Internal Colloquies Poems And Plays Of I A Richards:

Internal Colloquies Ivor Armstrong Richards, 1972 I. A. Richards (Routledge Revivals) John Paul Russo, 2015-06-11
A pioneering critic educator and poet I A Richards 1893 1979 helped the English speaking world decide not only what to read but how to read it Acknowledged father of New Criticism he produced the most systematic body of critical writing in the English language since Coleridge His method of close reading dominated the English speaking classroom for half a century John Paul Russo draws on close personal acquaintance with Richards as well as on unpublished materials correspondence and interviews to write the first biography originally published in 1989 of one of last century s most influential and many sided men of letters Internal Colloquies Ivor Armstrong Richards, 1971 *Internal Colloquies* Ivor Armstrong Richards, 1972 **Some Versions of Empson** Matthew Bevis, 2007-11-01 William Empson was one of the most important poet critics of the twentieth century and continues to influence and inspire writers from many divergent critical traditions Following on recent scholarly developments this timely collection of essays provides a fully rounded examination of Empson s life work inheritance and influence This is the first volume of critical essays on Empson to be published in over a decade and the first to consider the full range of his work studying his poetry alongside his criticism in order to reassess the scale of his achievement It also includes the first publication of a substantial interview with Empson in 1970 in which he looks back over his career and discusses the composition and reception of his work The collection examines Empson s oeuvre from a variety of angles aesthetic philosophical psychological linguistic scientific socio political religious and sexual and features essays from an outstanding line up of emerging and established scholars **Some Versions of Empson** demonstrates the poet critic s continuing importance for literary and cultural criticism and sets the agenda for studies of his work in the twenty first century **Dictionary of Twentieth-Century British Philosophers** Stuart Brown, Hugh Terence Bredin, 2005-08-01 No Marketing Blurb **Rhetoric and Hermeneutics** Carol A. Newsom, 2019-06-03 This collection of essays by Carol A Newsom explores the indispensable role that rhetoric and hermeneutics play in the production and reception of biblical and Second Temple literature Some of the essays are methodological and programmatic while others provide extended case studies Because rhetoric is as Kenneth Burke put it a strategy for encompassing a situation the analysis of rhetoric illumines the ways in which texts engage particular historical moments shape and reshape communities and even construct new models of self and agency The essays in this book not only explore how ancient texts hermeneutically engage existing traditions but also how they themselves have become the objects of hermeneutical transformation in contexts ranging from ancient sectarian Judaism to the politics of post World War I and II Germany and America to modern film criticism and feminist re reading *Wittgenstein's Artillery* James C. Klagge, 2021-08-03 How Wittgenstein sought a more effective way of reaching his audience by a poetic style of doing philosophy Ludwig Wittgenstein once said Really one should write philosophy only as one writes poetry In Wittgenstein s Artillery James Klagge shows how in search of ways to reach his audience

Wittgenstein tried a more poetic style of doing philosophy Klagge argues that deploying this new philosophical artillery Klagge s term for Wittgenstein s methods of influencing his readers and students Wittgenstein moved from an esoteric mode to an evangelical mode aiming for an effect on his audience that was noncognitive appealing to the temperament in addition to the intellect Wittgenstein was an artillery spotter directing artillery fire to targets in the Austrian army during World War I and Klagge argues that years later he became a philosophical spotter struggling to find the right artillery to accomplish his philosophical purpose Klagge shows how Wittgenstein s work with his students influenced his style of writing philosophy and motivated him to care about the effect of his ideas on his audience To illustrate Wittgenstein s evolving approach Klagge draws on not only Wittgenstein s best known works but also such lesser known material as notebooks dictations lectures and recollections of students Klagge then goes beyond Wittgenstein to present a range of literature biblical parables and children s stories Dostoevsky and Tolstoy Kierkegaard and Nietzsche as other examples of the poetic approach He concludes by offering his own attempts at a poetic approach to addressing philosophical issues

The Cambridge History of Literary Criticism: Volume 7, Modernism and the New Criticism George Alexander Kennedy,1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction Foundations Aesthetics V 1 John

Constable,2013-09-13 This is Volume I of ten in the selected works of I A Richards 1919 to 1938 This set gathers the major writings of I A Richards between 1919 and 1938 including a large proportion of his periodical journalism together with a selection from previously unpublished manuscript articles now held in the Richards Collection of Magdalene College

