# International Handbook Of Ear Relex Points

**Dr. Paul Drouin**

## **International Handbook Of Ear Reflex Points:**

**Auriculotherapy Manual** Terry Oleson, 2013-10-21 Auriculotherapy Manual Chinese and Western Systems of Ear Acupuncture provides a comprehensive guide to the practice of Chinese and Western systems of ear acupuncture. This impressive new edition utilizes 3 D models of the external ear as well as 3 D anatomical images to demonstrate the somatotopic relationship between particular parts of the body and specific regions of the auricle. This is the first ear acupuncture text that has incorporated 3 D technology in order to present amazing images of the auricle which precisely indicate ear acupoint positions. The book offers in depth evaluation of the theoretical and clinical underpinnings of auriculotherapy describing and illustrating over 200 ear acupuncture points and more than 200 auriculotherapy treatment protocols for clinical disorders ranging from chronic pain to substance abuse to visceral and neurological disorders. There are an expanded number of auricular landmarks that are utilized to guide the practitioner in accurately determining the precise location of hidden ear points on the 3 D model. These landmarks further reveal the varied depth perspectives of the external ear. The ear reflex points presented in this manual are based upon systematic research conducted at the UCLA Pain Management Center and upon the extensive clinical findings of medical doctors and acupuncturists in China and Europe over the past 50 years. Scientific and clinical information from the most recent international symposia of auricular acupuncture have been used to update the scientific and clinical knowledge presented in this fourth edition. Each chapter is organized in same basic order beginning with an introductory overview progressing to the main topics in the chapter and ending with a section listing a definition of terms and a set of preparatory sample questions. The book is concise and clear enough for students yet provides sophisticated clinical approaches to allow the experienced practitioner to enhance and complement their existing treatment strategies.

**Guo Ji Er Zhen Shou Ce** Terry Oleson, 1995 The ear reflex points presented in this handbook are based upon extensive research conducted at the UCLA Pain Management Center which compared the pioneering auriculotherapy work of the French physician Dr Paul Nogier to ear acupuncture charts developed in China. Auriculotherapy is an alternative treatment modality used to alleviate different conditions of the body by stimulating specific regions of the ear. The external ear is somatotopically viewed as an inverted fetus with specific parts of the body represented on specific regions of the ear in an orderly arrangement. To allow for international understanding of this innovative clinical procedure all ear reflex points have been identified by a specific number an indication of whether it is a point within the Chinese or French auricular nomenclature systems and a name which corresponds to the body that is represented. All ear reflex points names have been listed in nine languages English French Spanish German Japanese Korean Russian and Persian. Also presented is a new standardized auricular nomenclature system designating anatomical zones of the ear for the use in international communications. Specific auriculotherapy treatment plans for addictions pain and a variety of other clinical problems are shown in detailed drawings of the ear. The most popular section of this book is the pictured

treatment plans the twenty seven disorders most effectively treated using auriculotherapy

### Creative

**Integrative Medicine** Dr. Paul Drouin, 2014-08-19 A family tragedythe loss of his youngest brother at age eighteen from an osteosarcoma of the skulltriggered Dr Drouins interest in studying medicine Unsatisfied with the model of healing he encountered in medical school he explored many other models of medicine that eventually led him to practice what is now called integrative medicine He soon realized that for these complementary medicines to be accepted and integrated into our health care system they must be scientifically recognized and become part of the curriculum in medical schools The entire foundation of our approach to health and disease must be redefined through a deeper understanding of reality as described by quantum physics Dr Drouins initial quest has evolved into the creation of a medical and natural medicine curriculum that embraces this new paradigm of healing and the foundation of the International Quantum University for Integrative Medicine Quantum University The cost of an incomplete model of understanding in medicine has enormous consequences in the management of chronic and mind related disease Creative integrative medicine addresses the real questions and offers a solution to the present crisis in health care Dr Paul Drouin is a true hero for writing this long overdue book Finally people are being told the truth about health healing and alternative treatments This book has sound scientific proof to empower you back to true health care instead of sick care Read and learn Joe Dispenza DC New York Times best selling author of You Are the Placebo and Evolve Your Brain
