strategy formulation model to students and practitioners. This book serves as a guide to one method for the formulation, analysis, and study of strategy, an approach which we have found to be useful in providing generations of strategists with the conceptual tools to think systematically, strategically, critically, creatively, and big.

Balancing what is described in the chapters as ends, ways, and means remains at the core of the Army War College's approach to national security and military strategy and strategy formulation.

America's Strategy in a Changing World Sean M. Lynn-Jones, Steven E. Miller, 1992. Del 1: America's Strategic options in a Changing Security Environment. Del 2: Dimensions of U.S. Strategy after the Cold War.

Forum National War College (U.S.), 1970. **The National Security Affairs Forum**, 1970.

Asia Eyes America Jonathan D. Pollack, 2007. Contains a collection of papers produced by participants, U.S. and regional scholars and analysts at a conference Asia Eyes America held at the Naval War College in Newport, Rhode Island, in May 2006. What are the implications of Asia's longer-term transformation for U.S. interests? How might change reconfigure American security requirements in the next decade and beyond? On what basis does the United States reaffirm yet redefine its enduring commitment to regional order? This volume is a collaborative effort involving prominent specialists on both sides of the Pacific. The book focuses on underlying attitudes toward American power and policy, especially as viewed by strategic analysts within the region. Various contributors describe contradictory attitudes toward American power. Most states hope to deepen ties with the United States while avoiding comprehensive envelopment in U.S. strategy. There is a tension between the preference for continued American regional involvement while seeking to limit possibilities of highly intrusive U.S. policy interventions. Both considerations will continue to shape regional attitudes toward American power, especially U.S. military power.

Publisher's description. **American National Security** Amos A. Jordan, William J. Taylor, Jr., Michael J. Meese, Suzanne C. Nielsen, 2009-02-20. The sixth edition of American National Security has been extensively rewritten to take

Creating an American Lake Hal M. Friedman, 2000-11-30 Many historians of U S foreign relations think of the post World War II period as a time when the United States as an anti colonial power advocated collective security through the United Nations and denounced territorial aggrandizement Yet between 1945 and 1947 the United States violated its wartime rhetoric and instead sought an imperial solution to its postwar security problems in East Asia by acquiring unilateral control of the western Pacific Islands and dominating influence throughout the entire Pacific Basin This detailed study examines American foreign policy from the beginning of the Truman Administration to the implementation of Containment in the summer and fall of 1947 As a case study of the Truman Administration s Early Cold War efforts it explores pre Containment policy in light of U S security concerns vis a vis the Pearl Harbor Syndrome The American pursuit of a secure Pacific Basin was inconsistent at the time with its foreign policy toward other areas of the world Thus the consolidation of power in this region was an exception to the avowed goal of a multilateral response to the policies of the Soviet Union This example of national or strategic security went much further than simple military control it included the cultural assimilation of the indigenous population and the unilateral exclusion of all other powers Analyzing traditional archival records in a new light Friedman also investigates the persisting American notions of a Westward moving frontier that stretches beyond North American territorial bounds