Cambridge The aim of this edition has been to provide modernised and corrected standard texts of these classics of twentieth century literary theory and also to make available for research less accessible books and articles Rumors of Wisdom Scott

C. Jones,2009 Efforts at interpreting Joban poetry have often been divided between philological and literary critics This study brings these two critical modes together to offer an account of how Job 28 achieves meaning The heart of the study consists of two major sections The first is a reading of the poem with special attention to the conceptual background of its metaphors Rather than a poetic account of mining technology Job 28 is properly understood against the heroic deeds of ancient

Mesopotamian kings described in Sumerian and Akkadian royal narratives especially the Gilgamesh epic The second major section is a thorough philological and textual commentary in which comparative philological and text critical methods are complemented by an aesthetic rationale for restoring the text of the poem as a work of art The study reveals a multileveled and image driven masterpiece whose complexity impacts how one reads Job 28 as poetry and theology **Poetries: Their**

Media and Ends I. A. Richards,2019-05-20 No detailed description available for Poetries Their Media and Ends

Wittgenstein in the 1930s David G. Stern,2018-10-04 Wittgenstein s middle period is often seen as a transitional phase connecting his better known early and later philosophies The fifteen essays in this volume focus both on the distinctive character of his teaching and writing in the 1930s and on its pivotal importance for an understanding of his philosophy as a

whole They offer wide ranging perspectives on the central issue of how best to identify changes and continuities in his philosophy during those years as well as on particular topics in the philosophy of mind religion ethics aesthetics and the philosophy of mathematics The volume will be valuable for all who are interested in this formative period of Wittgenstein s development *The National union catalog, 1968-1972* ,1973 **Contemporary Perspectives on Rhetoric** Sonja K.

Foss,Karen A. Foss,Robert Trapp,2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory I A Richards Ernesto Grassi Cha m Perelman and Lucie Olbrechts Tyteca Stephen Toulmin Richard Weaver Kenneth Burke J rgen Habermas bell hooks Jean Baudrillard and Michel Foucault The brief biographical sketches locate the theorists in time and place showing how life experiences influenced perspectives on rhetorical thought The concise explanations of complex concepts are clear engaging insightful and highly accessible serving as an excellent primer for reading the major works of these scholars The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context Each chapter ends with a complete bibliography of works by the theorists **Hamlet and Other Shakespearean Essays**

L. C. Knights,1979-10-04 In these essays the author explores the ways in which an understanding of Shakespeare s work can enrich other areas of knowledge from politics to emotional experience **The Sin of Knowledge** Theodore Ziolkowski,2021-01-12 Adam Prometheus and Faust their stories were central to the formation of Western consciousness and continue to be timely cautionary tales in an age driven by information and technology Here Theodore Ziolkowski explores how each myth represents a response on the part of ancient Hebrew ancient Greek and sixteenth century Christian culture to the problem of knowledge particularly humankind s powerful perennial and sometimes unethical desire for it This book exposes for the first time the similarities underlying these myths as well as their origins in earlier trickster legends and considers when and why they emerged in their respective societies It then examines the variations through which the themes have been adapted by modern writers to express their own awareness of the sin of knowledge Each myth is shown to capture the anxiety of a society when faced with new knowledge that challenges traditional values Ziolkowski s examples of recent appropriations of the myths are especially provocative From Voltaire to the present the Fall of Adam has provided an image for the emergence from childhood innocence into the consciousness of maturity Prometheus as the challenger of authority and the initiator of technological evil yielded an ambivalent model for the socialist imagination of the German Democratic Republic And finally an America unsettled by its responsibility for the atomic bomb and worrying that in its postwar prosperity it had betrayed its values recognized in Faust the disturbing image of its soul **Selected Letters of Robert Penn Warren**

Robert Penn Warren,2011-06-14 The years 1969 and 1979 bookend a volatile and divisive decade in American history As an articulate and sagacious witness to the era of the Vietnam War Watergate America s Bicentennial Jimmy Carter and the national malaise Robert Penn Warren produced a phenomenal body of work in these years securing his place in the canon of

American poetry This fifth volume of Selected Letters of Robert Penn Warren provides insight into Warren s inspiration during a remarkably productive era and will prove an essential resource and testament to his life and work **The Publishers Weekly** ,1972 *The National Union Catalogs*, 1963- ,1964
