Science Fiction, New Space Opera, and Neoliberal Globalism Jerome Winter, 2016-11-15 One of the few points critics and readers can agree upon when

discussing the fiction popularly known as New Space Opera a recent subgenre movement of science fiction is its canny engagement with contemporary cultural politics in the age of globalisation This book avers that the complex political allegories of New Space Opera respond to the recent cultural phenomenon known as neoliberalism which entails the championing of the deregulation and privatisation of social services and programmes in the service of global free market expansion Providing close readings of the evolving New Space Opera canon and cultural histories and theoretical contexts of neoliberalism as a regnant ideology of our times this book conceptualises a means to appreciate this thriving movement of popular literature

Mexico, the End of the Revolution Donald C. Hodges, Ross Gandy, 2001-10-30 This study reveals how the social pact formalized during the armed stage of the Mexican Revolution 1910 20 and implemented during the second stage 1920 40 was upset during the third or arrested stage 1940 70 when the bureaucrat professionals at the helm opted for intensive economic development by taking the capitalist road Although momentarily revived during yet a fourth stage of revolution 1970 82 this social pact was subsequently betrayed from within by the official party of the Revolution and undermined from without by the operation of economic forces behind the scenes In this first book on the complete history of the Mexican Revolution Hodges and Gandy reveal that along with the end of its social pact Mexico passed out of its former nationalist and capitalist orbit to enter the new professional societies and global order fathered by the transnationals From 1920 to 1970 Mexico s bureaucrat professionals hung onto political power while native capitalists continued to flourish In response Mexico s workers and peasants staged strikes against the nationalized sector and fomented guerrilla wars Concessions were then made to this group until beginning in 1982 the social pact was again eroded at the expense not only of the popular sectors but also of the capitalists The economic surplus was redistributed away from owners and into the pockets of professionals That was the Revolution s last gasp before it was officially put to rest in 2000 with the official party s defeat at the polls Hodges and Gandy challenge the current belief that Mexico s economic system is still capitalist by presenting statistical evidence that shows how the chief beneficiaries of the economy are no longer the providers of capital but instead the providers of professional services

problem from a text oriented point of view dealing primarily with the how and which Other scholars present the psychological perspective by focusing on the cognitive and emotional processes that underlie viewers experience of suspense that is the reception theory tries to answer the question of why suspenseful texts may be experienced as they are **60**
