International Arbitration Checklists:

International Arbitration Checklists Grant Hanessian, Lawrence W. Newman, Kabir Duggal (A. N.), Kyle Richard Olson, 2016 *International Arbitration Checklists - Second Edition* Grant Hanessian, Lawrence W. Newman, 2009-04-01 Baker McKenzie has one of the world's largest and most successful international arbitration practices. This book, written by members of the International Dispute Resolution Practice Group of Baker McKenzie and others, provides a practical experience-based guide to international arbitration. Each chapter begins with a checklist of issues to be considered at each stage of arbitration. Topics include drafting arbitration clauses, commencement of the case, staying court proceedings, compelling arbitration, selection of the tribunal, provisional relief, conduct of hearings, and enforcement of awards, among many others. Law and practice in each of the world's major arbitration centers is discussed. Appendices provide ready access to arbitration treaties, statutes, and rules. This book will be a standard reference for in-house counsel and outside practitioners.

Construction Checklists Eric A. Berg, 2008 *ALI-ABA's Practice Checklist Manual on Advising Business Clients II*, 2000. Disk contains forms and checklists from the printed text. **Procedure and Evidence in International Arbitration** Jeffrey Waincymer, 2012-05-23. Central to the book's purpose is the procedural challenge facing arbitrators at each and every stage of the arbitral process when fairness arguments conflict with efficiency concerns and trade-offs must be determined. Some key themes include how can a tribunal be fair and in particular be neutral if parties are so diverse? How can arbitration be made efficient and cost-effective without undue inroads into fairness and accuracy? How does a tribunal do what is best if the parties are choosing a suboptimal process? When can or must an arbitrator ignore procedural choices made by the parties? The author thoroughly evaluates competing arguments and adds his own practical tips, expertly synthesizing and engaging with the conference literature and differing authors' views. He identifies criteria that offer a harmonized approach to each stage of the arbitral process with particular attention to such aspects of international arbitration as appropriate trade-offs between flexibility and certainty, the rights, duties, and powers of arbitrators, appointment and challenge of arbitrators, responses to guerilla tactics, drafting of arbitration agreements including specialty clauses, drafting of required commencement notices and response documents, set-off, fast-track arbitration, and other efficiency options, strategic use of preliminary conferences and timetabling, online arbitration, multi-party, multi-contract, class arbitration, amicus and third-party funders, pre-arbitral referees, and interim relief, witness evidence, both factual and expert, documentary evidence production obligations and challenges to production, identifying applicable law and remedies, and costs. *Leading Arbitrators' Guide to International Arbitration - Third Edition* Lawrence W. Newman, Richard D. Hill, 2014-04-01. The *Leading Arbitrators' Guide to International Arbitration*, Third Edition, offers thoughtful advice and insights into the world of international arbitration from some of the most prominent and experienced international arbitrators in the world. The contributors are arbitrators from Australia, Belgium, Canada, Chile, Denmark, England, France, Germany, Italy, The Netherlands, Italy, Spain, Sweden, Switzerland,

and the USA The contributors offer insights and advice on the way in which international arbitrations are carried out from the point of view of arbitrators reading pleadings and memorials and listening to witnesses and hearing arguments The authors discussions are intended to be thoughtful insightful and useful and perhaps occasionally iconoclastic As a result there may be instances in which the authors disagree with one another on certain points This is to be expected for there are often many routes that can be taken to achieve a result The book will be useful not only to persons who may serve as arbitrators in international arbitral proceedings but also to those who may in their position as advocates wish to persuade persons including perhaps the authors
